**Special Vehicle Options (SVO)**

While the Ford Commercial Vehicle range already offers an extensive choice of off-the-shelf features and options, the Special Vehicle Options (SVO) programme goes a step further. With special options ranging from smaller items like a secondary heavy-duty battery, to something as complex as a fully lined and refrigerated van, the SVO team is here to help. So whether you want your next vehicle supplied in a special colour to match your company's livery, or need a dedicated conversion for specialist use, SVO has the flexibility and experience to provide a vehicle that's right for you.

For more information, please speak to your local Ford Transit Specialist Dealer.

## Ford Transit Van

Style with substance

The right image is essential for any business. But style is nothing without substance. So the Ford Transit is far more than simply an attractive face. Beneath the bold and stylish surface you will find all the indisputable factors that have made it the most respected van in its class.

For more information, please visit: [www.fordvans.co.uk](http://www.fordvans.co.uk)

**Move your business on**

Vehicle shown features optional equipment at extra cost.

Some people work in an office. Others are always on the move. Now the Ford Transit lets you take your office with you, wherever you're heading. The comfortable car-like cab boasts superbly thought-out features, like an A4 hanging file in the glovebox, two covered storage trays, two cup holders, two 2L bottle holders and a useful foldable work surface. Add satellite navigation or the latest Bluetooth® wireless technology to the list of attributes, and your life on the road will take on a completely new direction.

**Loads better**

**Model:** Trend SWB low roof **Options:** metallic paint (no charge option on Trend, Limited), rear glazed tailgate (at extra cost)

Long or tall, big or small, light or heavy, the Ford Transit Van range can carry it all. With three wheelbases, three roof heights, four body lengths and the choice of front-, rear- and even all-wheel drive available, there is a variant for any type of hard work. Across the range, you will find full-height rear doors that open through 180° to reveal a generous load area with space to carry 8'x 4' building boards vertically or horizontally and effortless Europallet loading. A sliding side load door, flat load platform, tie-down eyes and minimal wheel arch intrusion all enhance Transit's loadspace efficiency.

Vehicle shown with load compartment protection kit  
(Option on base, Trend at extra cost, standard on Limited)

#### Side cargo storage rail

Allows loads to be easily and securely lashed.  
(Option, load strap not supplied, shown with load compartment trim board)

Load compartment

Near-vertical body sides translate into a hugely usable loadspace. So too does the width between the rear wheel arches, which is amongst the greatest of any vehicle in its class. Together they provide enough room to load standard 8' x 4' building boards either horizontally or on their sides in the short wheelbase van. Or up to five Europallets in the single rear wheel LWB 'Jumbo'.

Because you need to reach your cargo during the working day, we've made it as easy as possible to load and unload. Twin unglazed rear doors are fitted as standard, along with a passenger's sliding side load door. A driver's side load door is also available.

Your Ford Transit Specialist Dealer can supply and fit a wide range of accessories to optimise your van, together with arranging the fitment of racking or other load box fixtures to your specification.

For more specific uses, Ford Special Vehicle Options (SVO) are available to meet unique customer requirements. For further details, please speak to your local Ford Transit Specialist Dealer.

Vertical, half-width mesh bulkhead helps to protect the driver from shifting loads.  
(Option)

Rear centre step for improved access into the rear loadspace.  
(Option)

Twin sliding side load doors are available.  
(Option. Standard on MWB low roof models)

Tailgate  
Available on low roof models. (Option)  
(SVO option available for medium roof)

Tie-down eyes allow loads to be fixed securely.  
(Standard)

Rear doors.  
180° opening unglazed rear (Standard)  
256° opening doors with magnetic retainers  
(Option. Standard on 'Jumbo')

#### Key Benefits

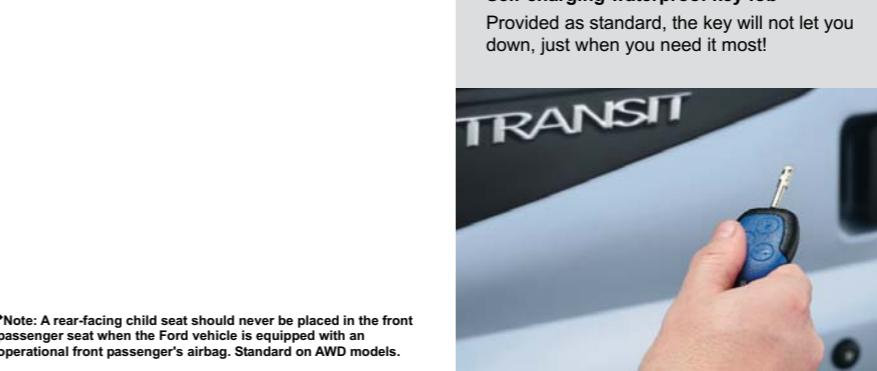

- Four body length choices
- Low, medium and high roof heights (all-steel construction)
- 100 mm lower load floor on front-wheel drive models
- Minimal taper of load box sides for maximum usable loadspace
- 1390 mm width between rear wheel arches (single rear wheel models)
- Rear doors check at 90° and can be opened to 180° at the press of a button, 256° on 'Jumbo' models
- Magnetic door retainers on 256° opening doors ('Jumbo')
- Wide range of loadspace and Ford Special Vehicle Options available.

As a business user, you need to have confidence in your vehicle. So the Ford Transit can take plenty of tough treatment.

It's tough on the streets. So the Ford Transit is endowed with end-to-end strength to command respect when tangling with city traffic. Plus class-leading security for your precious load and the most comprehensive safety package in the business. New technology makes it an even more secure place to work with the availability of a number of options including Cat 1 alarm, slam locking and configurable unlocking that allows you to choose which doors to unlock, and in which order.

