

Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future – moving us to a world that's safer, more sustainable, and exciting.

<sup>1</sup>Feature availability is dependent on vehicle model, trim level, packaging and options. Compatible connected device may be required and feature availability may be dependent on device's capability. Refer to connected device's Owner's Manual for details. Late availability for some features. Driving is serious business and requires your full attention. Only use features and connected devices when safe and legal to do so. Some features, including automatic crash notification and SOS, are dependent upon the telematics device being in operative condition, its ability to connect to a wireless network, compatible wireless network availability, navigation map data and GPS satellite signal receptions, the absence of which can limit or prevent the ability to reach Customer Care or receive support. GPS mapping may not be detailed in all areas or reflect current road status. Never program GPS while driving. Only use Remote Horn features in accordance with any laws, rules or ordinances in effect in your vehicle's location. Some services and features are provided by independent companies not within Nissan's control. **Should service provider terminate or restrict service or features, service or features may be suspended or terminated without notice or with no liability to Nissan or its partners or agents.** Services and features may require compatible cellular network provided by independent companies not within Nissan or its partners' or agents' control. Cellular network signal strength may vary and may not be available in all areas or at all times. Services and features may not function if cellular network is unavailable, restricted, or terminated. Nissan and its partners or agents are not responsible for associated costs or other third party changes that may be required for continued operation due to cellular network unavailability, restriction, or termination (including equipment replacements/upgrades, if available, or roaming charges on alternative networks). Technology is evolving, and changes by independent companies are not within Nissan's or its partners' or agents' control. Enrollment, owner consent, personal identification number (PIN), and subscription agreement may be required to receive full suite of features and services. Trial periods (if applicable) begin on the date of vehicle purchase or lease of a new Nissan. Trial periods may be subject to change at any time and may be subject to early termination without notice. Required subscriptions may be sold separately for each available feature or service after trial period ends, and may continue until you call service provider to cancel. Installation costs, one-time activation fee, other fees and taxes may apply. Fees and programming subject to change. Feature may be subject to age restrictions in some areas. Subscriptions governed by service provider's subscription agreement, terms and conditions and privacy statements available at service provider's website. Text rates or data usage may apply. The Nissan names, logos and slogans are trademarks owned by or licensed to Nissan Motor Co. Ltd. or its North American subsidiaries. Other trademarks and trade names are those of their respective owners. **For important safety information, system limitations, and additional operating and feature information, see Dealer or Owner's Manual.** <sup>2</sup>Dry carbon-fibre requires specific maintenance. Please see your Owner's Manual for details. <sup>3</sup>Extra cost option. <sup>4</sup>RearView Monitor may not detect every object and does not eliminate blind spots or warn of moving objects. See Owner's Manual for safety information. <sup>5</sup>Sonar System may not detect every object. Driver should always check surroundings before driving. See Owner's Manual for safety information. <sup>6</sup>Vehicle Dynamic Control cannot prevent collisions due to abrupt steering, carelessness, or dangerous driving techniques. It should remain on when driving, except when freeing the vehicle from mud or snow. See Owner's Manual for safety information. <sup>7</sup>Driving is serious business and requires your full attention. At all times, obey traffic laws. Not intended for unpaved off-road use. Always wear your seat belt, and please drive responsibly. <sup>8</sup>Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. <sup>9</sup>Driving is serious business and requires your full attention. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. <sup>10</sup>Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. <sup>11</sup>SXM® and SiriusXM® Satellite Radio is available in the 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. All subscriptions subject to customer agreement at [siriusxm.ca/terms](http://siriusxm.ca/terms). All fees and programming subject to change. ©2019 Sirius XM Canada Inc. The Sirius® XM® and SiriusXM® names and all related marks and logos are trademarks of Sirius XM Radio Inc. All other trademarks are the property of their respective owners. <sup>12</sup>Use Hands Free Text Messaging when parked in a safe location. If you must use while driving, monitor traffic conditions and keep both hands on the steering wheel to prevent collisions. Compatible device required. Message and data rates may apply. <sup>13</sup>Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. <sup>14</sup>Airbags are only a supplemental restraint system. Always wear your seat belt. Rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents. See Owner's Manual for safety information. <sup>15</sup>Tire Pressure Monitoring System is not a substitute for regular tire pressure checks. See Owner's Manual for safety information. <sup>16</sup>2020 Fuel Consumption Estimate. Actual mileage may vary with driving conditions – use for comparison only. 2020  
G T - R®

