

RAM TOUGH
'80 DODGE
VANS

About this catalog.
We have tried to make this catalog as complete as possible. And we hope you will find it useful. However, since the time of printing, some of the information you'll find here may have been updated. Also, some of the equipment shown or described throughout this catalog is offered at extra cost. Your dealer has details and you should ask him for current information before ordering.

Ram Tough Dodge Street Vans for 1980: A Great Way to Express Yourself.

The Dodge Street Van is the most personalized way to go this side of a customizing shop. The van's standard features alone form a very impressive list. Dual vertically stacked quad rectangular headlamps with halogen high beam lamp and argent-painted grille with grille medallion... bright front and rear bumpers... bright windshield molding and taillamp bezels... bright exterior five-inch by seven-inch rearview mirrors. 70 series steel-belted radial outline white letter tires... white-painted steel-spoke or five-slot chrome disc or aluminum radial-ribbed road wheels are required equipment at extra cost. Paint scheme shown here is not available as a factory installation but may be obtained through local customizing shops.

Inside, the list goes on...

High-back cloth-and-vinyl Command bucket seats with inboard folding armrests for driver and front passenger or these extra-cost deluxe cloth-and-vinyl high-back Command bucket seats shown here... color-keyed driver compartment carpeting... stylish color-keyed instrument panel and vinyl front door trim panels, both with woodtone applique. Add to all this the room, ride and comfort Dodge Vans have always offered, and you begin to see why Dodge has long been a leader in vanning just for the fun of it.

And Picture This: A Street Van do-it-yourself customizing kit!

You can make your Street Van something really special with the customizing kit you get as part of the great Street Van Package. It includes full-size templates for interior finishing. Ideas for color schemes with graphics. Tips for installing stereo, and even insulation ideas. The Dodge Street Van Package for 1980.

Dodge Vans mean business... starting with choice.

You name it... Dodge has a van sized right for you, equipped and powered the way you want it. Three tough haulers including the B100, B200 and B300 models. Three tough engine choices including the 3.7-liter (225 CID) Slant Six standard on B100 and B200 models, the 5.2-liter (318 CID) V-8 optional on B100 and B200 and standard on B300 models, and the 5.9-liter (360 CID) V-8 optional on B200 and B300.* You have a choice of two wheelbases (109.6 inches and 127.6 inches) as well as a wide variety of payload capacities.† And if you want to put America's roomiest‡ van to work for you, specify the Maxivan, B200 or B300. No matter what type of van you choose you get famous Dodge dependability, toughness and roominess.

*See Engine Availabilities on back cover.

†See Payload Chart on page 7.

‡Based on cubic capacity calculated by S.A.E. Standard HS J1100s.

And you can take comfort in our interiors.

When you slip into something comfortable like these optional cloth-and-vinyl high-back Command bucket seats, you can relax in the knowledge that Dodge has a host of standard and optional convenience features. Such things as easy-to-reach instrument controls, easy-to-read gauges, a wider brake pedal when equipped with the LoadFlite automatic transmission. Even a new illuminated vanity mirror mounted in the passenger-side sun visor, and driver's compartment headliner-mounted reading lamp option.

If you're serious about enjoying your work, look here.

As long as you have to work for a living, why not enjoy it? Dodge does its part with a host of new worthwhile options. We have deluxe vinyl low-back bucket seats or cloth-and-vinyl Command high-back swivel and reclining bucket seats. New AM/FM stereo with Search-Tune. New AM/FM stereo with cassette tape player and Dolby® noise reduction system. New high beam halogen headlamp system included with dual vertically stacked headlamps only. New aluminum radial-ribbed road wheels... new bright hitch-type rear bumper... new power windows in front doors... well, you get the idea.

®Dolby is a trademark of Dolby Laboratories.

ENGINEERING

Ram Tough Dodge value runs deep.

Dodge Van door hinges are bolted on rather than welded to allow up-and-down, in-and-out adjustments for a really tight fit.

Big 22-gallon fuel tank is standard . . . an optional 36-gallon tank replaces the standard tank for increased driving range per tankful of gas.

Anti-Spin differential provides additional traction on snow, ice, mud or sand. Available on any van, it diverts most of the available driving power to the rear wheel with the better traction.

Attractive, functional instrument panel.