Transit is consistently recognised as a class-leader for security. From its PATS immobiliser and high security shielded locks, to its optional range of alarms Transit offers a comprehensive portfolio of proven security technology.

\*Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag. Standard on AWD models.  
\*ESP is not available on all-wheel drive or petrol engine models.

**Steel bulkhead with full width recess**  
(Standard on MWB, LWB and LWB EL. Option on SWB)

**Steel bulkhead with driver recess**  
(Standard on SWB. Option on other wheel bases)

**Steel bulkhead with glazed window**  
(Option)

**Unglazed rear doors and full-height steel bulkhead**  
Standard to form a secure steel load box.

## Safety and Security

### Key safety features available include:

- Hill Launch Assist\* – prevents the vehicle rolling back when pulling away on a slope
- Driver's airbag
- Outer front passenger's airbag and side airbags (Options)\*
- Three-point seat belts on all seats
- ISOFIX child seat mounting points in the second row centre and outer passenger positions (DCIV only)

### Optional alarm systems include:

- **Perimeter alarm** with trailer monitoring alarm. The system monitors the trailer coupling and activates if unauthorised trailer removal is detected.
- **Thatcham Category 1 alarm** features interior scanner to detect glass breakage and an independent battery back-up in case the vehicle battery supply is interrupted.

### Key security features available include:

- Ford Safeguard Passive Anti-Theft System (PATS) Thatcham Category 2 approved engine immobiliser
- High-security shielded locks with strengthened mountings
- Key-locking bonnet
- 'Torque slip' anti-theft steering wheel
- Remote central double-locking
- Visible VIN (Vehicle Identification Number)

### Optional security features include:

- **Slam locking** – a useful option that allows the cargo doors to lock immediately when the door is slammed closed provided the vehicle has been locked using the remote key fob. Especially convenient for delivery and collection drivers.
- **Configurable unlocking** – this optional feature allows the driver to choose which doors to unlock, and in which order, when selected buttons are pressed on the remote key fob. This provides added confidence, particularly for delivery operators.

**Occupant safety**  
A driver's airbag is standard, with seat-mounted side, head and thorax airbags available as options.

**Steel bulkhead with glazed window**  
(Option)

**Model:** Transit (base) Double Cab-in-Van LWB high roof  
**Options:** (at extra cost) metallic paint, dual side load doors, AWD

The Ford Transit Van's advanced diesel engine range features the latest common-rail fuel-injection technology.

#### Digital tachograph

Sets new standards for performance, technology, design and tamper-proofing. (May be a legal requirement on some variants)

Power you can count on

#### Energy Management

Rear-wheel drive, all-wheel drive and 330/350 FWD models are equipped with twin batteries as standard (option on 260 / 280 / 300 FWD models).

This arrangement allows the second battery to power whatever accessory is needed when the engine is switched off, leaving the primary battery in a high state of charge for dependable start and run operation.

#### Advanced technologies

Our line-up of Duratorq TDCi diesel engines uses advanced design and technology to boost performance and efficiency. The latest common-rail fuel-injection system helps to give a hard-working combination of horsepower and torque for superior load carrying and towing capability. There's also a 2.3 Duratec 145 PS petrol engine available for rear-wheel drive applications, which is compatible with LPG (subject to conversion by a third-party specialist).

All engines comply with Stage IV emissions legislation. Stage IV is the latest legal requirement needing 50%

reductions in oxides of nitrogen (NOx) and 40% reductions in particulates below previous Stage III levels.

#### 3.2 Duratorq TDCi engine

A high-power 3.2-litre 5-cylinder Duratorq TDCi diesel engine is the latest edition to the Ford Transit engine range. Developing an impressive 200 PS and a mighty 470 Nm of torque, it is one of the most powerful diesel engines in its class. Available for 350, 350HD\* and 460 RWD models, it comes coupled to an upgraded Durashift 6-speed manual transmission.

#### Pulling power

For some operators, towing is an everyday way of life; for others, it is an occasional event. With up to 470 Nm of torque available, and maximum Gross Train Mass (GTM) ranging from 3500 kg to 6500 kg\*, the Ford Transit is thoughtfully designed to cope with whatever demands you make.

\*Depending on engine, transmission and final drive ratio.

