

06 RAV4

 **TOYOTA** | *moving forward* ▶

The all-new 2006 RAV4 is a uniquely capable vehicle. It has a larger body, yet it's more agile and responsive. It's more utilitarian, yet sleeker and more stylish. What it all boils down to is, it can handle anything. So you can, too.

MSRP*

* 2006 Manufacturer's Suggested Retail Price (MSRP): Actual dealer price may vary. Pricing, specifications, standard features and available equipment are based on information available when this page was produced and are subject to change without notice. MSRP excludes Delivery, Processing and Handling Fee (DPH). Historically, vehicle manufacturers and distributors have charged a separate fee for processing, handling and delivering vehicles to dealerships. Toyota's charge for these services is called the "Delivery, Processing and Handling Fee" and is based on the value of the processing, handling and delivery services Toyota provides as well as Toyota's overall pricing structure. Toyota may make a profit on the Delivery, Processing and Handling Fee. Excludes taxes, license, title and available or regionally required equipment. Vehicle photos may not represent actual models. See your Toyota dealer for details

Warranties

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Federal Emission Coverage: Components under the federal emission defect warranty are covered for 36 months/36,000 miles and specified major emission control components are covered for 8 years/80,000 miles. Specified major emission control components under emission performance warranty are also covered for 8 years/80,000 miles. In addition, emission performance warranty is applicable for 24 months/24,000 miles in states and local jurisdictions that require a periodic EPA-approved inspection and maintenance program.

California Emission Control Coverage: In California and any other state that adopts California emission warranty provisions, performance warranty and defect warranty coverage is applicable for 36 months/50,000 miles, and specific control devices are covered for 7 years/70,000 miles.

Accessories: Warranty coverage is for 12 months, regardless of mileage. If the part or accessory is installed during the New Vehicle Limited Warranty period, coverage is for 12 months or the remainder of the applicable warranty coverage, whichever is greater, with the exception of car covers, which are covered for 12 months only.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable Owner's Warranty Information booklet or see your Toyota dealer.

In addition, there may be times when we will establish a special policy adjustment that will further defray repair costs. For details about the new vehicle limited warranty, see your Toyota dealer. And for complete details of Toyota's warranties, please refer to your Owner's Warranty.

[1]Vehicle shown with available equipment.

[2]4-wheel drive (4WD) models only. Automatically disengages at speeds about 25 mph.

[3]Hill Start Assist Control (HAC) is designed to help prevent backward rolling on steep ascents. Downhill Assist Control (DAC) is designed to help the driver maintain vehicle control and speed on steep, downhill descents. Neither system is a substitute for safe driving judgement and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. Please see your Owner's Manual for further details.

[4]Standard on models equipped with V6 engine or 4-cylinder model equipped with 50/50 Split & Stow 3rd Row[TM] seats.

[5]Standard on 4-cylinder models, not available with 50/50 Split & Stow 3rd Row[TM] seats.

[6]Standard on V6 models, available on 4-cylinder.

[7]Before towing confirm your vehicle and trailer are compatible, hooked up and loaded properly and you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on the total weight of any cargo, occupants and optional equipment.

[8]Requires JBL® audio.

[9]V6 Limited models.

[10]Second-row seat adds a walk-in system on passenger side.

[11]Requires 17-in. styled steel wheels with P225/65R17 tires or 17-in. aluminum alloy wheels with P225/65R17 tires.

[12]Not available with tonneau cover and multi-purpose cargo net with support poles. Deletes rear deck cover and cargo area second-row seats' one-touch fold-flat lever.

[13] Not available with 50/50 Split & Stow 3rd Row[TM] seats.

[14]Requires leather-trimmed seats.

[15]Toyota Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details.

[16]Toyota's Direct Tire Pressure Monitor System alerts the driver when the tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the Monitor. See your Owner's Manual for details.

[17]Water-repellent deck board not available with fabric-trimmed 50/50 Split & Stow 3rd Row[TM] seats on Base and Limited models.

[18]Brake assist is designed to help the driver take full advantage of the benefits of the ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

[19]The Toyota driver, front passenger, front seat-mounted side airbags and side curtain airbags are Supplemental Restraint Systems (SRS). The driver and front passenger airbags are designed to deploy in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceed the design threshold. The side airbags and side curtain airbags are designed to deploy in certain types of severe side-impact collisions. The front and rear side curtain airbags are also Roll-Sensing Curtain Airbags (RSCA) and are designed to deploy at a severe tilt degree, roll or lateral G-force. In all other accidents, the airbags will not deploy. To decrease the risk of injury from a deploying airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the airbag modules and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying SRS airbag may cause serious injury or death. Please see your Owner's Manual for further instructions. Vehicle complies with "advanced airbag" requirements of

'06 // RAV4

FMVSS 208.

[20]V6 available early February 2006.

[21]Cargo and load capacity limited by weight and distribution.