Question everything. Get better answers. The 2020 Nissan GT-R® rewrites the laws of aerodynamics and makes the air your ally. ATTESA E-TS® All-Wheel Drive redefines supercar performance to give you 4-season thrills. It proves you can outperform purpose-built mid-engine exotics and have 4 seats, a handcrafted interior, even a trunk. This is tech that breaks rules and shatters records. This is tech that moves.

Nissan GT-R® Premium shown in Super Silver.

## CREATING AN INSTANT CONNECTION TO INTENSIFY YOUR DRIVE

A tradition of craftsmanship makes the GT-R® a supercar that will take your breath away – even when sitting still. Instrumentation designed for a quick read. Hand-selected materials that deserve a lingering touch. A Display Commander that connects you to your world, and paddle shifters that connect you to a pulse-raising 565 horsepower. Wherever you look, the interior of the GT-R is the embodiment of performance art.

Semi-aniline, leather-appointed heated front seats

Hand-selected, single-hide dashboard cover

Display Commander media controller

Active Noise Cancellation system

Bose® audio system with 11 speakers

Steering wheel-mounted paddle shifters

Five customizable performance screens let the driver organize key information, choosing a variety of engine, acceleration, braking, and handling parameters. A factory preset screen features a dedicated stopwatch.

The Display Commander lets you dial in your world, allowing you to control key functions through the 203 mm (8") multi-touch screen. The dial lets you easily scroll through all menus, and move selections around the screen.

Equipped with Siri® voice control, Apple CarPlay® brings on board to your GT-R your contacts, favourite messaging apps, iTunes® library, Apple Music® playlists, Apple Maps, and more. Simply plug in your compatible iPhone® and go.<sup>1</sup>

## 2020 NISSAN GT-R® 50TH ANNIVERSARY EDITION

# CELEBRATING 50 YEARS OF THRILLS

A GT-R sighting is unusual. And seeing a 50th Anniversary Edition is sure to draw crowds. Befitting its legendary status, there are three exterior colors, including Bayside Blue – brought back for this special tribute – featuring a unique blue color on new 20" RAYS® forged alloy wheels. From race-inspired graphics package to special anniversary badging, the iconic GT-R serves up even greater presence.

Step across signature kick plates and settle into logo-embossed, hand-stitched semi-aniline leather-appointed front seats. From an Alcantara® headliner to a special-edition tachometer, every drive is a celebration in the GT-R 50th Anniversary Edition.

# 50th Anniversary

GT  
R 50th Anniversary

# 565 HORSES – ALL RUNNING IN THE SAME DIRECTION

Massive grip combined with refinement. A suspension that helps filter out bumps and noise while telling you everything you need to know. It all adds up to create the GT-R's unique ability to combine supreme confidence with the pure adrenaline rush of 565 thoroughbred horsepower.

One key to the quickness of the GT-R® is the All-Wheel Drive's ability to put the power down sooner in a corner. In contrast, as they approach the limit of cornering grip, many powerful Rear-Wheel Drive cars require the driver to wait before applying power until the exit of the corner, to avoid upsetting the handling of the car.

Look beyond the sheer size of the 15.35" front and 15.0" rear brake rotors, and you'll see that GT-R features some of the biggest ideas in racing. Its 6-piston front and 4-piston rear calipers provide stronger, more even clamping power. A single one-piece "monoblock" aluminum caliper for extreme rigidity with light weight. Cross-drilled rotors with diamond-shaped ventilation ribs. And a full-floating rotor that allows the outer disc to expand away from the hub, reducing the tendency of the rotor to warp.

Nissan GT-R® Premium shown in Jet Black.