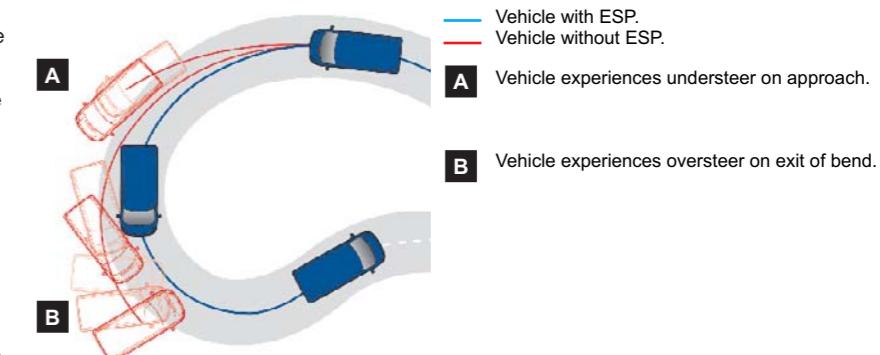

#### Electronic Stability Programme

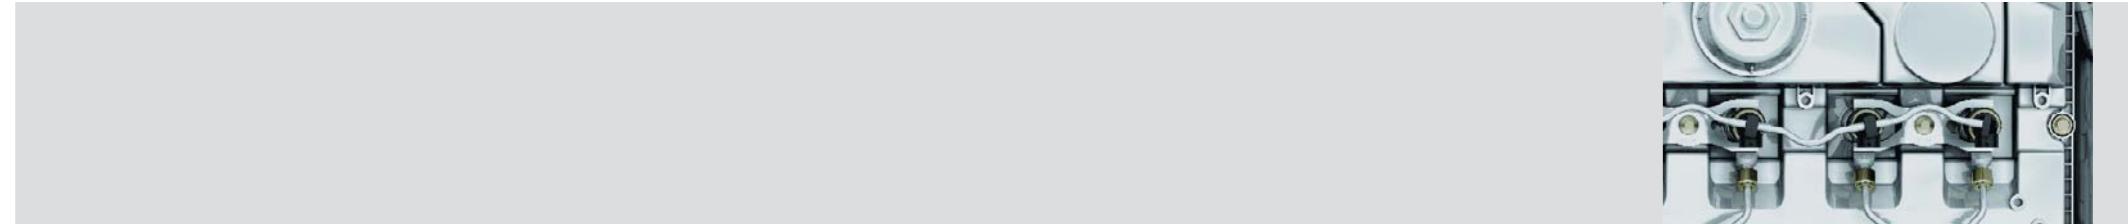

ESP incorporating ABS, senses when the vehicle is deviating from the driver's chosen line and automatically applies the necessary power and braking adjustments to correct its road position.

Brake Assist – a system that detects emergency braking and automatically applies maximum braking effort to potentially reduce the stopping distance.

Brake Traction Control System (BTCS) to aid traction when starting from rest.

Hill Launch Assist (HLA), to prevent the vehicle from rolling back when pulling away on a slope.

Driven by the way you work

The power to deliver a top quality job is the key to success in any business. So our comprehensive range of engines and transmissions has been developed to withstand the rigours of working life. Add to that the choice between front- and rear-wheel drive, and the confidence-inspiring new full-time all-wheel drive system, and you can trust the Ford Transit to put out the muscle when you need it most.

#### Why front-wheel drive?

- Lower load floor for easier loading and unloading
- Larger loadspace and extra interior height
- Outstanding manoeuvrability and driving feel
- Better fuel economy and payload than equivalent RWD models
- Ideal choice for multi-drop delivery applications

#### Diesel (FWD)

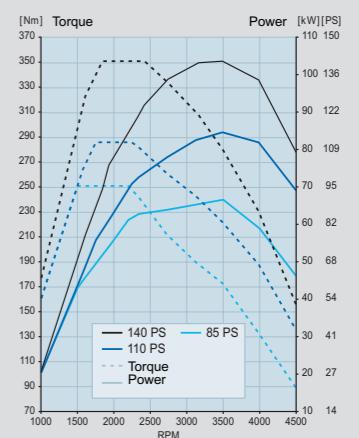

2.2 Duratorq TDCi engine, available in three power and torque configurations:

- 85 PS/250 Nm
- 110 PS/285 Nm
- 140 PS/350 Nm

#### Transmissions

- Durashift 5-speed manual transmission (85 PS/110 PS TDCi diesel)
- Durashift 6-speed manual transmission (140 PS TDCi diesel)

#### Diesel (FWD)

#### Why rear-wheel drive?

- Traditional layout for heavier duty applications
- Ideal choice when towing
- Superior traction under power, particularly when laden
- Enhanced steering quality

#### Petrol (RWD)

2.3 Duratec engine (LPG\*\* compatible)

- 145 PS/210 Nm

#### Transmission

- Durashift 5-speed manual transmission

\*\*Subject to conversion by a third-party specialist.

#### Diesel (RWD)

2.4 Duratorq TDCi engine, available in three power and torque configurations:

- 100 PS/285 Nm
- 115 PS/310 Nm
- 140 PS/375 Nm

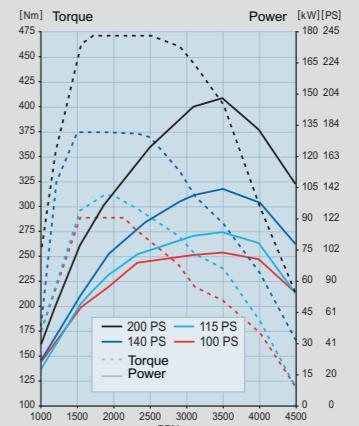

3.2 Duratorq TDCi 5-cylinder engine:

- 200 PS/470 Nm

#### Transmissions

- Durashift 5-speed manual transmission (100 PS TDCi diesel)
- Durashift 6-speed manual transmission (115 PS / 140 PS / 200PS TDCi diesel)

#### Diesel (RWD) and (AWD)

#### Why all-wheel drive?

- Additional traction in difficult driving conditions, such as loose surfaces or heavy snow
- 'Intelligent' automatic system - requires no driver input
- Under normal conditions drive is directed to just the rear wheels. In slippery conditions, the system increases drive to the front wheels to enhance traction
- Suited for rescue services or utility companies where field and track work is frequently undertaken

