SEEK PURSUE ELEVATE

In the confidence of its lines, the composure of its performance and the depth of its refinement, the Infiniti Q70 embodies your drive to achieve at the highest level. Because you strive for more, and expect it as well.

ELEGANT IN DESIGN. COMMANDING IN PRESENCE

Create your own path and lead with authority. The sculpted contours of the Infiniti Q70 seem to flow without effort, while simultaneously exuding a confidence that demands attention.

ATHLETIC STANCE Large 20-inch alloy wheels not only complement the graceful proportions of the Q70, they are designed to make handling more responsive. The lightweight construction inherently reduces unsprung weight and helps contribute to quicker turn-ins.¹

EXPRESSIVE ILLUMINATION Stylish and functional, the LED headlights of the Q70 shed light where you steer¹ and also provide another level of awareness with signature crescent-shaped LED daytime running lights.

CURVES THAT INVITE Undeniably Infiniti, the double-wave hood rises to meet the elevated front fenders, conveying a dynamic, expressive design.

IMPRESSION AMPLIFIED Expressing signature Infiniti design, the double-arch grille is prominently placed in front and centre. The arc of the bottom, like a natural reflection to that of the top, gives the front fascia a distinctive appearance.

ALWAYS EXTENDING A PERSONAL INVITATION

Every arrival, every entrance—recognized and anticipated with thoughtful conveniences that always feel special.

INVITING YOU IN For added convenience and safety, Welcome Lighting responds to your presence automatically with a sequence of exterior and then interior lights. The puddle lights illuminate the ground below, then the interior lights glow to help you settle in. The choreographed sequence ends with the Start/Stop button pulsing, waiting for you to bring it to life.

PERSONALIZED ACCESS Recognizing you upon your approach, the Infiniti Intelligent Key® lets you unlock the doors and trunk, and even start the engine—all without taking the key out from your pocket or purse. And as you enter, it slides your seat back for you, then adjusts your steering wheel and outside mirrors automatically to your preferences.

MORE COMFORTABLE QUICKLY Here, every aspect of your entrance is as hospitable as possible. Climate-controlled front seats actively circulate cool or warm air through the perforated leather, so you reach your comfort zone faster than you imagined.

OPTIMIZED COMFORT The dual occupant memory system allows two custom profiles. Depending on which key you possess, the preferred settings for the seat, steering column, and mirrors are automatically executed with the press of a button, giving both drivers an intimate level of comfort.

DELIGHTS IN ALL ITS INFINITE DETAILS

Reward your senses with luxury. In the things you see and touch, everything has been crafted with a focus on you.

PLEASING TO THE EYES The soothing glow of the Fine Vision electroluminescent gauges has been designed to not only be brighter, but the contrast delivers information clearly, even at a glance.

FINER FABRICS The seat belt is one of the few surfaces you continually touch, so we use a variable herringbone weave that is 20% softer than standard fabrics. This makes it more comfortable to wear, easier to pull out, and even less likely to snag your clothing.

UNIQUE INTERIOR ACCENT The Q70 offers a well-appointed and inviting interior with high-quality materials. The White Ash silver-powdered wood accents give the cockpit a distinctive look and merges old-world luxury with modern aesthetics!

QUALITY IN COMFORT Sit inside and experience the softness and firmness that the semi-aniline leather-appointed seats provide! The full-grain leather is treated to allow the natural character of the leather to show through. Also available is specially developed soft touch material for the door armrests, door inserts and centre console.

CONSISTENT SWITCH FEEL Touch a button. Then touch the one next to it. Notice that every button and switch is crafted with the same level of precision, so you sense a consistent Infiniti feel under the fingertip. With this attention paid to a switch, imagine how the remaining surfaces feel.

EXQUISITE SPACE WITH EXCEPTIONAL COMFORT

This is luxury centred on you—behind the wheel or in any seat. The Infiniti Q70 reveals an interior with spaciousness and elegance.

