

The New Generation of
OLDSMOBILE™

SILHOUETTE

The 1990 Silhouette: a totally new kind of Oldsmobile. A totally new kind of van.

With its bold, aerodynamic styling, Silhouette makes a dramatic impression wherever it goes — on the highway, running errands, or out for an elegant night on the town.

But Silhouette's distinctive design is far more than a cosmetic sculptural statement. Its sweeping profile conquers the wind. Its new shape provides generous interior space, for both passengers and cargo. And Silhouette's advanced composite materials resist corrosion.

Smooth Ride, Excellent Handling

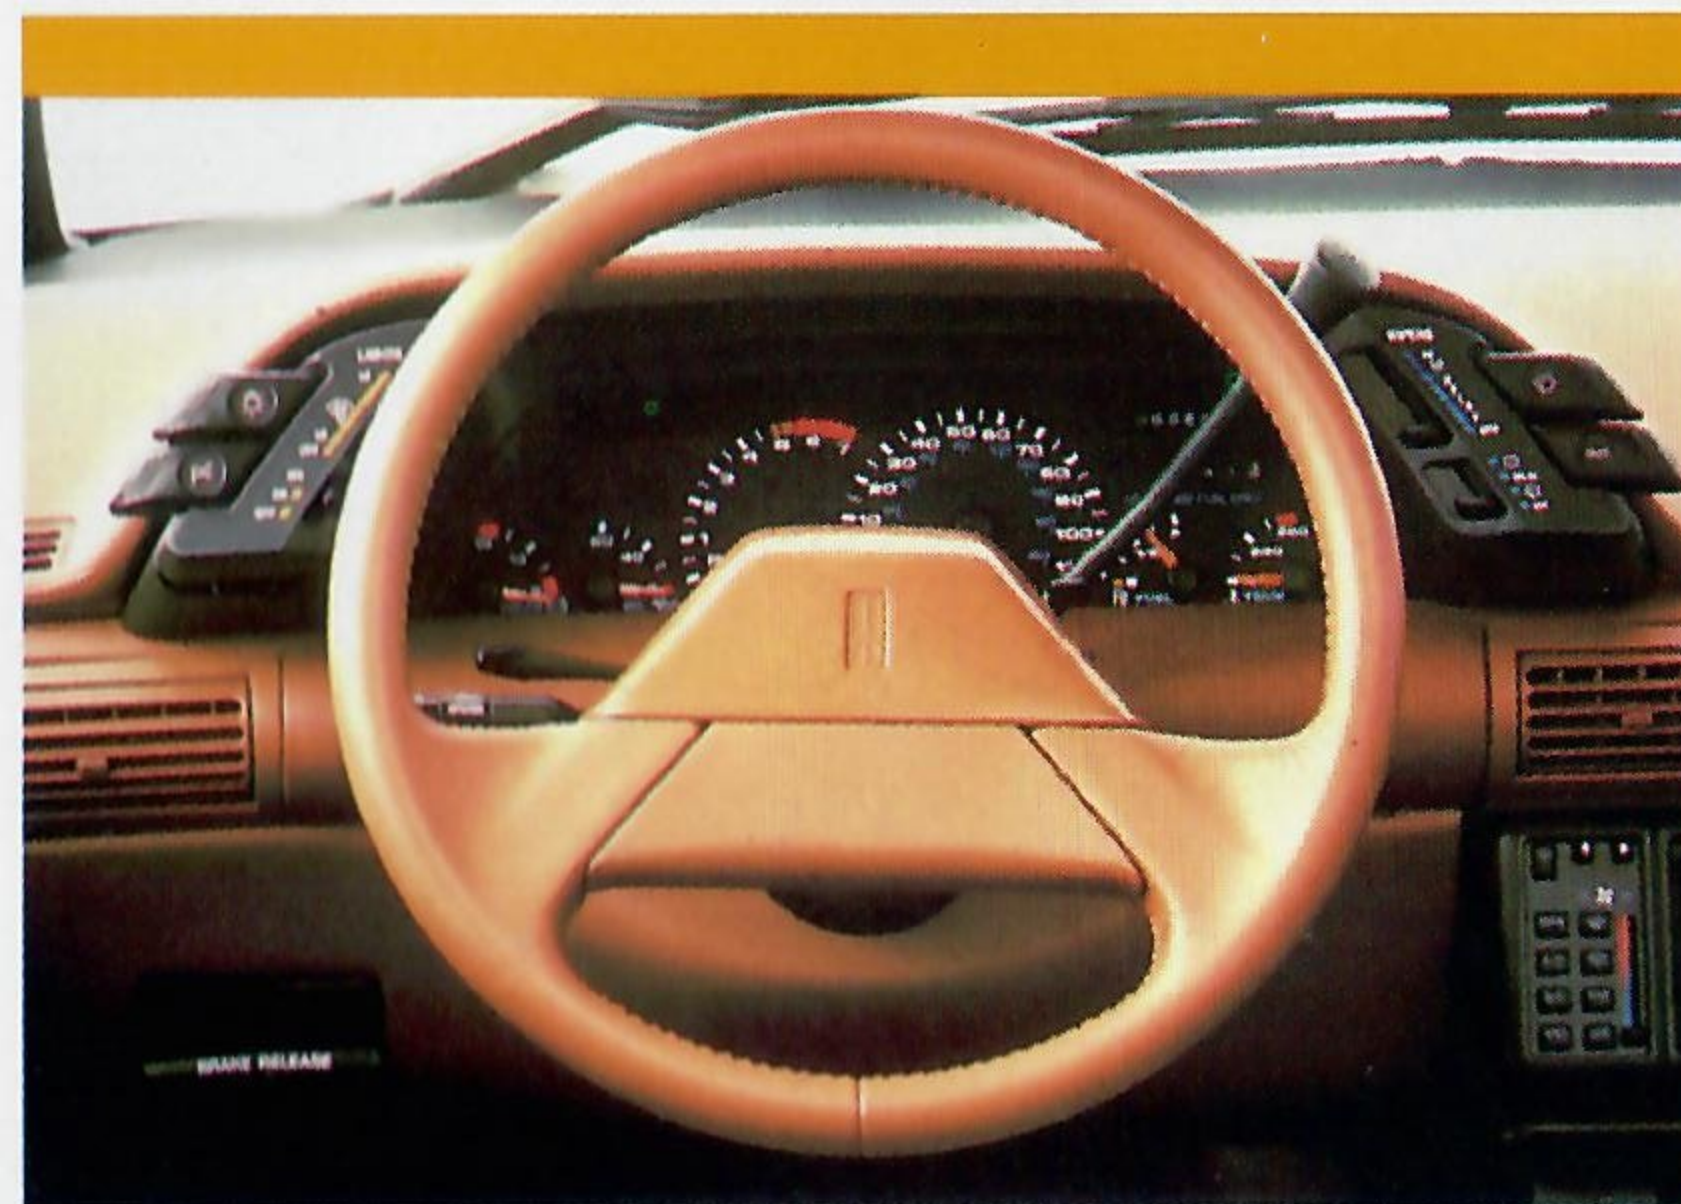

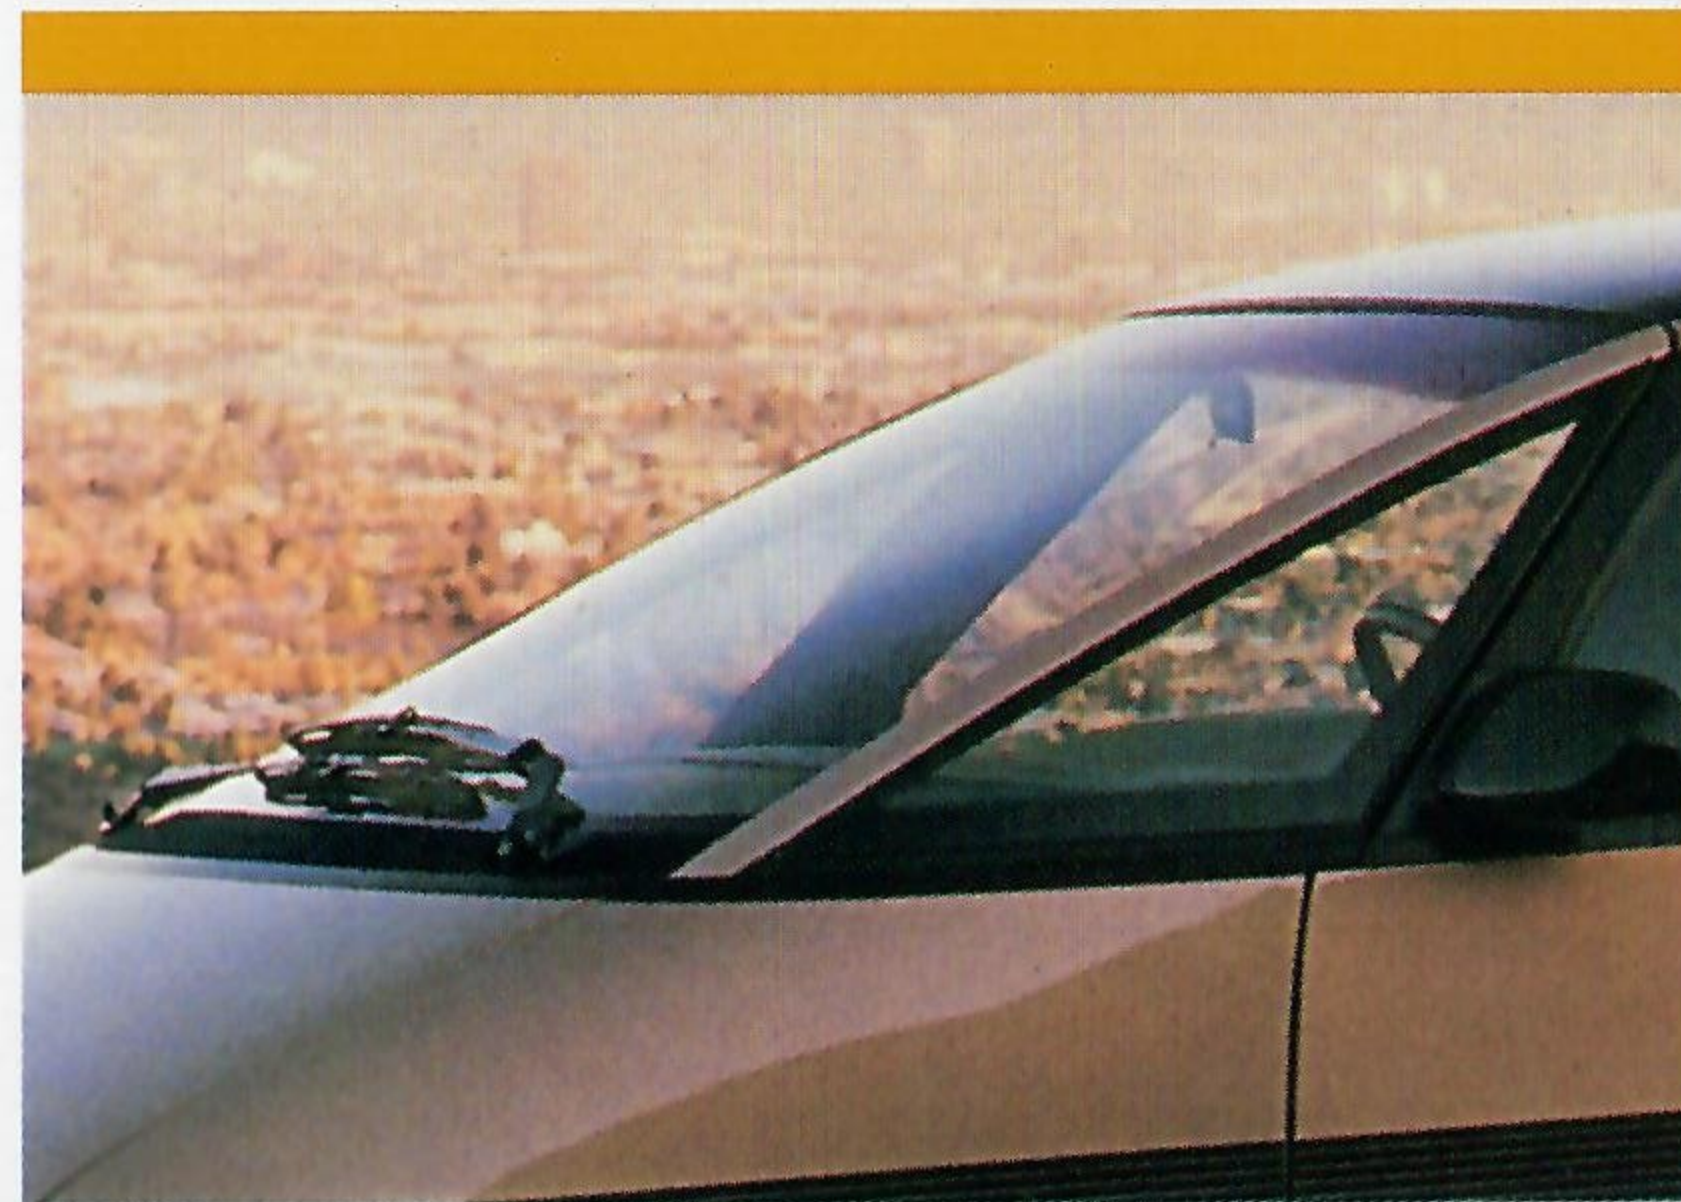