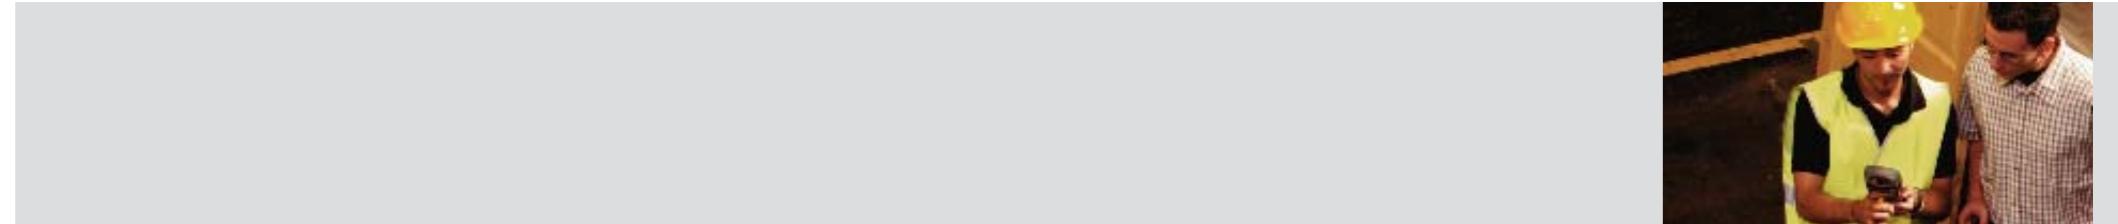

#### Diesel (AWD)

2.4 Duratorq TDCi engine:

- 140 PS/375 Nm

#### Transmission

- Durashift 6-speed manual transmission

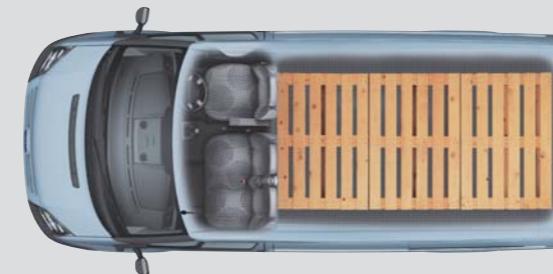

## Short wheelbase

In short wheelbase form, the Ford Transit Van is ideal for urban driving, providing excellent manoeuvrability. Its exceptionally practical load box will accommodate standard 8'x 4' building boards or up to three Europallets, while the Double Cab-in-Van version offers up to 5.20/3.94 cu.m\* of loadspace and seating for six.

SWB low roof van.

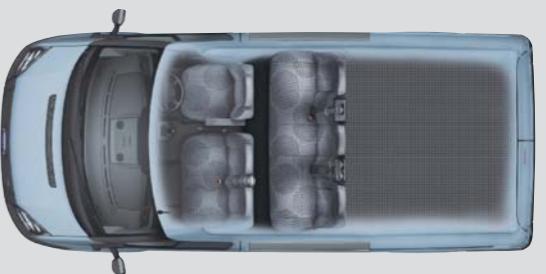

Three 1.2 m x 0.8 m Europallets.

SWB medium roof van.

SWB Double Cab-in-Van low roof.

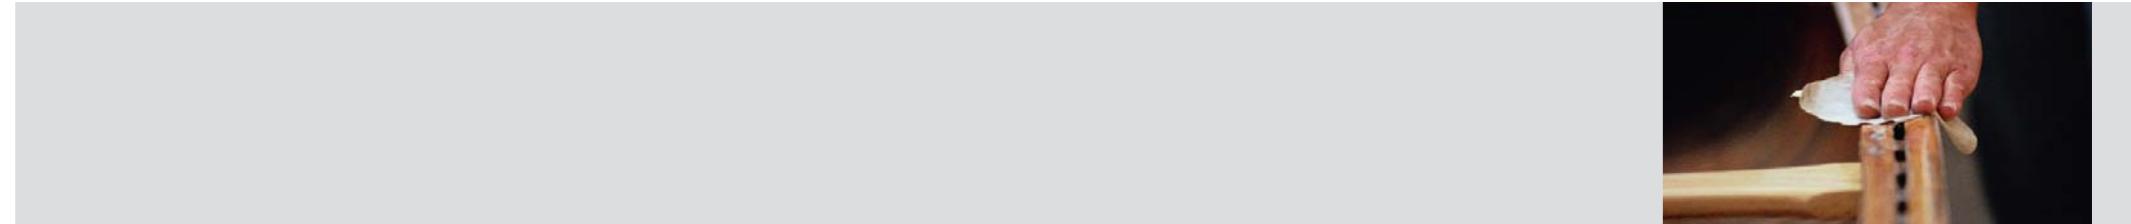

\*Measured using the SAE/VDA method and measured in cubic metres.

### SWB Van

- 2582 mm load length
- From 793 kg to 1563 kg gross payload
- From 6.05/5.19 cu.m to 7.94/6.81 cu.m loadspace\*
- Choice of FWD (low floor), RWD (standard floor) or AWD
- Choice of low roof or medium roof
- Ability to carry standard 8' x 4' building boards horizontally or on their sides
- Space for up to three 1.2 m x 0.8 m Europallets
- Turning circle (kerb to kerb) 10.8 m

### SWB Double Cab-in-Van

- 1654 mm load length
- From 767 kg to 1000 kg gross payload
- Up to 5.20/3.94 cu.m loadspace\*
- FWD (low floor) only
- Choice of low roof or medium roof
- Three extra seats and full width bulkhead as standard

## Medium wheelbase

Balancing three different roof heights, the medium wheelbase Ford Transit Van is an extremely accommodating choice, including the versatile low roof version, which gives greater loadbox functionality for longer loads (vs. SWB) whilst still allowing access to height restricted areas.