958.2 MM

FRONT

1128.9 MM
LEGROOM

INTERIOR DESIGN Every key interior surface of the Q70 has been extensively researched to provide the ideal tactile feel. From the seats, to the suede-like headliner,¹ they all play a part to enhance the overall experience.

ABUNDANT SPACE The Q70 provides versatility precisely tailored to the needs of every guest. Its low, wide stance helps maximize head and hip room for all passengers, and the backs of the front seats give rear passengers more legroom. In the Q70L, the extended wheelbase adds 143.4 mm to the rear legroom.

WELCOMING COCKPIT Infiniti creates an experience that anticipates with thoughtful design. Controls are positioned for instinctive reach. Each component is crafted for recognition by shape and feel, ensuring that you connect with the Q70 intuitively, by touch alone.

AMPLIFYING THE FEELING OF PERFORMANCE

Engineering that unlocks a greater intensity in the driving experience through your senses.

A CONTINUOUS RUSH

Dedicated to delivering a shape and feel to acceleration, Infiniti engines are precisely tuned to unleash torque over a broader rev range. The force you feel seems to increase the faster you go and continually pushes you back into your seat.

SHARP SHIFTING

Feel the exhilaration of cornering in manual shift mode. When selecting a lower gear, Downshift Rev Matching adjusts the throttle so the transition between gears is smoother and quicker.

QUICKER STOPS

Aluminum opposed-piston brake calipers provide stopping force from both sides of the rotor at the same time for better bite, more friction and direct feel.¹

ACTIVELY RESPONDING

The upgraded springs of the sport-tuned suspension sharpens the handling of the Q70, while the double-piston shock absorbers help reduce vibrations to deliver the smoothest ride possible!

SIGNATURE EXHAUST NOTE

The unmistakable tone of the specially tuned exhaust shapes sound to create a heightened acceleration experience. The signature low growl accentuates every trip through the gears.

330 | 270
HP LB-FT

3.7-LITRE V6 A potent blend of exciting response and intelligent efficiency, the 3.7L gasoline engine benefits from exclusive Variable Valve Event and Lift (VVEL[®]) technology. The engine continually adjusts when the intake valves open and how long they remain open. This results in more efficient airflow through the cylinder and significantly improves responsiveness and the confidence you'll have on every drive.

416 | 406
HP LB-FT

5.6-LITRE V8 The most formidable engine Infiniti has ever built, this powerful and responsive 5.6-litre V8 delivers a thrilling performance. It produces a stirring 416 HP and boasts 406 lb-ft of torque to produce a torrent of power that is delivered with the polish and precision to suit virtually any driving scenario you might encounter or excitement you might desire.

ELEVATING YOUR POWER AND POISE

*Discover performance engineering
that intuitively responds to your
every direction for an uncommon
level of power and control.*

INTUITIVE TRACTION Intelligent All-Wheel Drive infinitely adjusts for better traction by sending anywhere from 0 to 50% of the power to the front wheels when you need it, and 100% to the rear wheels for sporty response when you don't. You get AWD traction without sacrificing rear-drive feel.

INHERENTLY RESPONSIVE BALANCE The Front-Midship Platform of the Q70 places the engine's centre of mass just behind the front wheel centreline. It's a sports car-inspired approach for near-equal front-to-rear weight ratio and inherent balance you feel with every turn.

NATURALLY SMOOTH SHIFTING The 7-speed automatic transmission offers a wide selection of gears for versatile performance and enhanced fuel economy. A driver-adaptive learning algorithm familiarizes with your driving style and adjusts shifting for responsiveness or efficiency to suit you.

CONNECTIVITY THAT TAKES YOU FURTHER

Technology allows you to stay connected to your world, naturally and effortlessly.

EMPOWER YOUR TOUCH The Infiniti Controller puts simple, intuitive control of your technology systems at your fingertips. It allows you to interact via the inputs most intuitive to you—turning ring, touch-screen, input buttons, and even steering wheel controls—responding to you rather than you adjusting to it.

