

You deserve a car this good.

Introducing Our Camaro Type LT

The new Camaro Type LT is the most luxurious Camaro ever built. "LT" stands for Luxury Touring, and in keeping with the name, the car includes special sound conditioning, a big 350-2 V8 engine and variable-ratio power steering as standard equipment. The LT also has Rally Wheels and wide tires, special instrumentation and many other fine interior appointments. If you would prefer a different sort of

Camaro, consider the Z28, our sportiest Camaro, with its own Special 350-4 V8. (Or choose a Camaro Sport Coupe and order just the options that suit your style of driving.)

Whichever Camaro you prefer, please accept this personal invitation to come in and drive one of the new Camaros this week. Call me so that I can have the car ready for you.