### Ford Transit Van MWB versus SWB

- 367 mm longer load length
- Greater loadspace capacity
- Higher and wider side load door
- Higher maximum payload capability
- Choice of three roof heights

### Ford Transit Van MWB

- 2949 mm load length
- From 964kg to 1686 kg gross payload
- From 7.44/6.45 cu.m to 10.31/8.85 cu.m loadspace\*
- Choice of FWD (low floor), RWD (standard floor) or AWD
- Choice of low roof, medium roof or high roof
- Space for up to four 1.2 m x 0.8 m Europallets.
- Turning circle (kerb to kerb) 11.9 m

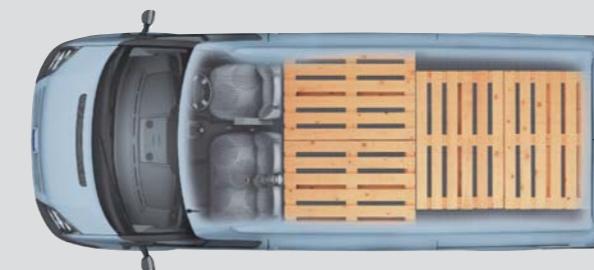

### MWB Double Cab-in-Van

- 1893 mm load length
- From 878 kg to 1399 kg gross payload
- Up to 6.80/5.21 cu.m loadspace\*
- Choice of FWD (low floor), RWD (standard floor) or AWD
- Choice of low roof, medium roof or high roof
- Three extra seats and full width bulkhead as standard

\*Measured using the SAE/VDA method and measured in cubic metres.

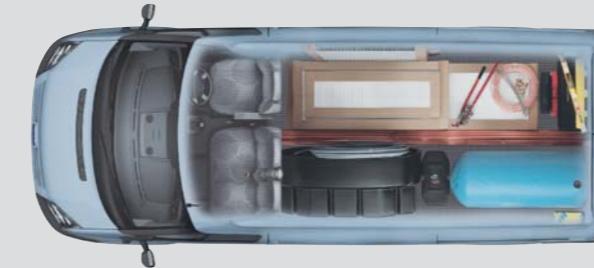

MWB low roof van.

Four 1.2 m x 0.8 m Europallets.

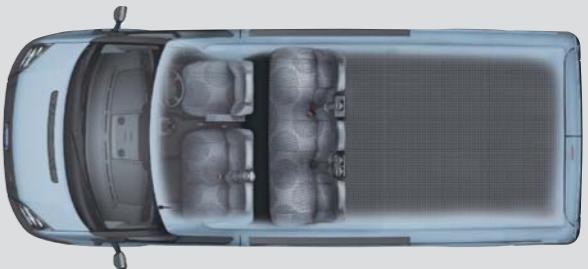

MWB medium roof van.

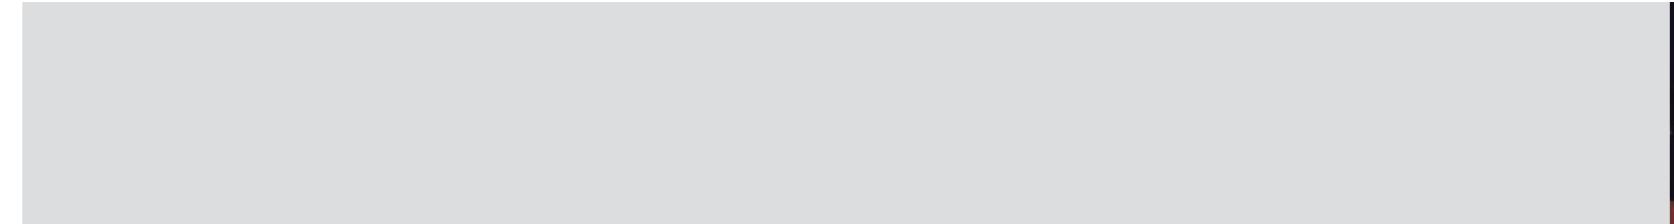

MWB high roof van.

MWB Double Cab-in-Van medium roof.

**Long wheelbase and 'Jumbo' Van**

**Ford Transit Van LWB versus MWB**

- 450 mm longer load length
- Greater loadspace

**Ford Transit Van LWB**

- 3399 mm load length
- From 940 kg to 1595 kg gross payload
- From 9.85/8.45 cu.m to 11.89/10.20 cu.m loadspace\*
- Choice of FWD (low floor), RWD (standard floor) or AWD
- Choice of medium roof or high roof
- Space for up to four 1.2 m x 0.8 m Europallets
- Turning circle (kerb to kerb) 13.3 m

**LWB Double Cab-in-Van**

- 2506 mm load space
- From 1230 kg to 1372 kg gross payload
- Up to 8.10/6.56 cu.m loadspace\*
- Choice of FWD (low floor) or RWD (standard floor)
- Choice of medium roof or high roof
- Can accommodate 8'x 4' building boards
- Three extra seats and full width bulkhead as standard

For maximum loadspace, look no further than the long wheelbase Ford Transit Van and the vastly accommodating 'Jumbo' van; both ideally suited to fast highway deliveries of heavy or bulky goods. There's now a 4.6 tonne GVM version for those operators who regularly carry the largest loads and a 350HD (Heavy Duty) version for operators demanding greater loading latitude from a 3.5 tonne GVM van.

**Ford Transit 'Jumbo' Van, single rear wheel (350)**

- 4107 mm load length
- 14.30/12.28 cu.m loadspace\*
- Up to 1318 kg gross payload
- Space for up to five Europallets
- Rear-wheel drive, high roof configuration
- 256° opening doors with magnetic retainers
- Turning circle (kerb to kerb) 13.3 m

**Ford Transit 'Jumbo' Van, dual rear wheels (350HD, 460)**

- 4107 mm load length
- 14.30/12.28 cu.m loadspace\*
- Up to 2265 kg gross payload
- Space for up to four Europallets
- Rear-wheel drive, high roof configuration
- 256° opening doors with magnetic retainers
- Turning circle (kerb to kerb) 13.3 m

**'Jumbo' Double Cab-in-Van (350)**

- 3229 mm load length
- 10.80/9.31 cu.m loadspace\*
- Up to 1210 kg gross payload
- Rear-wheel drive, high roof configuration
- Three extra seats and full width bulkhead as standard

\*Measured using the VDA method and measured in cubic metres.

