

1986 OLDSMOBILE DELTA 88 ROYALE AND CUSTOM CRUISER

GM
Canada

Official Supplier
to The 1986
World Exposition

DELTA 88 ROYALE BROUGHAM SEDAN

Sleeker, more attractive, more aerodynamic: that's Delta 88 for 1986. Totally redesigned. Delta 88 owners like a smooth ride and easy handling. So we improved ride and handling with front-wheel drive, rack-and-pinion steering and four-wheel independent suspension. Improved corrosion resistance. Improved acoustics. Even an improved exterior finish with our best multi-coat/high-gloss enamel paint. Delta 88's full-size value is in great shape in 1986.

Inside, we made sure that Delta 88 is as roomy as ever. Then we added more support to the rich velour or available leather full-foam seats. Four-Season air conditioning. Electronically tuned AM/FM stereo system. Soft-Ray tinted glass.

Front cover: Delta 88 Royale Brougham Coupe.

DELTA 88
ROYALE SEDAN

The look, the ride and the spacious comfort of Delta 88 Royale have made it one of North America's most popular full-size cars. And in 1986, Royale offers all-new style, and more

value than ever before. Among the standard equipment, Four-Season air conditioning and 4-speed overdrive automatic transmission.

DELTA 88
ROYALE COUPE

Choose from three levels of ride control. Standard: Level II, a Firm Ride and Handling Package for improved handling response; or

Level III, a Touring Suspension system for even higher levels of driver control. Automatic electronic load levelling is also available.

DELTA 88 ROYALE
OLDSMOBILE QUALITY

Delta 88 Royale interiors, in Prima II Velour, are available in five handsome colours. Brougham interiors come in elegant Summit velour, or available leather. Six can stretch out in comfort in Delta 88 Royale's spacious interior. A divided bench seat with individual controls is available (standard on Brougham).

Quality starts with design.

Computer aids in design and manufacture.

Quality that was designed-in is, in fact, built-in.

Oldsmobile's single-minded dedication to quality.

It starts with quality people working together, pooling their resources. Stylists. Design, manufacturing, and production engineers. Teams of workers with intensive instruction and experience in robotics, pneumatics, hydraulics, electronics, microcircuitry, and more.

Today's quality requires tools that never before existed.

From the beginning, computer-assisted design and computer-assisted manufacture (CAD/CAM) were important parts of the planning that went into the Delta 88 Royale. And that regulated its progress thereafter. 175 robots — some as big as a two-story building — are used to weld and seal with uncanny precision.

Putting it all together: five automated body systems.

Throughout the assembly process, the highest technology assures the strength, accuracy and integrity of the Delta 88 Royale body structure.

The rear compartment, floor pan and motor compartment are welded together using 21 automatic welders, two welding presses, and 20 robots.

A massive robogate welding machine establishes the precise dimensional inter-relationship between the major assemblies. The body is automatically clamped into position for the framing operation, which employs 10 robots. Spot welds on the body done automatically through the entire process will total almost 5,000.

A variety of machines, such as contact probes and laser sensors, inspect and audit vehicles to assure that the assembly meets Oldsmobile's standard of excellence.

New techniques to keep your Delta 88 Royale looking "showroom new".

Every Delta 88 Royale body is dipped in an ELPO bath of rust resistant primers, before being given a lustrous multi-coat/high-gloss enamel paint job. Completed cars are put through "Dynamic Vehicle Testing", involving computer monitoring of the car on a dynamometer. All for improved quality and durability.

Quality is what makes an Olds worth owning.

Quality is the essential character of the Delta 88 Royale, and of every Oldsmobile. We invite you to take a test drive soon. Experience for yourself the special feel of quality that makes these cars worth owning.

Custom Cruiser provides a whopping 2469 litres (87.2 cubic feet) of cargo space with the second seat folded. Or order a fold-down third seat and you can carry eight in Oldsmobile comfort.

And you'll arrive relaxed and ready, thanks to Custom Cruiser's computer-selected coil spring suspension and Firm Ride and Handling Package. Four-Season air conditioning and Soft-Ray tinted glass are also standard in 1986.

You'll like Custom Cruiser's 4-barrel 5.0 Litre V8 and 4-speed automatic overdrive transmission, too. They add up to smooth, responsive performance every kilometre of the way.

Delta 88 Royale instrument panel shown with available equipment.*

*Note: Speedometers in Canada have major scale in km/h. Secondary in MPH and odometer in kilometres.

■ 3.8 Litre Sequential-Port Fuel Injected V6
 ■ Tinted Glass Removable Panel Sunroof

While there are many service contracts available on the market today, there is only one which gives you an agreement directly with General Motors. It is the one with the GM Protection Plan logo shown above. This logo on all Plan material assures you that the service contract you are buying is the GM Plan, we believe the finest such program available to GM owners.

The GM Protection Plan provides additional protection during and after the new vehicle limited warranties. Ask your General Motors dealer for details and information about the genuine GM Protection Plan.

Available electronic day/night mirror automatically changes from "day" to "night" position. When glare ceases, mirror returns to "day" position.

 3. Owner Assistance Program.
 4. Special Policy Adjustment Program.
- *Ask your dealer for details.

5-year unlimited kilometres corrosion perforation warranty. On all 1986 GM passenger cars. Ask your dealer for details.

COMMITMENT TO

General Motors recognizes that taking delivery of your new vehicle is a significant event. To ensure that your delivery experience contributes to your overall satisfaction, we have implemented a "Commitment to Excellence" Delivery Procedure.

This procedure includes a thorough new vehicle inspection by both the service technician and salesperson, a full tank of fuel, and a follow-up survey to determine your satisfaction with the delivery experience.

General Motors "Commitment to Excellence" is yet another excellent reason to "Look at GM Today".

A WORD ABOUT THIS CATALOGUE

The vehicles described in this catalogue incorporate components produced by General Motors of Canada Limited and related companies and suppliers. During manufacturing, different components than initially scheduled may be used.

All illustrations and specifications contained in this catalogue are based on the latest product information at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost or can only be ordered in conjunction with the other optional equipment. Some options may not be available when your vehicle is built. Check with your dealer for complete information.
