

DODGE DURANGO

2015

2015: DODGE DURANGO

Known for its sophisticated seven-passenger interior. Admired for its all-wheel drive and towing capability. Valued for its technology. Dodge Durango has earned a reputation as solid as its performance. It's technologically advanced, fuel-efficient and dramatically styled — one drive, one look and we're sure you'll agree. Durango offers the versatility of a crossover, the capability of an SUV and the bold performance unmatched by its competition.

BENEATH THE BEAUTY OF ITS SLEEK EXTERIOR — Is a double-minded powertrain built to effortlessly devour highways without gorging on gas. With a near 50/50 weight distribution and four-wheel independent suspension, Durango further separates itself from the competition. The award-winning 3.6-litre Pentastar™ Variable Valve Timing (VVT) V6 engine gets its power from up to 295 horses and 260 lb-ft of torque.

STANDARD ALL-WHEEL DRIVE (AWD) — This fully automatic and seamless system works with active variable torque distribution and electronic brake distribution control for enhanced vehicle stability. V8 models include a low range on the transfer case for extreme driving situations.

5.7-LITRE HEMI® VVT V8 — With VVT and FuelSaver Multi-Displacement System (MDS) technology, this legendary powerplant gives drivers impressive fuel economy of up to 11.5 L/100 km highway*. MDS seamlessly transitions this powerhouse from eight cylinders to four when full power is not required, and delivers best-in-class^{††} power with 360 horsepower and 390 lb-ft of torque, in mere milliseconds, when it is.

CLASS-EXCLUSIVE² EIGHT-SPEED AUTOMATIC — Durango's performance is exceptionally smooth and efficient thanks to its standard eight-speed automatic transmission with Eco Mode. Performance-inspired die-cast steering wheel-mounted paddle shifters allow for a more personalized driving experience.

TRAILER SWAY CONTROL — Sensors recognize sway unique to trailering then correct it by applying brake pressure on alternating wheels.

LUXURY WITH LIMITED

The Limited model offers an impressive combination of upscale features and comforts at an incredible value. It boasts heated front and second-row seats, a heated leather-wrapped steering wheel, Park-Sense® Rear Park Assist System,⁵ ParkView® Rear Back-up Camera,⁵ Remote Start, driver's memory setting for exterior mirrors, seat position, and radio, and more. Limited's exterior is adorned with distinguishing features such as 18-inch polished aluminum wheels with Mineral Grey pockets and a bright exhaust tip(s). New for 2015, Limited's exterior can be enhanced further with the Rallye Package, detailed below.

SPORTY R/T AND RALLYE

Durango R/T and Rallye (available on SXT and Limited models) feature matching exterior DNA. They start with sleek, monochromatic wheel flares and sill moulding, a body-colour grille with black accents and impressive 20-inch Hyper Black aluminum wheels. Unique front and rear fascia and headlamps with black accents confirm there's something distinctly different about these vehicles. Look beneath the surface of R/T and you'll find a 20-mm-lower ride height, sport suspension, unique exhaust tuning and the legendary 360-horsepower 5.7-litre HEMI® Variable Valve Timing (VVT) V8 engine. The R/T interior is uniquely styled in leather-faced seating with red accent stitching. Rallye is driven by the 3.6L Pentastar™ VVT V6 with an amp'd up 295 hp versus the standard 290 hp.

Durango R/T shown in Redline Pearl.
Durango Limited shown in Bright White.

SEATING CONFIGURATIONS

WHY SO MANY SEATING CONFIGURATIONS? The answer is simple: Dodge engineers don't believe in a one-size-fits-all interior since who and what you need to take today will not be the same tomorrow. On that principle, they designed a fluid interior made to move right along with your ever-changing lifestyle. Standard seven-passenger seating includes a fold-flat front-passenger seat, 60/40 split fold-and-tumble reclining second-row bench seat with integrated centre armrest with cup holders and a 50/50 split-folding third-row seat. Opt for cloth or heated leather-faced second-row fold-and-tumble Captain's Chairs with soft-touch armrests and floor-mounted mini console. An available second-row centre console boasts four different storage areas, illuminated cup holders, a USB port for charging and a 12-volt power outlet that supports compatible devices. Watch the latest movies or play your favourite games in high quality with the available dual Blu-ray™/DVD entertainment system featuring two nine-inch seatback-mounted VGA screens.

