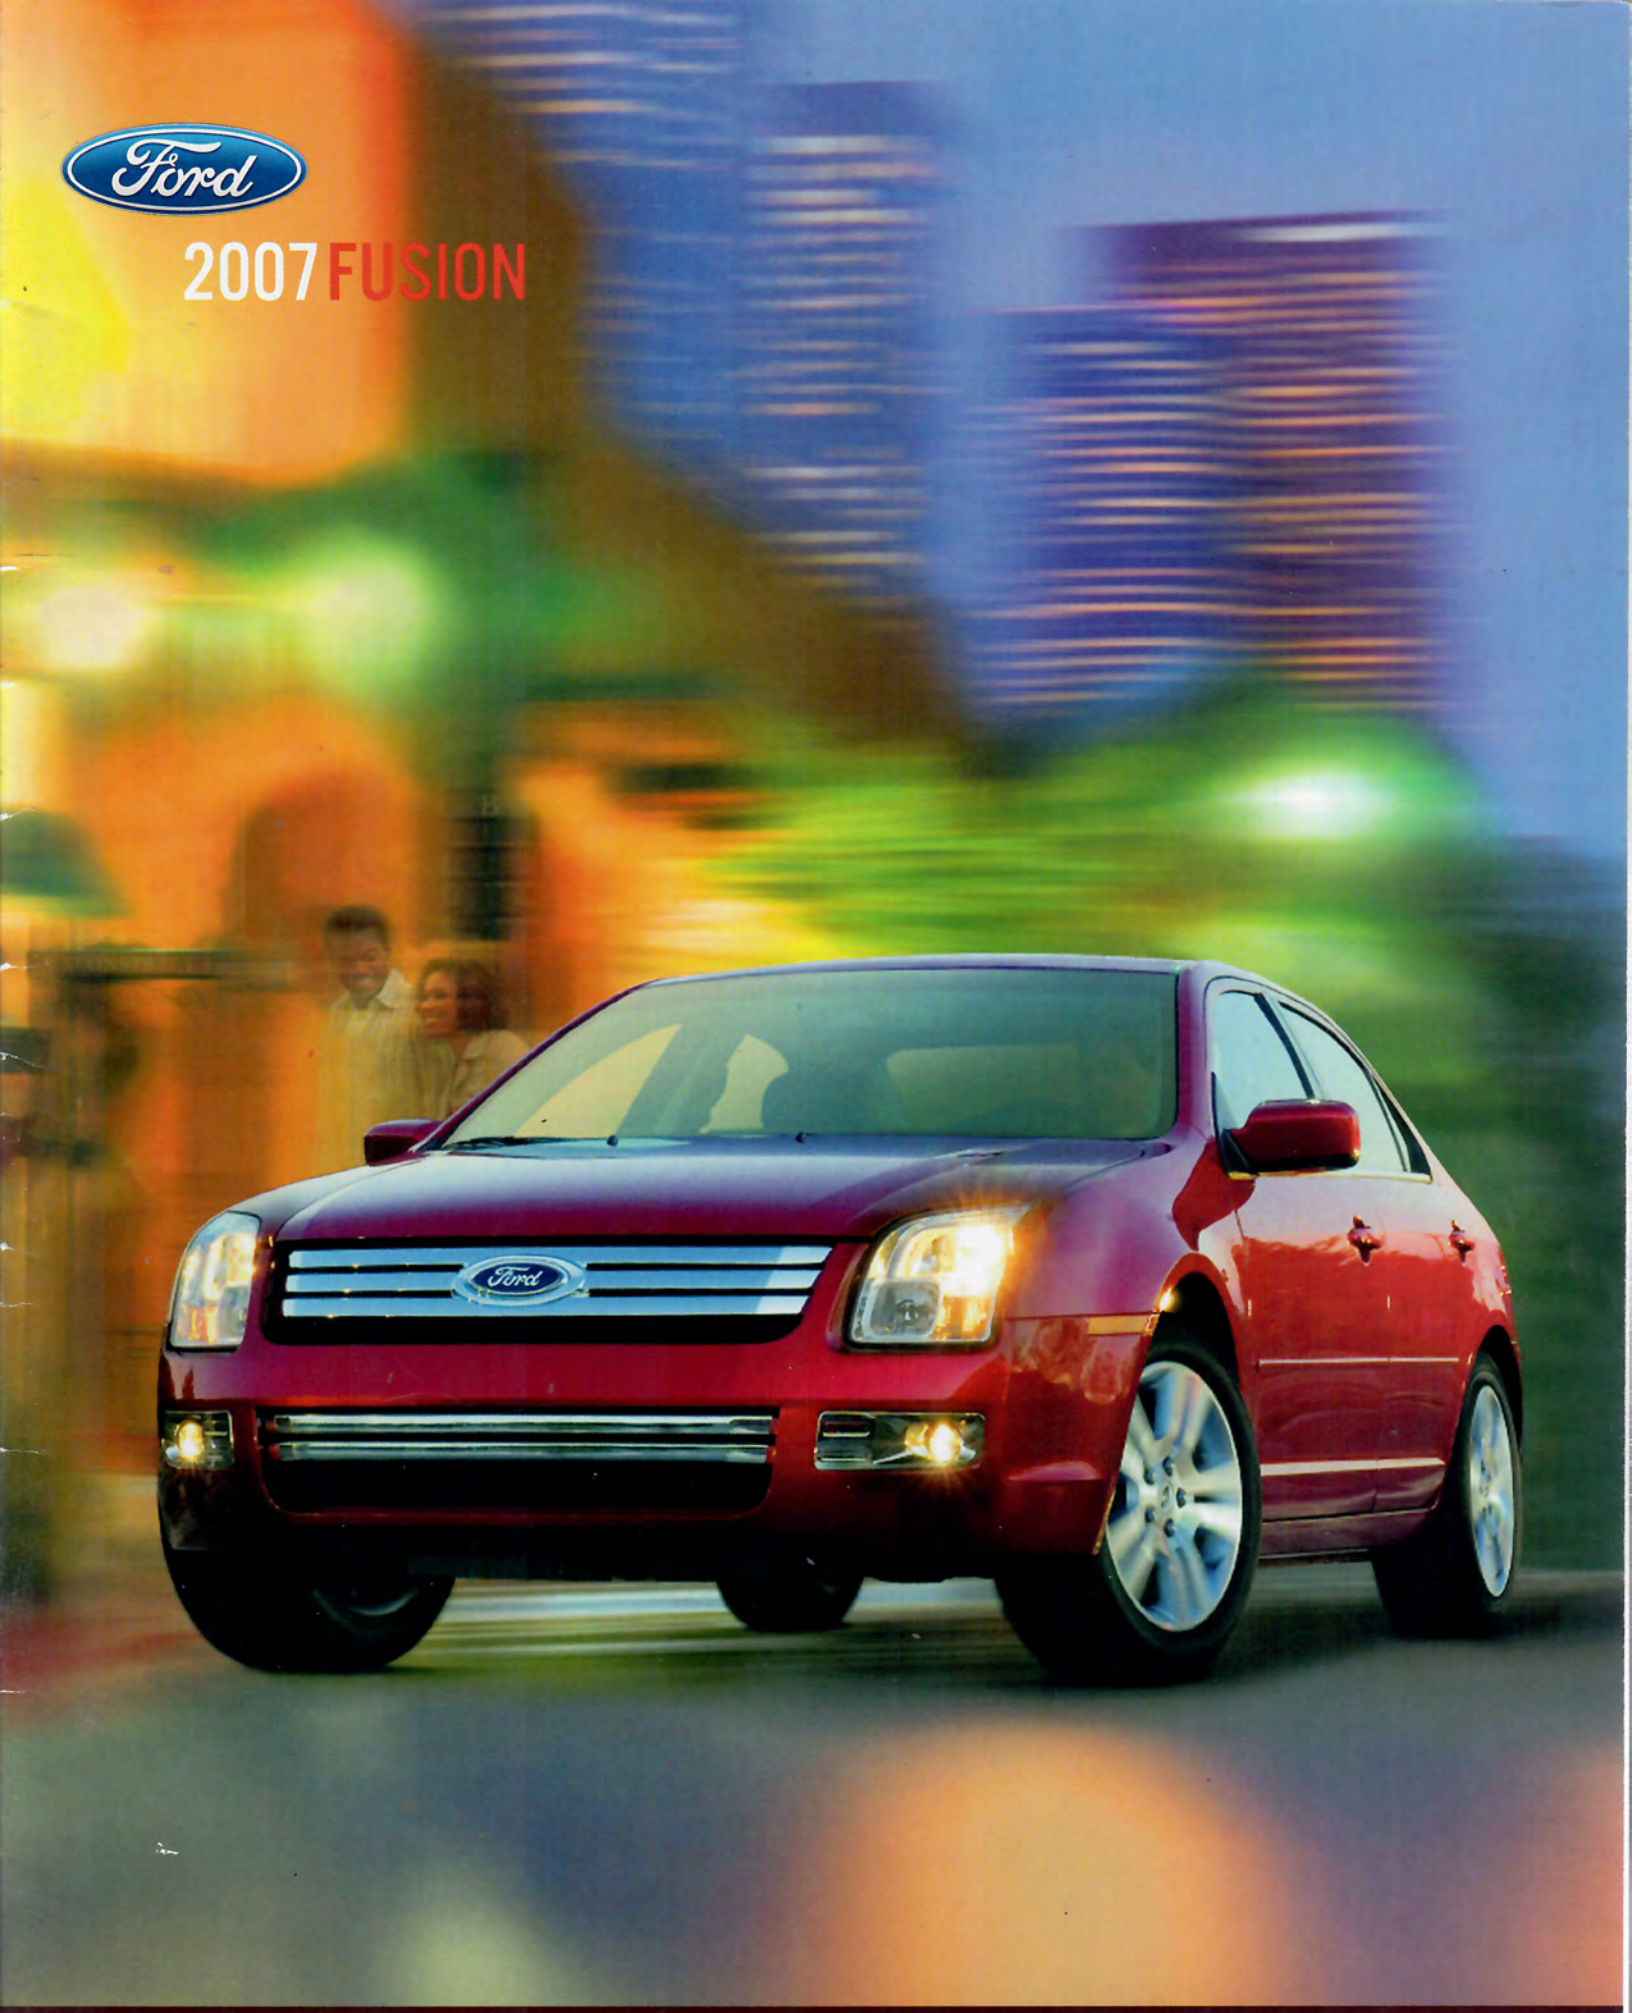
2007 FUSION



fordvehicles.com

Flies in the face of convention

From its gleaming grin to its distinctive tail, Fusion will never be mistaken for anything else on the road. Neither will you. But with an available 221-hp V6 and performance that *CARandDRIVER.com (December 2005)* singled out as "Euro muscle instead of mass-market mush," others on the asphalt won't see much of you anyway... except in passing.

Head-turning No bland sedan here. Even the critics laud Fusion's "chic styling" (*AutoWeek*) and call it the "best looking car in its class" (*Edmunds.com*). Leave conventional design to the masses.