LWB medium roof van.

Four 1.2 m x 0.8 m Europallets.

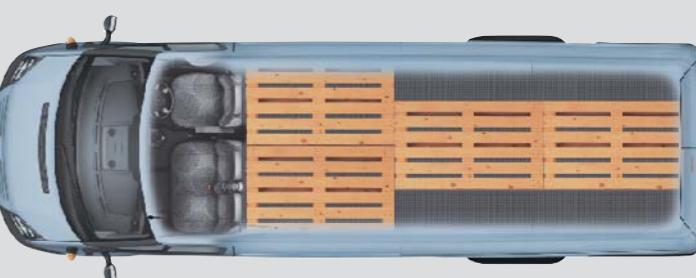

LWB high roof van.

LWB Double Cab-in-Van high roof/ LWB EL 'Jumbo' SRW Double Cab-in-Van high roof.

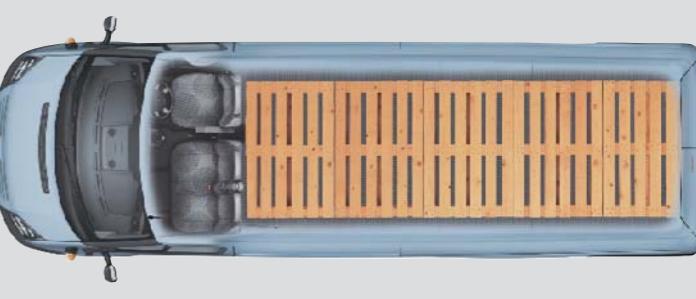

LWB 'Jumbo' dual rear wheel van.

Four 1.2 m x 0.8 m Europallets.

LWB 'Jumbo' single rear wheel van.

LWB 'Jumbo' double cab-in-van high roof.

# Base Van

The Ford Transit Base Van's cab is remarkably well equipped for the most affordable model in the range. Its superbly designed instrument panel and generous stowage features reinforce the high level of quality and craftsmanship to be found throughout the entire vehicle.

## Exterior features

- Tinted glass
- Electrically-operated windows
- Remote central locking
- Rear mudflaps

## Interior features

- Model 6000 RDS stereo radio/CD player with auxiliary MP3 connector and steering column-mounted controls
- Driver's and passenger's side facia-top stowage compartments with lids
- 12-volt power point on driver's side
- Central storage for A4 binder or clipboard
- Passenger's side open storage bin
- Centre-mounted car park ticket/toll holder
- Facia-mounted swivelling tray with two cup holders and pen slot
- Glovebox with rails designed to take A4 hanging files
- Two 2-litre bottle holders
- Driver's side door pocket
- Height-adjustable passenger seat belt
- Heater with air recirculation feature
- Full-width steel bulkhead

## Option Packs available:

### Trunker Pack

- Cruise control
- Trip Computer

### Visibility Pack

- 'Quickclear' heated windscreens
- Electrically-operated and heated door mirrors

### Premium Visibility Pack

- 'Quickclear' heated windscreens
- Electrically-operated and heated door mirrors
- Automatic headlights
- Rain-sensing front wipers
- Instrument panel dimmer

## Trend Van

With its stylish exterior, well-equipped cab and flexible loadspace, Ford Transit Trend Van is the perfect way to mix business with pleasure. Not only does it look good, but with its advanced Bluetooth® connectivity and generous stowage space, it can serve as a genuine mobile office too.

### Exterior features additional to Base Van

- Full wheel covers
- Front fog lights
- Body colour grille and front bumper centre section
- Stainless steel front bumper step plate
- Black bodyside mouldings
- Remote central locking with two key fobs
- Metallic paint (no charge option)

### Interior features additional to Base Van

- Leather-wrapped steering wheel with silver-effect spokes
- Leather gearshift knob
- Cruise control
- Trip computer
- Bluetooth® wireless connectivity, offering voice control for the audio system and most compatible mobile phones
- Loadspace trim boards
- 'Quickclear' heated windscreen
- Electrically-operated and heated door mirrors
- Automatic headlights
- Rain-sensing front wipers
- Instrument panel dimmer

Note The Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

## Limited Van

Distinguished by stylish alloy wheels and a superbly-equipped cab, the Ford Transit Limited Van is quite simply the ultimate professional's work vehicle.

### Exterior features additional to Trend Van

- 16" 5-spoke alloy wheels

### Interior features additional to Trend Van

- Model 6006 RDS stereo radio/6-disc CD player with auxiliary MP3 connector and steering column-mounted controls
- Air conditioning
- 10-way adjustable, heated driver's seat with armrest
- Kado velour seat trim
- Perimeter alarm
- Load area protection kit\*

\*Kit contents include: 'MDF rear trim; full-length rubber mat and load compartment tie-down loops.

# Sport Van

Ford Transit Sport Van makes a bold statement about you and your business. With dynamic 18" alloy wheels, low-profile 235/45 tyres, wide bonnet stripes, twin exhaust pipes and muscular styling enhancements\*, it wouldn't look out of place on a racetrack. SportVan is only available as part of a targeted, limited production run.

