EMPOWER THE DRIVE®

# INNOVATION FOR THE DRIVEN. LUXURY FOR REAL LIFE.

Designed for those determined to push life forward, the QX50 is a premium crossover that elevates your experience as you forge your original path. When that path invites road trips to new destinations, you'll command both power and efficiency with technology once thought impossible: an INFINITI world's first production variable compression turbo engine<sup>1</sup> that transforms according to your need. When you're on your daily commute, you'll feel the ease of INFINITI drive assist technologies that complement your natural abilities, so you can travel with less stress. Or if it means a spontaneous night out, you and your passengers will relish a flagship interior with the perfect fit of color, contrast and premium materials, while a sliding second-row seat accommodates the moment.<sup>2</sup> This is luxury for a life lived in Drive.

**LUXURY SHOULD BE LIVED IN**

**^ ROLL WITH DISTINCTION** 1 19 x 7.5-inch Silver-Painted Aluminum-Alloy Wheels 2 20 X 8.5-inch Black-Painted and Machine-Finished Aluminum-Alloy Wheels\*\* 3 20 X 8.5-inch Silver-Painted and Machine-Finished Aluminum-Alloy Wheels\*\* 4 20 X 8.5-inch Dark-Painted Aluminum-Alloy Wheels\*\*

**^ POWER OR EFFICIENCY? YES.**  
The INFINITI VC-Turbo™ is the first production variable compression turbo engine to continuously transform for optimal power and efficiency.<sup>1</sup> The secret is its unique multi-link system that varies the compression ratio between 8:1 for more power to 14:1 for greater mileage. When your engine literally changes from within whether you need to pass quickly or cruise steadily, the best of power and efficiency is yours.

**^ EVOLVE YOUR DRIVE** Autonomous innovations are coming to our highways. ProPILOT Assist,<sup>3</sup> available on QX50 LUXE, already supports drivers with some of the same drive assist technologies that will make full autonomy possible in the future. When activated, these features help you stay centered in the lane, navigate stop-and-go highway traffic, set vehicle speed and keep your vehicle a set distance to the vehicle ahead. To help minimize stress and increase awareness of posted speed limits, Traffic Sign Recognition<sup>4</sup> gives you a reminder on your instrument panel, Head-Up Display<sup>5</sup> and top navigation screen.<sup>5,6</sup>

#### TECH THAT HELPS LOOK OUT FOR YOU

As automotive technology becomes more advanced, we are striving to find new ways to anticipate the dangers around you. Many are INFINITI world's first technologies like Predictive Forward Collision Warning,<sup>8</sup> which can alert you to a potential collision two cars ahead. Around View® Monitor with Moving Object Detection,<sup>9</sup> on QX50 ESSENTIAL, helps elevate your awareness as you park with a virtual composite 360° view from above. Finally, Blind Spot Intervention® available on QX50 LUXE uses sensors to help detect cars in your blind spot area and can intervene to help avoid a collision.<sup>10</sup>