INTUITIVE FRONT LIGHTING Illuminate where you truly want to be. The Adaptive Front lighting System (AFS)¹ improves visibility at intersections and around curves by sensing your steering and turning the headlights to see not just ahead but around as well.

360°
VIEW

SEE EVERY SIDE Gain a new perspective on what's around you. With the Around View® Monitor with Moving Object Detection and Front and Rear Sonar System, it's easier to see and manoeuvre in even the tightest spaces.^{1,2,3} Four cameras and one virtual 360° view from above elevate your parking expertise while also alerting you if a moving or stationary object is detected close by.

SOUND THAT REVEALS EVERY NOTE

16 SPEAKERS 300 WATTS

HIGH-QUALITY SOUND The Bose® Studio Surround® sound system boasts 16 speakers, including 2 mounted on the shoulders of each front seat. Each has been custom-tuned to deliver rich and realistic 5.1 surround sound. Active Noise Control intelligently detects road or wind noise and neutralizes it with opposing sound waves for a more serene driving experience!

U.S. instrumentation shown.

FEEL SAFER

BE CLEARER IN

MANAGE YOUR PACE Set your desired speed and distance, and Intelligent Cruise Control (Full-Speed Range)^{1,4} will automatically adjust your speed in slowing traffic, all the way to a complete stop. Once the way clears, Intelligent Cruise Control will bring you back up to your preset speed.

KEEP YOUR DISTANCE Distance Control Assist^{1,5} looks ahead and helps warn you if your following distance becomes too short. If detected, and you do not take your foot off the accelerator pedal, the system will automatically engage the brakes and push back on the pedal.

Maintain Your Lane The Lane Departure Warning and Lane Departure Prevention Systems^{1,6} monitor lane markings and will help warn you if you start to drift. If the drift continues, the system will help ease your vehicle back towards the centre of your lane by applying the brakes on the opposite side of the vehicle.

KNOW YOUR WAY Find your way through busy streets and unfamiliar territory. The Infiniti Hard Drive Navigation System^{1,7} lets you choose a view that's most intuitive to you—a 2D overhead view or a 3D Birdview perspective. Lane Guidance will also help escort you exactly where you need to be for exits and interchanges.

ON THE ROAD

RECOGNIZING DANGER Predictive Forward Collision Warning^{1,8} uses radar to continuously monitor not only the vehicle directly ahead of you but of the vehicle in front of that one. If the system detects a potential risk, it provides an alert and tightens the driver's seat belt to help restrain you.

MORE SURE WHEN BACKING UP Backup Collision Intervention^{1,9} increases your awareness while in reverse. As you back up, the system warns you if approaching vehicles or large objects are detected behind your vehicle and can help you avoid a collision by applying the brakes.

SENSES WHERE YOU CAN'T SEE The Blind Spot Warning and Blind Spot Intervention[®] Systems^{1,10} use sensors to help alert you to a detected vehicle entering the blind spot area in an adjacent lane and help you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane after using the turn signal, a warning sounds. The system will even apply brakes to help guide your vehicle back toward the centre of your current driving lane.

ADVANCED WARNING Forward Emergency Braking^{1,11} adds another dimension of security. It detects vehicles in the lane ahead of you, and if deceleration is required, the accelerator pedal is pushed up and the brakes are applied to help minimize or prevent a collision.

THE SUPPORT YOU NEED In certain rear-end collisions, the Front-seat Active Head Restraints can move forward to help cushion the head.

STRONGER AND LIGHTER Ultra high-strength steel is twice as strong as conventional steel and is built around you to enhance your safety in case of a collision.