Features large glove box, and handy fuse box located beneath glove box door. Instrumentation includes ammeter, temperature gauge, fuel gauge, oil pressure indicator light and speedometer/odometer.

Sharp turning, agile maneuvering result from Dodge Van's short turning diameter.

Engines and Transmissions

Prefer V-8 power? Select the optional 5.2-liter (318 CID) V-8 (standard on all B300 models), with quality features such as drop-forged steel connecting rods with aluminum bearings and steel-strut pistons with chrome-plated top compression rings. For even more V-8 power, choose the optional 5.9-liter (360 CID) V-8, offered only on B200 and B300 Dodge Van models.

The **standard transmission** on the B100 and B200 Dodge Vans is a fuel-efficient four-speed manual overdrive that shifts like a normal manual transmission in city driving, and provides an economical 0.73:1 overdrive ratio fourth gear for highway cruising. **The three-speed LoadFlite automatic** is optional with these models. The B300 models are offered only with the

Galvanized steel is an important part of Dodge Van construction.

Dodge uses galvanized steel in many critical body areas to help protect against corrosion. For example, galvanized steel is used in the inner surfaces of the standard hinged double side doors and optional sliding side door, and in the optional single rear and standard double rear

cargo doors. Front fenders and other front-end sheet metal stampings are also made of galvanized steel. What's more, to help the sheet metal resist corrosion the van body is prepared for the primer coat by a six-stage spray phosphate treatment. High-gloss acrylic enamel paint completes the durable quality exterior. As we said before, Dodge value runs deep.

Independent front suspension is extra-smooth: standard tuned front coil springs with larger upper and lower suspension control arm rubber bushings.

New optional large, vented one-piece window in sliding side cargo door is available.

Coolant reserve system, standard, designed to minimize coolant loss and provide for easy checking.

Energy-absorbing steering column. It's designed to lessen the chance of injury to the driver should a collision occur.

Wide hood opening helps make engine servicing easier. Concealed hood hinges add to front-end style.

A diagnostic plug, for more efficient engine electrical system servicing, is located in the engine compartment.

Optional dual vertically stacked quad rectangular headlamps with halogen high beam system that increases high beam lighting output by 25 percent over the standard system (included with the Royal Exterior and Street Van Packages).

Lockup Torque Converter. In most Dodge Vans up to 8,500 pounds Gross Vehicle Weight, our LoadFlite automatic transmissions are equipped with a lockup clutch in the torque converter that automatically produces a direct mechanical drive through the transmission after the transmission upshifts from second to third gear. Normal slippage in the converter is eliminated resulting in reduced engine speed and improved fuel economy* at cruising speeds.

*Since 1980 EPA estimates were unavailable at the time this catalog was printed, ask your dealer about current information regarding mpg ratings.

Front disc brakes for smooth stopping are designed to resist fade. Standard on all models.

three-speed LoadFlite automatic, standard.

Every Dodge Van features an **electronic ignition system** that eliminates ignition points and condenser from the distributor and adds to spark plug life. It helps to provide more voltage to the spark plugs during cold starting.

New radial tires called "P-metric" provide an increase in fuel economy due to reduced rolling resistance when compared with bias-belted tires. Glass-belted radials are standard on B100 and B200 models.

² Must be reduced by weight of vehicle occupants and optional equipment.

FUN

Welcome to the great indoors.

Do it yourself, or have your van customized as this one was by one of the many companies that are in the business. Either way, you'll do better if you start with a B100 or B200 Dodge Street Van. Order the optional high-back swivel and reclining Command buckets available with the optional Street Van Package, shown in Tahoe cloth with vinyl side facings. Or order air conditioning for

the front and rear cargo compartment. Color-keyed instrument panel and vinyl front door trim panels, both with woodtone applique, and color-keyed carpeting in the driver's compartment are also available as part of the Street Van Package. You can have it your way in a Dodge Van.

Double SIDE DOORS are standard. They provide a 49.26-inch wide opening and are available with optional windows, fixed or vented.

SLIDING SIDE DOOR for unloading in tight quarters is available as an option, with or without an optional window.