## Exterior features

- Available in Panther Black metallic
- 18" alloy wheels with 235/45 tyres\*
- Front / rear lower spoilers with bright front centre section\*
- Side skirts\*
- Extended wheel arches\*
- Wide bonnet stripes\*
- Duratorq TDCi 140 PS engine
- Premium Visibility Pack\*\*
- Twin exhaust tailpipes\*
- Remote central locking with two key fobs
- Body side mouldings

\*Interior shown features Blaupunkt TravelPilot FX 7-digit postcode, colour satellite navigation system (optional, at extra cost). Available mid 2008

\*\*Please note Accessories supplied by MS Design. All supplier-branded components are subject to the warranty terms defined by the relevant supplier and do not lie within the responsibility of Ford.

\*\*Pack contents include: 'Quickclear' heated windscreen; electrically-operated and heated door mirrors; automatic headlights; rain-sensing front wipers; instrument panel dimmer; front fog lights; and stainless steel front bumper step plate.

\*\*\*Kit contents include: MDF rear trim; full-length rubber mat; and load compartment tie-down loops.

\*Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag.

## Twin exhaust pipes

Distinctive styling enhances the van's appearance.

## Interior features

- Model 6006° RDS stereo radio/6-disc CD player with auxiliary MP3 connector and steering column-mounted controls
- Air conditioning
- 10-way adjustable, heated driver's seat with armrest
- Kado velour seat trim
- Cruise control and trip computer
- Load area protection kit\*\*\*
- Outer front passenger's airbag\*

## Express delivery

The Ford Transit Sport Van has a winning capacity for practicality and hard work.

## Ford Transit Connect Van

Tough design and a no-nonsense attitude. A civilised cabin environment with a host of car-like features. The choice of short or long wheelbase options. And an appetite for hard work. That's the unbeatable Ford Transit Connect Van.

**Built to work**

**Model:** Transit Connect Van L LWB **Options:** Metallic paint, alloy wheels, front fog lights (at extra cost)

The award-winning Ford Transit Connect Van is designed, engineered and constructed to the same uncompromising standards as the larger Ford Transit range. The result is standards of durability, functionality and strength that are unparalleled in Europe's small-van sector. However, never content to sit still, we have refreshed the interior and exterior, and introduced Euro Stage IV emissions compliant Duratorq TDCi diesel engines for a more refined and dependable ride.

## Short and Long Wheelbase

With short and long wheelbase options, a large functional load box, and up to 4.4 cubic metres of loadspace with the passenger seat folded, the Ford Transit Connect Van will keep your business on the move.

### Ford Transit Connect Van SWB

- 2467 mm maximum load length
- 825 kg gross payload (T220), 625kg (T200)
- 3.4cu.m loadspace\* (passenger seat folded)
- Space for two Europallets\*\*
- Room to stow a 2.4 m pipe with the passenger seat folded
- Turning circle 11.0 m (kerb to kerb)

### Ford Transit Connect Crew Van SWB

- 725 kg gross payload
- Second row folding seats
- 1.24 cu.m loadspace\* (second row seats upright)
- 909 mm load length (second row seat to rear)

### Ford Transit Connect Van LWB versus SWB

- 2714 mm maximum load length
- 247 mm longer load length
- 900 kg gross payload (T230)
- Greater loadspace
- Increased payload

### Ford Transit Connect Van LWB

- 2714 mm maximum load length
- 900 kg gross payload (T230)
- 4.4 cu.m loadspace\* (passenger seat folded)
- Space for 8' x 4' building boards when loaded diagonally
- Room to stow a 3 m pipe diagonally with the passenger seat folded
- Turning circle 11.9 m (kerb to kerb)

### Ford Transit Connect Crew Van LWB

- 800 kg gross payload
- Second row folding seats
- 1.83 cu.m loadspace\* (second row seats upright)
- 1172 mm load length (second row seat to rear)

\*Measured using the VDA method and measured in cubic metres.

SWB L Crew Van.

LWB L crew van

**1.8 Duratorq TDCi**  
Powerful diesel engine delivers up to 110 PS and 280 Nm of torque.

## Powerful partner

The Ford Transit Connect Van sets the standards in its class, engineered to provide a level of rugged durability never before seen in the compact commercial vehicle market.

Built and tested to Medium Commercial Vehicle standards, the Ford Transit Connect Van delivers outstanding strength and durability. The extensive use of thick, high-strength steel, a reinforced body shell with partial double-skin sides and twin side cross-members, plus a tough boron steel front cross-member all contribute to its outstanding low cost of ownership and useful vehicle life.

### Handling

The independent MacPherson strut front suspension combines with multi-leaf rear springs (single leaf springs on SWB 625 kg models) to endow the Ford Transit Connect Van with superior handling and roadholding, even when fully loaded.

Accurate and responsive rack and pinion, power-assisted steering is fitted as standard and gives the SWB model a turning circle of just 11.0 metres kerb to kerb.

### Brakes and wheels

All models are fitted with 15-inch, five-stud wheels (with reinforced tyres on selected versions) for greater load-carrying capacity. Large front and rear brakes, combined with standard ABS on L and LX models (not T200 van) help to extend service life and deliver outstanding stopping performance. Rear disc brakes with Traction Assist are available as an option.

### Engines

The Ford Transit Connect Van is powered by a range of refined and dependable diesel engines. Designed and engineered to deliver the optimum blend of efficient power and economy.

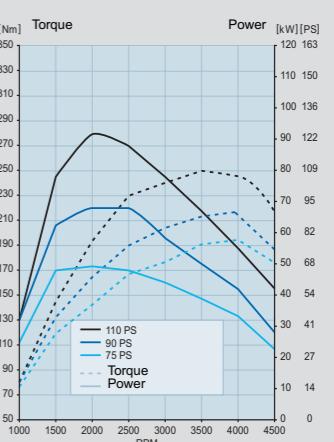

### Diesel (FWD)

1.8 Duratorq TDCi available in three power and torque configurations:

- 75 PS/175 Nm
- 90 PS/220 Nm
- 110 PS/280 Nm

### Transmission

- 5-speed manual transmission

Every day the Ford Transit Connect Van proves it has what it takes to get the job done. With a generous load box and outstanding access, thanks to its wide-opening rear doors and available twin sliding side load doors, the Ford Transit Connect Van will handle almost any task you throw its way.

