

D.U. LIMITED EDITION

Celebrating the 50th Anniversary of Ducks Unlimited

By SeaCraft and GMC Truck

THE ULTIMATE OU

For years, the Suburban has been the choice of those who wanted tough transportation that could carry a big payload. Now, with the co-operation of Ducks Unlimited and GMC, Starcraft has tailored these classic GMC trucks to meet the needs and fulfill the dreams of people who love the outdoors.

GMC TRUCK TOUGHNESS

The DU Limited Edition has all the dependable durability and performance that you've come to expect from GMC.

High-compression 5.0, 5.7 and 7.4 liter V-8 gasoline engines give Suburbans great towing capacity. You can also get the Limited Edition equipped with a 6.2 liter V-8 diesel engine.

The Limited Edition features standard

four-wheel-drive* that will handle the muddiest path to your blind or favorite fishing spot. GMC's standard 4-WD features dependable manual-locking front hubs that freewheel in 2-WD for smooth, economical highway cruising, but can be locked into 4-WD in a jiffy to traverse low-traction terrain. Ask your GMC Dealer about available automatic hub locks that permit no-stop shifting into 4-WD at speeds up to 25 MPH.

STARCRAFT LUXURY

Inside the DU Suburban, you'll find the kind of posh craftsmanship that has made Starcraft the No. 1 maker of specialty automotive products in North America.

The Limited Edition is available in two floorplans. One features four chair seats; the other has two chair

seats and a rear bench seat.

The chairs themselves are designed to provide the comfort found in the most elegant of vehicles. These high-backed "captain's chairs" feature armrests that adjust up or down; the seats recline and can be moved forward or back. There is also a lumbar support option that lets you adjust the backrest exactly the way it feels best.

The Suburban has all of the standards that Starcraft builds into all of its luxury vehicles. Like a teakwood center console that holds its own thermos, ice bucket and cassette tapes.

And the insulation installed throughout gives you a quiet ride that lasts for as long as you

OUTDOOR VEHICLE

own your GMC Truck.

There's also a teak overhead console that comes with a standard Delco ETR 2000 AM/FM Cassette Stereo with four speakers.

A PERSONALIZED VEHICLE

Starcraft can design your DU Suburban exactly the way you want it with a long list of luxury options.

On the outside, you can equip your Limited Edition with a brush

guard that's painted to match the rest of your truck. A lightbar provides extra illumination of tough terrain. A front winch is also available.

You can make your vehicle match your specific needs with such things as CB radios, Passport radar detector, Covert alarm system and pager and a color TV in a roll-top center console. There's even a VCR in either VHS or Beta format available.

You can get a 12-foot Starcraft Jon Boat painted to match your Suburban, too.

DU REFINEMENT

CMC, Starcraft and Ducks Unlimited have designed this truck with the hunter in mind. There are two gun rack storage com-

partments in the rear. A mummy fiberglass storage compartment on the roof with vinyl cover and boat rack will handle all of your decoys and extra gear. The rear seats have binocular

storage on the sides. Two 12-volt outlets provide electricity for a coffee warmer or any other need in the field.

The vehicle also tastefully displays your support of Ducks

Unlimited with the organization's official camouflage on a tough duck canvas that covers the seats and door panels inside. There are

also flying duck medallions and a sport steering wheel with teak accents.