## DYNAMIC

## BALANCE

Another rule bites the dust courtesy of GT-R – a 55 front/45 rear static ratio is actually ideal for handling. At the precise moment the driver accelerates out of a corner's apex, the weight distribution shifts rearward and becomes an approximate 50/50 balance, translating into enhanced tire contact for better acceleration, quicker turns, and a handling feel that's uniquely GT-R.

## MASTERY COMES IN THE SILENCE OF A CLEAN ROOM

Only five master craftsmen in the world are allowed to hand-assemble the GT-R's engine. They are known as Takumi – a Japanese term used to describe a master craftsman who has perfected his skills over years of painstaking work and dedication.

Each engine is assembled by a single craftsman – and proudly bears a plaque carrying his signature. Each Takumi inspects every piece for quality and to guarantee precision. But it's more than just exceptional skill – as one of the Takumi says, "We put our souls into each engine, hoping to deliver that excitement to customers."

Nissan GT-R® Premium shown in Pearl White.

**46 MILLION SQUARE KILOMETRES  
OF SNOW PER YEAR**  
**ONE SUPERCAR  
TO LET YOU ENJOY THEM**

**Biased performance.** Instead of the traditional 50/50 torque split between front and rear axles, the GT-R's electronically controlled All-Wheel Drive system can send up to 50% of torque to the front wheels as needed or provide nearly 100% of available torque to the rear wheels. This provides the steering feel and response of a Rear-Wheel Drive vehicle – the preferred choice of racecar drivers and serious enthusiasts – while still giving the added confidence and controllability that only All-Wheel Drive can offer.

## TO BREAK RECORDS, FIRST BREAK WITH CONVENTION

The GT-R® philosophy says nothing is sacred – question everything, and come up with new answers to achieve the desired results.

A perfect example: the Premium Midship Platform. Moving the engine farther back in the chassis reduces weight over the nose for better handling. In traditional layouts, this would place the transmission rearward, intruding into the passenger cabin.

The solution – separate the transmission from the engine, and mount it with the transfer case in the rear of the vehicle, creating the world's first independent rear transaxle for an All-Wheel Drive vehicle. A brilliant innovation in pursuit of handling perfection.

Another challenge – to make the GT-R as slippery to the wind as possible, but still allow a rear seat and a usable trunk – unheard of in supercars. While you see a substantial, powerful supercar, to the wind, advanced aerodynamics let it punch through the air like a low-slung, mid-engine design.

Years of testing in the wind tunnel have developed a body that masterfully directs air around the body, creating an incredibly clean Coefficient of Drag of just 0.26 Cd. Air underneath the body is used to create downforce, pulling the Nissan GT-R to the road, as well as helping cool key components.

For maximum acceleration, GT-R's 6-speed sequential dual-clutch transmission can snap off lightning-quick gear changes in just 0.15 seconds when in R-Mode – almost as quickly as you can blink. Steering wheel-mounted shifters help ensure that a rapid-fire shift is always easily within reach, regardless of wheel position.

**Premium Midship Engine Position**  
Centre of engine placed rearward in chassis for superior handling.

**Carbon-composite Driveshaft**  
Helps to reduce weight while still capable of handling the engine's prodigious output.

**Slanted Input and Output Shafts**  
The input and output shafts are slanted and flattened out to lower the centre of gravity, further enhancing handling.

**Rear Transmission Position**  
Transmission placed at rear of chassis for better traction and braking.

**Independent Rear Axle**  
By moving the transfer case to the rear of the vehicle, GT-R creates the world's first independent rear transaxle for an All-Wheel Drive vehicle.

# A MASSIVE INJECTION OF NISMO® TRACK EDITION

For 2020, the Nissan GT-R Track Edition features a healthy injection of NISMO tuning, starting with the 600 HP engine from the GT-R NISMO. Power, handling, braking, appearance – in every way the GT-R Track Edition – from its carbon-fibre roof<sup>2</sup> to its new 20" alloy wheels – is an incredible blend of GT-R civility and GT-R NISMO ultimate performance.