Silhouette's 3.1-liter V6 engine with throttle-body fuel injection, front-wheel drive, 3-speed automatic transmission, and advanced suspension components add up to a smooth ride and excellent handling.

Silhouette is fun to drive!

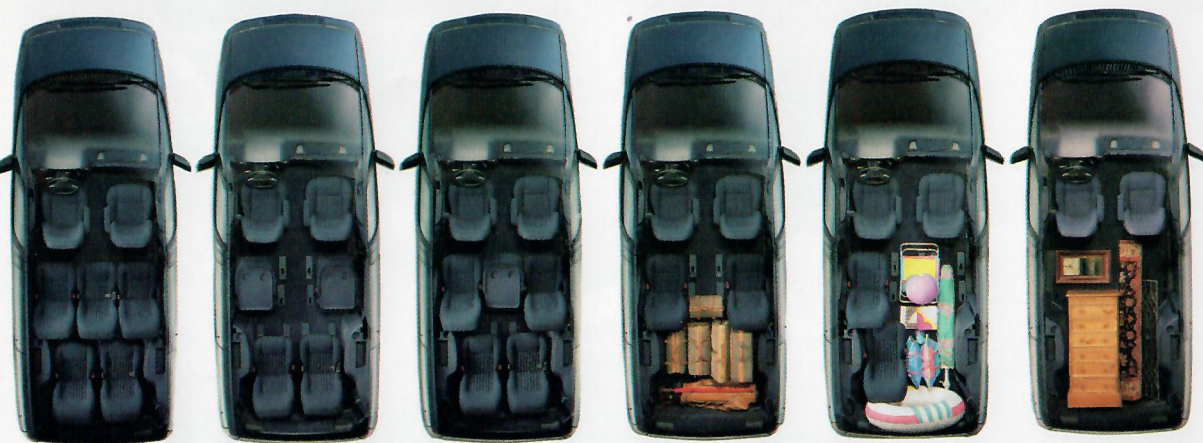

More than a minivan, the 1990 Silhouette is an Oldsmobile, with the luxurious appointments and careful attention to detail that you naturally expect from one of the world's premiere auto makers.

- *Seating.* Standard front bucket seats with armrests. Removeable, modular rear seats fold down to form tray tables. Optional: Individual bucket seats with Morocco grain leather in the seating areas.
- *Carpeting.* Deluxe-cut pile carpeting covers the floor wall-to-wall and extends up the lower door panels.