Agile Fusion holds the corners and powers through the straightaways with incredible finesse – and loads of fun. Now with an available, class-exclusive All-Wheel-Drive system, it never sacrifices performance, come rain or shine.

Accommodating An expansive, body-hugging interior and huge trunk mean no one feels left out and nothing gets left behind. And, on top of all that room, Fusion is supremely adaptable in so many ways.

Different If you got it, flaunt it. Fusion's definitely got it.

- J.D. Power's most appealing midsize sedan (see below)
- Class-exclusive available All-Wheel-Drive system
- First-in-class* 6-speed automatic transmission

Ultra-appealing Don't just take our word. Ask some real drivers. You'll find that midsize car owners ranked Fusion #1 in the J.D. Power and Associates APEAL Study℠† – the measure of owner delight with the design, content, layout and performance of their new vehicles. So now you *know* it's true.

*Midsize Sedan class (100–103 cu. ft. passenger volume non-premium). Excluding Mazda6. †The J.D. Power and Associates APEAL Study (Automotive Performance, Execution and Layout) measures owner delight with the design, content, layout and performance of their new vehicles. Ford Fusion received the highest numerical score among midsize cars. Study based on responses from 63,607 new vehicle owners, measuring 251 models and measures opinions of consumers after 90 days of ownership. Visit jdpower.com.