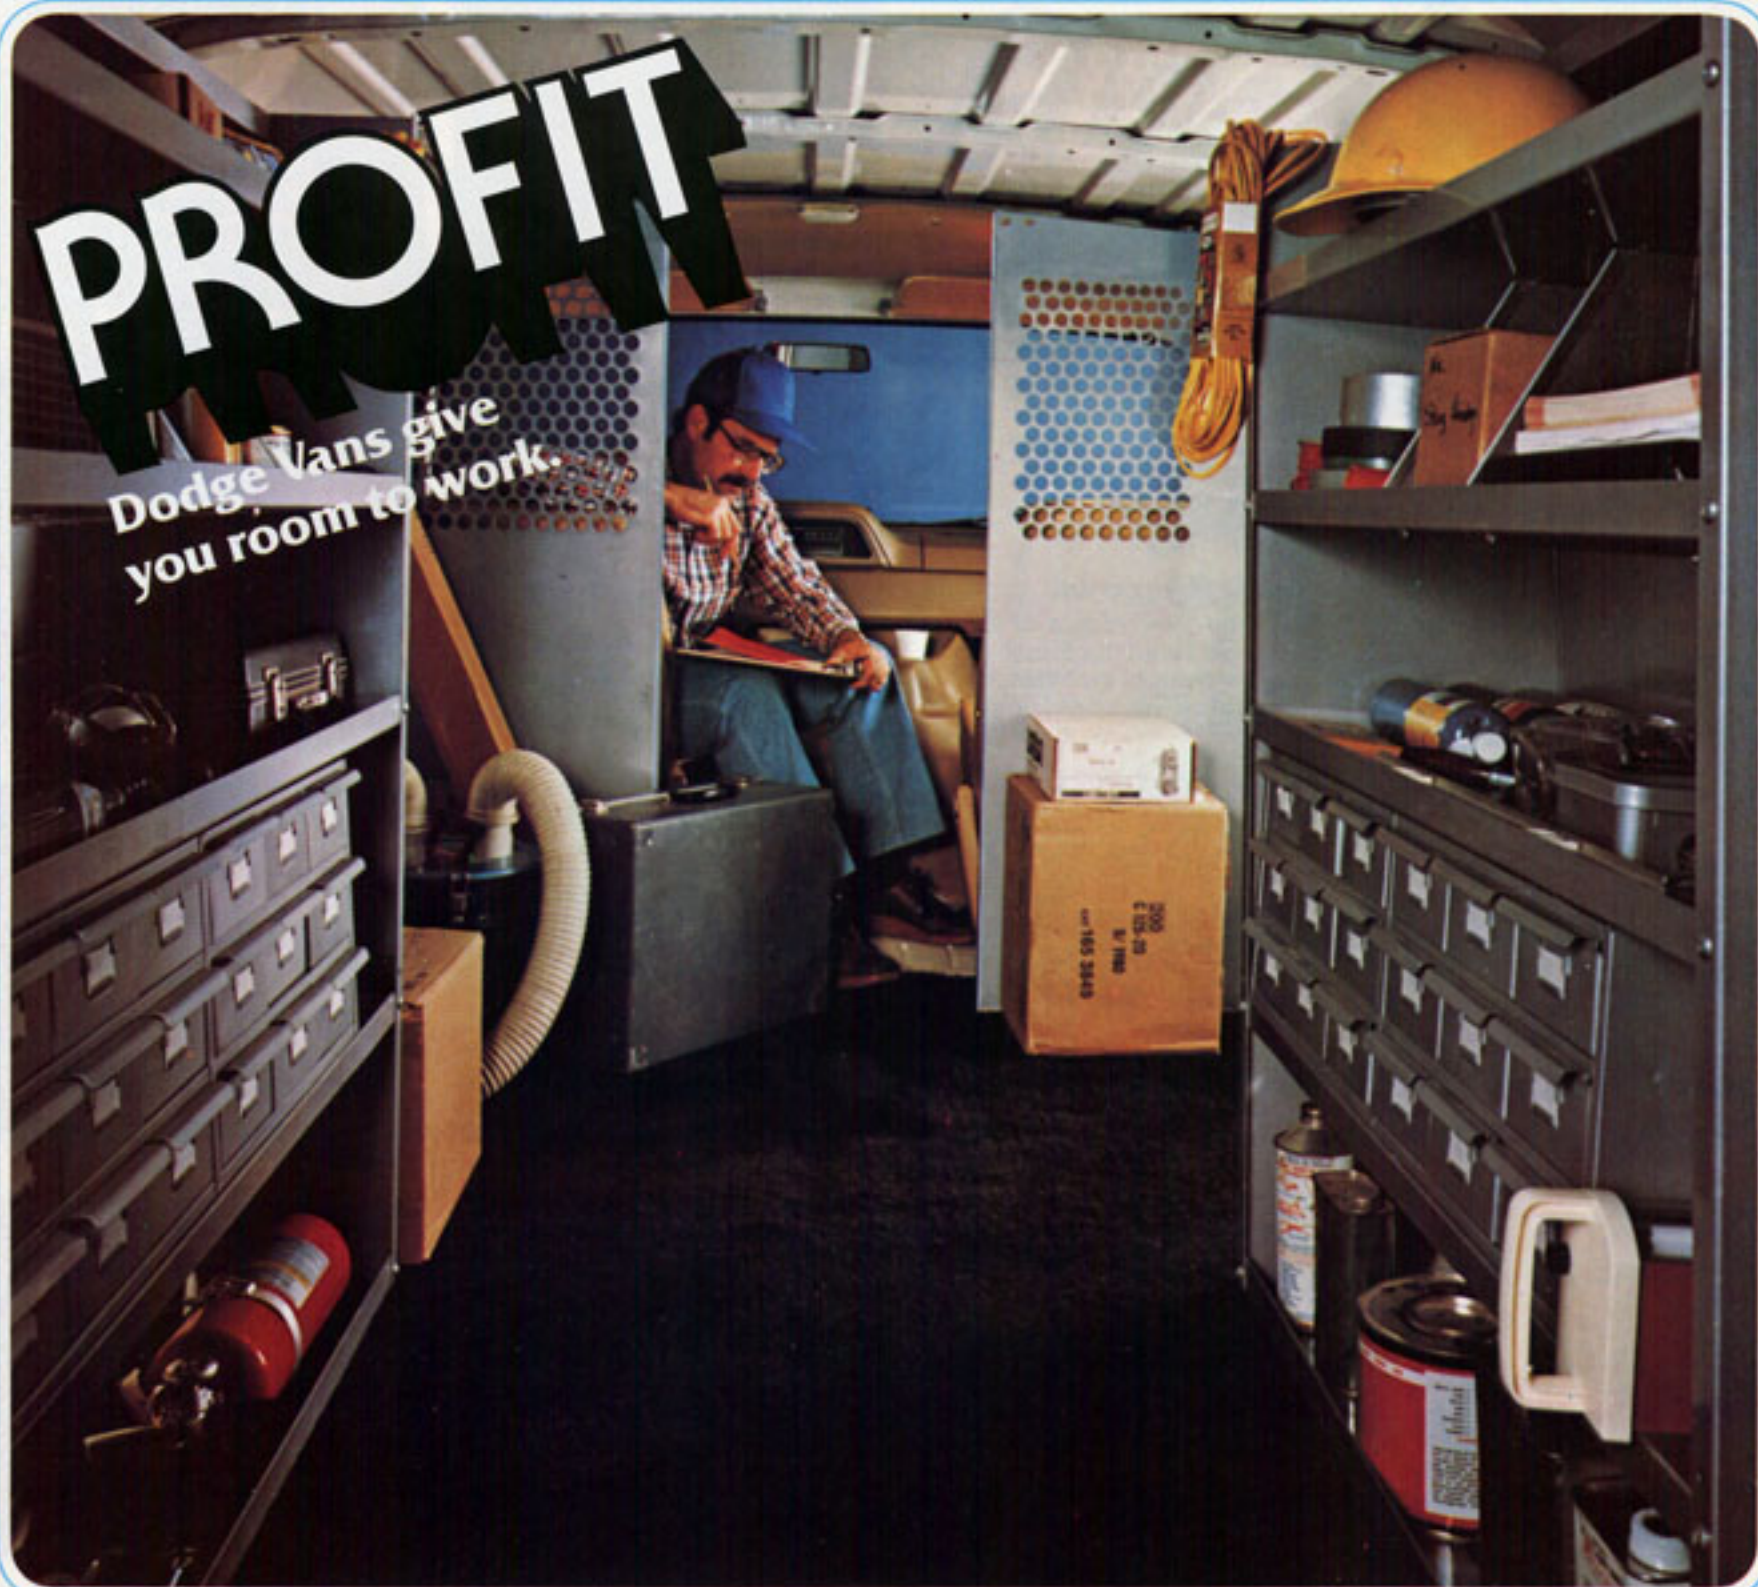

Double REAR DOORS are standard and provide a 49.26-inch wide opening. Door windows are available.