- *Climate control.* Silhouette's solar-treated windshield combines with electronic air conditioning/heating for year-round comfort.
- *Instrumentation.* Complete rallye cluster of gauges, including tachometer, and easy-to-reach controls.

The versatile Silhouette combines handsome styling and Oldsmobile comfort with the utility of a minivan.

It's easy to remove Silhouette's rear two rows of seats and create 112.6 cubic feet of cargo capacity. With the hydraulically assisted rear hatch, loading is even easier. And Silhouette's smooth-sliding side door gives passengers easy access to every seat.

Silhouette . . . More Than a Minivan . . . It's an Oldsmobile.

Standard Equipment

- 3-Speed automatic transmission
- Power steering
- Power brakes
- Aluminum wheels
- Tinted glass
- Tilt steering wheel
- Deluxe safety belts
- AM/FM stereo radio
- Rear window washer/wiper
- Air conditioning
- Side window defoggers
- Remote control outside mirrors
- Solar treated windshield
- Instrumentation: speedometer, tachometer, trip and total odometer, voltmeter, and temperature and oil pressure gauges.

Engine Specifications

Engine specifications shown are preliminary and subject to change

Engine: LG6 3.1-liter V6 (189 cu. in.) with Throttle-Body Fuel Injection

Availability: Standard

VIN Code: D

Bore/Stroke: 3.50/3.31

Horsepower @ RPM: 120 @ 4200

Torque @ RPM: 175 @ 2200

Transmission Availability: 3-Speed Automatic