BOLDMOVES

Fusion SEL V6 in Redfire Metallic

Stands out from the crowd

Turn on the charm in one of 10 tempting colors. Bold in Black. Racy in Redfire. Alluring in Alloy. Daring in Dark Amethyst. Fusion can assume nearly any identity you choose. But one thing is certain: You'll never travel incognito.

Commanding From every angle, Fusion grabs attention. Its aggressive, hunkered-down stance is rooted on wide rubber, mounted on big 16" or available 17" wheels. Flared fenders and sleek side sheet metal give it athletic poise. And at the rear, sculpted lights and an available spoiler are complemented by glints of chrome.

Bold And proud of it. Fusion's 3-bar chrome grille anchors its jewel-like, halogen headlamps. These powerful lamps are housed in curving lenses that flow upward, tracing the hoodline. In SE and SEL models, the lower grille is punctuated by chrome-ringed fog lamps too.

Stitched-up Fusion's fashion sense isn't just for the benefit of onlookers. Drivers and passengers are treated with just as much attentive pampering inside, like contrast stitching on the available leather-trimmed seats (SE and SEL models) – a perfect finishing touch.

Fusion SEL V6 in Dark Blue Pearl Metallic with available rear spoiler

Holds its ground with AWD

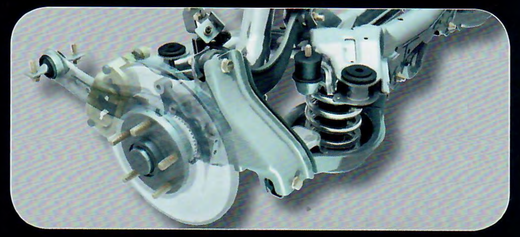
When the pavement gives way to gravel, wet leaves or ice, you won't have to give up... performance, that is. Unlike competitors, Fusion offers class-exclusive All-Wheel Drive (optional on V6 models) to provide confidence in unpredictable situations.

Active Using a series of sophisticated sensors, Fusion's AWD system can detect any wheel slip, then jump into action to correct the situation by shifting power to the individual wheel that has traction. Some other systems only shift power from back to front or front to rear. Fusion is more discriminating.

Instantaneous Fusion's AWD system monitors vehicle conditions – and driver inputs – 100 times a second. Then it reacts to shift power between wheels to maintain the best traction. If necessary, the system can even change the engine speed if it's too fast for the situation. And it all works so quickly and seamlessly, you'll never know it's happening. Fast *and* intelligent.

Power-packed If your daily drives are relegated to morning rush hour, you've got to make your own fun. Fusion's standard 160-hp I-4 engine and 5-speed manual transmission will revitalize the joy of driving. (It'll also lessen your stops at the fuel pump.*) If you choose, there's also a 5-speed automatic so your left foot can just stretch out and relax. To get the ultimate kick out of every inch of asphalt, step it up and step on Fusion's punchy 221-hp V6. Optional on SE and SEL, this smile-inducing engine is teamed with a first-in-class** 6-speed automatic transmission – technology usually reserved for much more expensive cars. Both Fusion powerplants feature Variable Cam Timing for peak performance and efficiency: that means low-end torque and high-rpm power. The best of both worlds.

*EPA-estimated 23 mpg city/31 hwy. with the 2.3L Duratec I-4 engine. **Midsize Sedan class (100–103 cu. ft. passenger volume non-premium). Excluding Mazda6.



Thrilling Fusion delivers incredible confidence with every curve, plus a ride that won't spill an ounce of your decaf (no need for caffeine with this at your fingertips). How's it do it? Fusion's nimble 4-wheel independent suspension and stiff body structure link you to the road like nothing else. A power rack-and-pinion steering system is tuned with the driver in mind, and because it's attached to the subframe, your every movement is quickly telegraphed to Fusion's muscles. Bottom line: agile sums it up, but *AutoWeek* said it better – when Fusion out-slalomed even a Mercedes-Benz C55 AMG on the track, they concluded: "'Outstanding' might be understating it."

