

ADDED PROTECTION

for you and your family

with these

Genuine

CHEVROLET
ACCESSORIES

QUICK ACTION WINDSHIELD WASHER will keep your windshield clear under all driving conditions. At the touch of a button it sprays a cleaning liquid on the windshield, and the wipers do the rest. Unit holds enough liquid for several months' driving.

DOOR-TOP RAIN DEFLECTOR MIRROR is adjustable to any angle necessary to give you a wider view. Mounts on right or left rain deflector.

GLARE-PROOF REARVIEW MIRROR, you can cut out the blinding headlight glare from cars following. Full 8½ inches to provide a wide-angle view to the rear.

OUTSIDE REARVIEW MIRROR helps eliminate a blind spot. Mounts on either front door and is adjustable to individual requirements. Has a full 4½-inch diameter.

WINDSHIELD GLASHADE will protect your eyes by filtering out almost all white lights and glare from the sun, and reducing headlight glare at night. Does not change traffic light colors. Made of clear green Plexiglas. Snaps into place on inside of windshield.

DIRECTION SIGNAL that you will find safer and easier than the old-fashioned hand signals. Mounts on steering column, worked by a flick of the finger, signals to both front and rear, and stops automatically when turn is completed.

TRUNK GUARD gives greater protection to rear of your car and helps prevent bumper locking. This heavy drawn-steel bar with a bright chrome finish gives the same protection as two bumper face bars would.

FRONT AND REAR FENDER GUARDS give you wrap-around protection where it's needed most—at the fenders' vulnerable spots. These massive chrome-plated steel units will also add greatly to your car's beauty.