THE LOOK AND FEEL OF LUXURY

Slide into Durango's driver's seat and it becomes instantly clear that this is the no-compromise SUV. Not only will a powerful and efficient powertrain take you the distance, the interior will indulge you with premium details. Refined craftsmanship, abundant soft-touch surfaces, bright accents, available heated and ventilated Nappa leather-faced seats, and class-exclusive² technology envelop you. Regardless of where you and your passengers are sitting, all will appreciate the high-performance sound from the Alpine® Premium Sound System. This available system utilizes a high-powered, 506-watt amplifier including nine speakers and a subwoofer. So go ahead, immerse yourself in the good life.

COMMAND CENTRAL

This is the standard class-exclusive² seven-inch customizable in-cluster display centre. From here, you get real-time information on performance, available navigation and vehicle status in rich, full-colour graphics. You can view vivid turn-by-turn graphics for the available navigation⁶ system. Receive visual notifications for available safety systems, such as Blind-Spot Monitoring (BSM)⁵, Forward Collision Warning (FCW) with Mitigation⁵ and Advanced Brake Assist — as well as one that helps you track performance and average fuel economy so you can grab the most power while using the fewest drops of gas.

Durango Limited interior shown in Black.

WELL-CONNECTED

Intuitive and customizable, available Uconnect[®] systems include a touchscreen display of either 5.0 or 8.4 inches as well as steering wheel-mounted controls that manage features like a Bluetooth[®]-enabled phone, hands-free communication⁷, radio operations and more.

VOICE TEXTING

Voice texting⁸ on compatible Bluetooth phones lets you listen to a text message and send a preformatted text response while keeping your hands on the wheel and eyes on the road ahead.

A BRILLIANT DISPLAY

The standard one-year subscription to the SiriusXM Premier package⁹ provides over 120 channels of the best programming for all the places life takes you. Enjoy instant replays of your favourite tunes, instantly access any channel playing your favourite song or artist, get alerts when your favourite teams are playing live and so much more. Opt for the Alpine[®] Premium Sound System for your ultimate listening pleasure.

OFFERS
OVER 60
SAFETY / SECURITY / TECHNOLOGY

FEATURES

WITH OVER 60 STANDARD AND AVAILABLE SAFETY AND SECURITY FEATURES, YOU CAN REST ASSURED A HIGH DEGREE OF ADVANCED AUTOMOTIVE TECHNOLOGY WENT INTO EVERY DURANGO.

BLIND-SPOT MONITORING⁵ WITH REAR CROSS-PATH DETECTION⁵ // This available technology includes dual radar sensors that constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminated icons on sideview mirrors and by an audible chime if the turn signal is activated. When in Reverse, rear sensors warn the driver with an audible chime if cross-traffic approaches.

ELECTRONIC STABILITY CONTROL (ESC)¹⁰ // A standard vehicle-wide network of safety sensors provides instant aid when it detects you're veering off your intended path. This robust system includes Electronic Roll Mitigation (ERM), Antilock Brake System (ABS) with Brake Assist, all-speed traction control and Trailer Sway Control (TSC).

ACTIVE FRONT HEAD RESTRAINTS¹¹ // The standard active front head restraints automatically move forward and upward in the event of a rear-end collision to decrease the space between the head restraint and the occupant's head, helping provide added neck protection for both the driver and front passenger.

RAIN BRAKE SUPPORT // When the windshield wipers are activated, this standard system pulses the brake pads closer to the spinning rotors helping to keep the rotors and pads dry to help enable the shortest stopping distance.

AIR BAGS¹² // Your sense of security is fully met with Durango's all-around air bag system. These seven standard air bags — full-length side-curtain, front seat-mounted side, driver's-side knee blocker and advanced multistage front — all work in tandem to help provide protection when you need it most.

FORWARD COLLISION WARNING (FCW) WITH MITIGATION⁵ // Radar sensors on this available system detect when your vehicle may be approaching an object too rapidly and alert you with both an audible chime and a visual warning.

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP⁵ // This available system maintains a driver-selected distance between your vehicle and the one in front of it by automatically decreasing the preset cruise control speed when approaching another vehicle in the same lane or when another vehicle that is travelling at a slower speed pulls into your lane. The system will accelerate back to the preset speed when space permits. At low speeds, ACC can bring Durango to a controlled stop.

READY ALERT BRAKING // Anticipates situations when the driver may initiate an emergency brake stop and uses the ESC¹⁰ pump to set brake pads against rotors in order to decrease the time required for full brake application.

PARK-SENSE® REAR PARK ASSIST⁵ // When in Reverse, these available sensors detect the presence of objects within 1.98 m (6.5 ft) of the backup pathway and provide both an audible chime and a visual warning.

HILL START ASSIST // This standard system automatically applies the brakes for two seconds on hills and inclines after the driver releases the brakes, holding the vehicle stationary to allow time for the driver to apply the throttle.
