# UNIVERSAL MEDIA INTERFACE

Four Products in one.

## Universal Media Interface

The Universal Media Interface (UMI) from Mercedes-Benz allows the standard radio (Audio 20 CD) in the new GLK-Class to be upgraded to an innovative and multifunctional navigation and entertainment center. In addition to the advantages of 3D GPS map navigation, and included lifetime traffic, the Universal Media Interface allows the user to play back their favorite songs from a range of portable devices via the audio interface in the glove compartment. A whole range of sources—one solution: the UMI gets your music moving. It is operated using the controller on the center console.

<sup>1</sup> Traffic Information is not available in all areas.

<sup>2</sup> iPod and iPhone are registered products of Apple Computer. All iPod and iPhone devices are sold separately. UMI supports USB charging (e.g. iPhone 3G).

<sup>3</sup> Control of devices connected via AUX-In port (non iPod/USB) is limited to volume control.

<sup>4</sup> Audio streaming and mobile phone functions cannot be used simultaneously. UMI and audio device must first be paired before use. Required Bluetooth profile is not supported by all phones.

## ► Map Navigation<sup>5</sup>

Delays. Detours. Traffic. Construction. Avoid the unnecessary stress of stop-and-go with the state-of-the-art technology in the Universal Media Interface (UMI) from Mercedes-Benz. The UMI offers cutting-edge 3D map navigation to help you get to your destination without worry, hassles or wait.

## ► Lifetime Traffic Assistance<sup>1</sup>

To make your drive even more enjoyable, UMI offers a lifetime real-time route assistance available 24 hours a day, 7 days a week. No additional cost.

## ► iPod® & iPhone® Integration<sup>2</sup>

Seamless integration shines with this one. Connect your iPhone or iPod and settle in to its familiar menu structure with the music you love. All music functions are accessed through the central controller.

*Phone functionality of the iPhone is not supported*

## ► USB Interface

Listen to your favorite MP3 playlists by simply connecting any USB-based MP3 player or USB stick to the audio interface in the glovebox. Audio controls are easily accessed via the Audio CD menu.

## ► AUX Interface<sup>3</sup>

To us, nothing is truly forgotten—including the timelessness of classic favorites. Bring the past into the present by connecting your cassette or media player to the AUX-IN port on the audio interface.

## ► Wireless Audio Streaming<sup>4</sup>

Make the most of your mobile phone wherever you go. Simply activate your Bluetooth connection, turn the key and feel the freedom of bringing your world of music and rhythm with you on the road. Select your MP3 songs using the central controller.

<sup>5</sup> Navigation map update includes the United States and Canada (excluding Alaska, Puerto Rico and Hawaii). Coverage for Puerto Rico, Alaska and Hawaii is planned to be available as part of the first UMI map update later this year.

# MERCEDES-BENZ NAVIGATION MAP UPDATE

*More than a Map.™*

## Navigation Map Update

The Mercedes-Benz COMAND Navigation System<sup>6</sup> is a fully integrated system that combines Global Positioning System (GPS) technology with electronic mapping software to help you to plan trips, navigate detours and avoid getting lost. The Global Positioning System (GPS) satellites continuously track your vehicle's location and rely on accessing the most up-to-date mapping information in order to give you the most accurate and efficient routes.

Notice however, how quickly the surroundings change: roads are added or diverted, restaurants open and close, hotels and hospitals are built, ATMs move. In fact, as much as 20 percent of the navigations data the GPS satellites rely on changes every year. That is why Mercedes-Benz offers reliable, and updated navigation data to help get you where you need to go effortlessly. The Navigation Map Updates are available for purchase from your authorized Mercedes-Benz dealer.

The system can route you through more than 6.1 million miles of navigable roads in the United States and Canada. Just enter the address on the intelligent destination input screen, and the system takes over, guiding you audibly and with a clear and detailed 7" LCD map display. Do you need an idea where to go? The Navigation System also offers 1.7 million Points of Interest in 40 categories including ATMs, restaurants, hotels, airports, museums and more.

<sup>6</sup> Navigation system data includes the United States (excluding Alaska) and Canada. Directional assistance provided only when GPS coverage is available. Maps do not cover all areas nor all routes within an area. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or verbal displays once the vehicle has been stopped in a safe place. See your authorized Mercedes-Benz dealer for availability and details.
