

FORD ECONOLINE CLASS A MOTORHOME CHASSIS

...Efficiency without Compromise

The Ford Econoline Stripped Chassis is specifically designed for today's 22 to 28 foot Class A motorhomes. It allows you to have the best of two worlds: bigger motorhome spaciousness and features with compact-sized efficiency and maneuverability.

KEY FEATURES INCLUDE...

- 18,500 lb. GCW Rating
- 11,500 lb. GVW Rating
- 7.5 Liter (460 CID) EFI V-8 Gas Engine
- C6 Automatic Transmission
- 36 Gallon Fuel Capacity
- Twin-I-Beam Independent Front Suspension
- Heavy Duty Springs and Gas Filled Shock Absorbers
- Front Stabilizer Bar
- Wide 42-inch Frame
- Steel Girder Type Frame Side Rails
- 14 Shock Absorbing Body Mounts

FORD E-350 MOTORHOME CHASSIS... IN A CLASS BY ITSELF

• **POWERFUL 7.5L (460 CID) EFI V-8 ENGINE...** gives motorhome drivers an added measure of performance and response. With 230 horsepower*, 390 LB-FT of torque*, and Multiple-Port Electronic Fuel Injection (EFI), the 7.5L delivers the power you need when you need it. This high-tech fuel injection system provides smooth overall operation and responsiveness plus good starting in hot or cold weather conditions.

* — Net Rating based on SAE J1349

• **EXCELLENT RIDE AND HANDLING...** is the result of numerous design features like the Twin-I-Beam independent front suspension system that provides each wheel with its own forged, I-beam axle and coil spring. Other components engineered for ride and comfort include:

- Multi-Leaf, Single Stage-Type Rear Spring System.
- Double Acting (telescopic), Gas Filled Front and Rear Shock Absorbers.

- Rugged Front Stabilizer Bar.
- 14 Shock-Absorbing Body Mounts.

• **OUTSTANDING FRAME DESIGN...** is provided by the 42-inch wide ladder-type frame and six steel crossmembers. For extra strength and rigidity the frame is constructed of 36,000 PSI steel with a 5.97 cubic inch section modulus. In addition, the chassis features a close-to-the-ground design to help maintain lower frame heights for easier entry and egress.

• **INNOVATIVE DESIGN...** in combination with an out-front engine location results in minimal engine cover intrusion for extra interior and walk-through room. The Ford aft-of-axle fuel tank location also allows motorhome builders to design in more interior space.

• **DRIVER CONVENIENCE...** is enhanced by the "finger tip" speed control and 5-position tilt steering wheel.

FORD ECONOLINE MOTORHOME CHASSIS ... "BUILT FORD TOUGH!"

ECONOLINE E-350 MOTORHOME STRIPPED CHASSIS SPECIFICATIONS

Model Code	E33	Fuel Tank	36 Gallon Aft-Of-Axle Mounted