Dodge's EXCLUSIVE SINGLE REAR DOOR option features a big fixed rear window. A rear vented window is also optional with this door.

PROFIT

Dodge Vans give
you room to work.

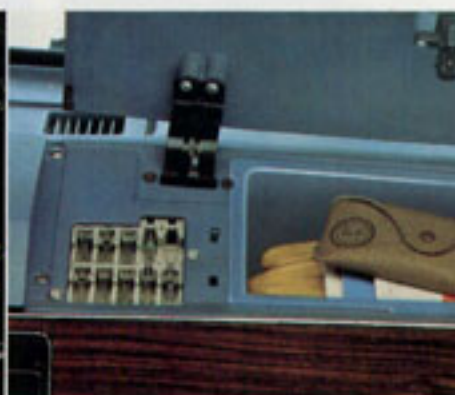

This is what Dodge Maxivan's 296.9 cubic feet of cargo space looks like when you put it to work for you. Dodge Van is wide enough to handle racks, bins and shelves, available through Dodge dealers, with aisle room to spare. And with the engine compartment located well forward, there's

room for long cargo loads. Thoughtfulness for the working man abounds wherever you look. Grooved floors are rugged to slide heavy cargo over. You can stack cargo on the wheel wells because they're flat on top. Above it all, a handy cargo compartment light.

WIDE HOOD OPENING provides easy engine access for routine servicing. Coolant reserve system is standard.

FUSE BOX is located beneath the glove box door on top of the instrument panel, for quick easy service.

ENGINE COVER is tough, durable color-keyed fiberglass, designed to lift off easily for engine maintenance.

OPTIONAL MAINTENANCE-FREE BATTERY, 70-amp hr/430-amp Cold-Crank, does not require the addition of water for its normal service life of 38 to 40 months.

OPTIONS

Uncommon luxury and convenience.

AM/FM Stereo with Cassette Tape Player

A solid-state AM/FM stereo radio and cassette tape player with Dolby® noise reduction system. The Dolby system minimizes "hiss" on Dolby-encoded cassette cartridges and improves the dynamic range of Dolby-encoded FM broadcasts.

*Dolby is a trademark of Dolby Laboratories.

Aluminum Radial Ribbed Road Wheels

Four distinctive 15-inch by 7-inch cast aluminum road wheels feature an ultramodern radial-rib design. In addition to smart styling, they weigh approximately 4 pounds less per wheel compared to the conventional 15-inch by 6.5-inch steel wheel. Smart.

Air Conditioning

Dodge's air conditioning unit provides cooling and heating in one system. Available with both Slant Six and V-8 engines. NOTE: Ask your dealer for details regarding restrictions applicable to the later installation of air conditioning.

AM/FM Stereo with Search-Tune

This solid-state AM/FM stereo radio features precision bi-directional Search-Tune, direct station selection, digital station frequency display and 10-station memory.

Bright Hitch-Type Rear Bumper

Handsome, high-styled hitch-type towing bumper offers bright finish and wide center step. Fabricated of high-strength, low-alloy steel, it can be used for towing applications up to 2,000 pounds of trailer weight.

White Eight-Spoke Road Wheels

This road wheel features white painted steel spokes and chrome center hubs and studs.

Power Windows

Enjoy the convenience of electrically powered front door windows. Individual switches are mounted on each front door, with dual controls on the driver's door.

Illuminated Vanity Mirror

Mounted in the passenger-side sun visor, the vanity mirror is illuminated by user-controlled lights mounted on each side of the mirror. A "flip-up" cover protects the mirror when not in use.

Reading Lamp

A reading lamp is center-mounted in the headliner above the front seatbacks. A dome lamp and two separate reading lamps in each unit permit individual lighting adjustment for driver or passenger.

Tilt Steering Column

Seven different steering wheel positions for your driving comfort. Also makes entry and exit easier. Available only with optional power steering and automatic transmission.