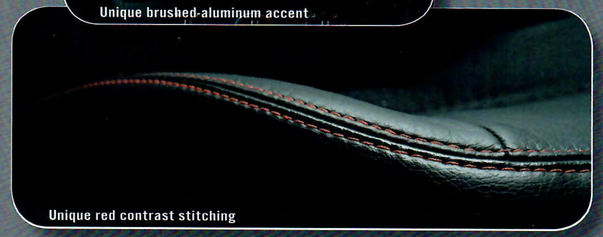
Struts your style

For a unique twist on Fusion style, add the available I-4 SE Appearance Package. But take note: With a price like this, everyone will want it. To keep it on the sly, we're reserving it for select colors: Black, Tungsten Silver or Redfire. Shhh, it'll be our little secret.

Mysterious Here's the scoop on this intriguing package: a black chrome grille and standard fog lamps seated in color-keyed bezels. And the rubber rides on 17" aluminum wheels with black-painted pockets.

Red hot Current owners told us that Fusion + red = one hot combo. So we went with it. Inside, the I-4 SE Appearance Package takes the standard Charcoal Black cloth interior and adds even more sizzle: It's splashed with red cloth accents, then finished with high-contrast red stitching on the seats, steering wheel and center console. Plus, the radio surround is treated to a unique brushed-aluminum face.

Unique brushed-aluminum accent



Unique red contrast stitching

Fusion SE in Tungsten Silver Metallic with I-4 SE Appearance Package

Sparks lasting love

The last thing you want in a relationship is boredom. You won't find that here. Fusion is designed with substance, style and a lot of niceties to discover along the way and keep the fire burnin'.

Supportive Slouching, sofa-inspired seats are for couch potatoes – and competitors' vehicles. Fusion's bolstered seats are designed for comfortable, controlled driving. Lots of it. So, just like its precise steering and controlled ride, the surprise comes after you spend some quality time together.

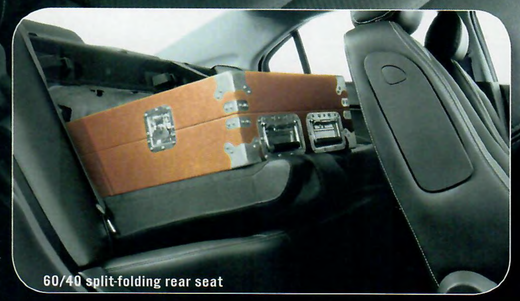
Organized So many things can get in the way of attentive driving; don't let your phone or MP3 player be one of them. Fusion's large, two-tiered clamshell center console and gigantic 15.8-cu.-ft. trunk give you plenty of extra room to put the stuff that life brings along for the ride.

Two-tiered center console

Fusion's unexpectedly large trunk, with over 15 cu. ft. of space

Flexible No need to borrow a pickup on weekends. Fusion's trunk is cavernous, and its cargo-carrying versatility is supreme. In the rear, 2 quick-release levers easily fold down the spring-assisted 60/40 split seat. Or leave the seats upright, and a convenient stowable armrest with beverage holders appears out of nowhere. Up front, the fold-down front-passenger seat on SE and SEL models lets you pass long items all the way up from the trunk. Ladder, anyone?

Rear-seat fold-down center armrest



60/40 split-folding rear seat

New for 2007, a fold-down front-passenger seat (SE and SEL models)

Fusion SEL V6 with Charcoal Black leather-trimmed seating with contrast stitching

Surprises from within

Sure, Fusion has all the essentials, including fashionable cloth or available leather-trimmed seating, stylish accents, and an intuitive driver-oriented layout. But it's the little things that make the big difference.

Delightful "Fusion really shines from within, where little details jump out at the driver like freshly laundered pants with a dollar bill hidden in the pocket." *Edmunds.com* got that right. Touches of sophistication lift your spirits: contrast stitching on the available leather-trimmed seats; an elegant chrome-ringed analog clock on SEL; and premium instrument panel accents in carbon graphite on SE, woodgrain or piano black on SEL. Other driver-friendly features include an auxiliary audio input jack (think MP3), 6 beverage holders, an available new Navigation System and a clever in-dash storage compartment. So thoughtful. So rewarding.

Easy You'll find more time to enjoy the ride when you're not caught up in adjusting all the controls. Automatic temperature settings and secondary steering wheel-mounted controls on SEL models take the "fiddle" out of driving. And on those cold mornings, optional heated front seats on SEL take off the chill before you can down your first sip of java.