1 Available on select models. **2** Around View Monitor with Moving Object Detection cannot completely eliminate blind spots and may not detect every object. Moving Object Detection operates at vehicles speeds below 8 km/h. Always check surroundings and turn to look behind you before moving vehicle. **3** The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object. **4** Intelligent Cruise Control is not a collision avoidance or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. **5** Distance Control Assist helps maintain a distance to the vehicle in front of you under certain conditions. Not a collision avoidance system. Failure to apply the brakes could result in an accident. **6** The Lane Departure Warning/Lane Departure Prevention Systems operate only when the lane markings are clearly visible on the road. Speed limitations apply. See Owner's Manual for details. **7** Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. **8** Predictive Forward Collision Warning is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. See Owner's Manual for details. **9** Backup Collision Intervention will not detect every object, and speed limitations apply. Always check surroundings and turn to look behind you before moving vehicle. See Owner's Manual for details. **10** Blind Spot Warning/Blind Spot Intervention Systems are not substitutes for proper lane change procedures. The systems will not prevent contact with other vehicles or accidents. They may not detect every vehicle or object around you. **11** Forward Emergency Braking cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. **12** 2016 Fuel Economy Estimates. Actual mileage may vary with driving conditions—use for comparison only. **13** Active Trace Control cannot prevent accidents or loss of control. It is the driver's responsibility to be in control of the vehicle at all times. **14** Always give your full attention to driving. Avoid operating your iPod® in such a way that you can be distracted during vehicle operation. See Retailer for details. All rights reserved. iPod not included. **15** XM® and SiriusXM® Satellite Radio is available in the 10 Canadian provinces and the 48 contiguous United States. Basic monthly subscription required and sold separately after trial period. NavTraffic®/SiriusXM® Traffic is available in select North American markets. In Canada, at time of printing, incident and flow data is available for 12 metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Toronto, Ottawa, Montreal, Quebec City, Hamilton, St. Catharines, Kitchener, Guelph, and London). Subscription sold separately after trial period. All subscriptions subject to customer agreement at siriusxm.ca/terms. All fees and programming subject to change. © 2015 Sirius XM Canada Inc. The Sirius, XM, and SiriusXM names and all related marks and logos are trademarks of Sirius XM Radio Inc. All other trademarks are the property of their respective owners. **16** Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Infiniti is under licence. **17** Driving is serious business. Only use Infiniti Connection™ and Infiniti Connection Plus services when safe to do so. Services, including automatic crash notification and SOS, require an active subscription, and are dependent upon the telematics device being in an operative condition, its ability to connect to a wireless network, compatible wireless network availability, navigation map data, and GPS satellite signal receptions, the absence of which can limit or prevent the ability to reach Infiniti Connection Customer Care or receive support. Services require compatible 2G GSM/GPRS cellular network provided by independent cellular companies. 2G cellular network not available in all areas and/or available at all times. Cellular technology is evolving, and changes to cellular networks provided by independent companies are not within Infiniti's control. Like other devices that rely on 2G network coverage, once the 2G network is terminated, Infiniti Connection and Infiniti Connection Plus services will not function unless equipment replacements, upgrades, or alternative 2G network coverage are available at that time, which Infiniti cannot guarantee. Infiniti is not responsible for associated costs that may be required for continued operation due to cellular network termination (including equipment upgrades, if available, or roaming charges on alternative networks). Certain vehicle services, including Google® compatible services, provided by independent companies are not within Infiniti's control and are subject to change without notice or liability to Infiniti and its affiliates and agents. Complimentary 12 month subscription begins on your date of purchase. Subsequently, your credit card (if on file) will be charged at the then current subscription rate and your service will continue for 1 year periods under the terms of your Subscription Agreement, unless cancelled. Terms and conditions of Subscription Agreement apply. Standard text rates and/or data usage may apply to Infiniti Connection communications received by email or SMS/text message. **18** Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your Owner's Manual for more details. **19** Brake Assist is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to be in control of the vehicle at all times. **20** Vehicle Dynamic Control, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. **21** Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. **22** May require additional options or option packages. **23** Cargo and load capacity limited by weight and distribution. Always secure all cargo.