Vented Window in Single Rear Door

The vented window option for use with the optional single rear cargo door increases vehicle ventilation.

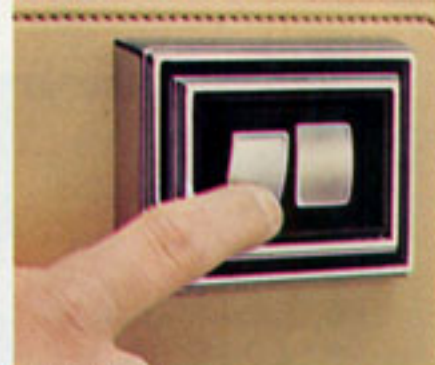

Engineering excellence backed by Chrysler

The high quality of Chrysler's engineering and manufacturing processes is backed by a 12-month/20,000 km limited warranty* covering the repair or replacement of defective parts. That is the kind of protection you would expect from the corporation that has led in many areas such as advanced electronics and corrosion protection. Corrosion protection, through the extensive use of galvanized steel and the seven-step dip-and-spray process, has kept Chrysler a leader in the industry.

*Whichever comes first, consult your dealer for complete details.

KARY VAN

Bigger payloads.
Fewer stops. More profit.

The Dodge CB300 127.6-inch wheelbase Kary Van is available with a 10-foot long body. It is also available in the 145.6-inch wheelbase CB300 with 12-foot body (shown above) and the CB400 163.6-inch wheelbase with the 15-foot body length. Dodge Kary Van can provide you with a unique combination of Dodge Van handling and dependability, coupled with extra carrying capacity. All this plus the style and comfort you expect from Dodge.

Choose the optional roll-up rear door for work in close quarters. It opens from inside or out.

Standard full-opening double rear doors swing back against the body sides for added convenience in congested areas.

FEATURES

Dodge Van
offers quality right
down to the smallest detail

DODGE VAN SELECTED STANDARD EQUIPMENT

- Air Cleaner—Dry type
- Alternator—48-amp 12 volt
- Antifreeze—Minus 20°F protection
- Armrests—Driver and front passenger
- Ashtray—Driver's compartment
- Battery—48-amp-hr/305-amp Cold Crank
- Brakes—Power front disc; B100 (all except 109.6-inch and 127.6-inch wheelbase with 4,700-pound GVW), B200, B300—rear drum; B100, B200, B300
- Bumpers—Front and rear, painted
- Cargo Doors—Double hinged type, right side and rear; no glass (forward right door includes metal check arm)
- Door Locks—All doors
- Electronic Ignition System
- Floor Mat—Driver's side only, black
- Fuel Tank—22 gallon
- Glove Box and Door
- Grille—Argent finish
- Headlamps—7-inch round
- Headliner—Hardboard in driver's compartment, color-keyed
- Horn—Single electric
- Horn Pad—Color-keyed
- Hubcaps—Bright finish
- Instrumentation
 - Ammeter
 - Fuel gauge
 - Odometer
 - Oil pressure indicator light
 - Speedometer
 - Temperature gauge
- Jack—Bumper type; B100, B200 models—axle type; B300 models
- Lights—Backup with integral tail and stop lamps, license plate, combined front parking lamps, turn signals and side marker lamps—amber, (two); combined rear side marker lights and reflectors—red, (two); driver and cargo compartment dome
- Mirrors—Exterior, dual 5-inch by 7-inch heads, painted
- Oil Filter—Throwaway type
- Seat—Driver, low-back bucket with vinyl trim, including seat belt and retractor (color-keyed)
- Shock Absorbers
 - 1-inch front and rear; B100, B200 Vans, B300 models
 - 1 1/2-inch heavy-duty front and rear; B200 Maxivans
- Sun Visor—Driver-side only
- Tire Carrier—Spare
- Traffic Hazard Warning Switch
- Windshield Washers—Wiper arm mounted, electric
- Windshield Wipers—Two-speed non-intermittent wet arm

- Door Locks—Electric; all doors
- Door Locks—Electric; front doors only
- Engine Block Heater
- Exterior Mirrors—Dual 5-inch by 7-inch short-arm bright finish; 6-inch by 9-inch low-mount painted or bright finish