In-dash storage

Fusion SEL in Charcoal Black

SIRIUS SATELLITE RADIO
THE BEST RADIO ON RADIO™

Endless Get the ultimate audio sensation, without interruption. SIRIUS seamlessly beams your choice of quality digital channels, right to your SE or SEL – including music, world-class sports, news, talk and entertainment options. Nationwide and commercial-free. Get SIRIUS: visit www.sirius.com.

See your Ford Dealer or contact SIRIUS at 1-888-539-7474 for more information.

Electronic Automatic Temperature Control

Heated front seats (optional on SEL)

Fusion SEL in Charcoal Black leather trim with available DVD-based Navigation System

Serves and protects

Collisions = energy. The key is energy management. What do you do with the force of an impact? Resist it. Absorb it. Or channel it away. Fusion is engineered and fully armed with the latest in safety technology to do all 3. So Fusion = peace of mind.

Structured At the core, Fusion's solid-body architecture includes thick steel pillars to provide rigidity between the front and rear windows. Running lengthwise, side-intrusion door beams brace the door frames at the 2 strongest points for strength and protection in certain side impacts. In the front and rear are carefully constructed crumple zones that are designed to collapse upon impact in a highly controlled manner, absorbing crash energy before it reaches the passenger compartment. Robust rocker panels help to channel energy away, as well.

Approach lamps (SEL)

Surrounded You'll find 3 complete airbag systems standard on every 2007 Fusion: driver and passenger front airbags, front-seat side airbags and side-curtain airbags. In fact, Fusion rated the full 5 Stars for front-seat side-impact safety in crash tests conducted by the government's National Highway Traffic Safety Administration (NHTSA). Up front, Fusion's standard Personal Safety System® utilizes a network of sensors to deploy the dual-stage driver and passenger front airbags in just the right manner, at just the right time. In addition, the Front-Passenger Sensing System can identify if a passenger is present and his/her approximate stature, and then send a signal to activate or deactivate the airbag. On the sides, the front-seat side airbags offer enhanced chest protection, while the side-curtain airbags inflate to cover the side windows for enhanced head protection for outboard passengers.

Secure Fusion has you covered here too. In addition to convenient security features like remote keyless entry (because the buttons are in the key, there's no need for an additional "fob"), approach lamps (SEL models) that light up your path when you unlock, and a thoughtful battery saver that prevents drain, every Fusion includes an anti-theft system, child-safety rear door locks, perimeter alarm, and the confidence of the LATCH system for securing child-safety seats. So all you have to worry about is driving.

Lower anchors and tether anchors for child-safety seats

Fusion SEL V6 in Dark Blue Pearl Metallic

Genuine Ford Accessories

Engineered by Ford for excellent fit and long-wearing durability, Genuine Ford Accessories offer you serious style and quality. When installed by your Ford Dealer at the time of purchase or lease, they're backed by a 3-year/36,000-mile Limited Warranty.* And now, Ford's vehicle Accessorizer puts personalization in the fast lane. This exciting new online tool lets you see how Genuine Ford Accessories will look on your Fusion or any other Ford, Lincoln or Mercury vehicle. Take it for a test drive at fordaccessoriesstore.com.

*12-month/12,000-mile limited warranty if Genuine Ford Accessories are not installed by a Ford Dealer or are purchased after initial vehicle sale. See your dealer for Limited Warranty details.

THE 5 YEAR/60,000 MILE BUMPER-TO-BUMPER WARRANTY

New Vehicle Limited Warranty
We want your Ford Fusion ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile Bumper-to-Bumper Coverage, 5-year/50,000-mile Safety Restraint Coverage, and 5-year/unlimited-mile Corrosion (Perforation) Coverage – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

For more assurance: There's now a 5-year/60,000-mile powertrain limited warranty that's fully transferable, has no deductible, and provides you with an additional 2 years or 24,000 miles of coverage – on select components, including the engine and transmission – beyond the standard 3-year/36,000-mile Bumper-to-Bumper Coverage. Plus, Roadside Assistance is extended to 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle, or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit

Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details, or check us out at **www.fordcredit.com**.

GENUINE ACCESSORIES