Whether you are carrying goods, work materials or tools, the Ford Transit Connect Van provides all the loadspace you will need.

Upright body sides help to make the most efficient use of the loadspace, particularly when racking is used. Minimal rear wheel arch intrusion translates into a huge 1226 mm of clear load-floor width – enough to carry two Europallets in the short wheelbase version, or a stack of 8' x 4' building boards\* in the LWB version.

\*When stored diagonally.

#### Built-in fixings

Allow the installation of racking systems without further drilling.

## Functional space

#### Standard features include:

- 1226 mm minimum width between rear wheel arches
- Flat side panels, ideal for signwriting
- Pre-threaded reinforced fixing points allow easy installation of universal racking systems or shelving without the need to drill holes into the vehicle
- Six floor tie-down eyes (L and LX)
- Standard fold-flat front passenger seat provides a level cargo area for longer items, and doubles up as a handy work surface or table
- Load floor liner

#### Optional features and accessories include:

- Range of bulkhead options
- Rear roof flap (SWB)
- Purpose-designed roof rack
- Roof rack crossbars
- Ladder holder and rollers
- Tow bar with electrical kit
- 250° rear cargo doors for wide-open access
- Rear tailgate (SWB only)
- Attitude/ride height pack (Hi-Payload Vans) (not T200 models)

**Half-height, full-width steel bulkhead**  
(Option)

**Two-bar ladder-style steel bulkhead.**  
(Option)

**Sliding side load doors**  
None, one or two side load doors available.  
Un glazed, glazed or with privacy glass.  
(Option)

**Tie-down eyes**  
(Standard)

**Rear roof flap**  
Rear roof flap enables long or awkward loads to be carried in safety. (Option on SWB)

**Tailgate**  
Un glazed or glazed. Privacy glass, heated window and wash/wipe also available.  
(Option)

The Ford Transit Connect Van is engineered to the highest possible levels of strength and durability for your peace of mind. A comprehensive safety package means it offers maximum protection in the event of an accident.

The Ford Transit Connect Van has been designed to offer outstanding vehicle and occupant safety. Advanced computer modelling led to the development of a body structure that combines energy-absorbing crumple zones with a rigid shell for maximum occupant protection.

High-strength steel beams inside the front doors help to prevent intrusion in a side impact, while behind the front bumper is a boron steel cross-member that is designed to absorb and safely channel crash energy away from the occupants.

Security is paramount in a commercial vehicle. So the Ford Transit Connect Van incorporates a combination of state-of-the-art features to make it as secure as possible.

In addition, all Ford Transit Connect Vans benefit from the following standard features:

- Driver's airbag
- Height-adjustable inertia reel seat belts with grabbers and driver's seat belt pre-tensioner
- Anti-lock brakes with electronic brake-force distribution
- Anti-submarining ramps in front seat bases
- Height-adjustable head restraints

#### Optional safety features:

- Passenger's airbag\*
- Side airbags\* (not available with fold-flat passenger's seat)
- Traction Assist and rear disc brakes

## Safety and security

#### Standard security features:

- Ford's Safeguard Passive Anti-Theft System (PATS) engine immobiliser
- High-security shielded locks with strengthened mountings
- Unique lock-in-latch door lock system eliminates cables and rods between the lock and the latch
- Central/double locking
- Remote keyless entry with rolling codes (L and LX)
- Key-operated bonnet release
- Locking fuel cap
- Visible Vehicle Identification Number (VIN)

#### Optional security features:

- Perimeter alarm
- Choice of bulkheads

\*Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag.

#### Full-height steel bulkhead

Full-height steel bulkhead provides added security. Also offered with glazed top panel, as shown. (Option)

#### Folding mesh bulkhead

Folding mesh bulkhead allows longer items to be carried, while protecting the driver against shifting loads. (Option)

#### Lockable bonnet

Lockable bonnet can only be released using the vehicle key. The mechanism is fully shrouded to resist tampering. (Standard)

#### Remote, central/double locking

Remote, central/double locking provides additional security for your vehicle and load. (Standard on L and LX models)

#### Side airbags

Side airbags enhance protection in the event of a side impact. (Option, not available with fold-flat seat)

## SWB Van

Built on a dedicated commercial vehicle platform, the hard-working Base brings you all that is great about the Ford Transit Connect Van range: robust construction; flexible loadspace; and a comfortable, car-like driving environment.

### Exterior features include:

- Tinted glass - Front door glass and windscreens only
- Unglazed hinged rear doors

### Interior features include:

- Model 6000 RDS CD/Radio with 2 speakers
- Roof mounted load compartment light
- Rake and reach adjustable steering column
- Fold flat passenger seat

# L Van

The Ford Transit Connect L Van might be a new driving experience, but as soon as you get in, everything feels familiar. The well-equipped cabin acquires itself impeccably, because the more comfortable you are, the more productive you will be.

## Exterior features additional to Base Van

- Bodyside mouldings
- Passenger side sliding load door

Vehicle shown with optional driver's side sliding side load door

**Four way adjustable driver's seat**  
(Six-way adjustable driver's seats, drivers armrest and lumbar support are available as options)

**Convenient door bins offer safe and tidy storage**  
Standard

**Fold-flat passenger seat**  
Passenger seat can be folded flat, with the headrest in place, for extra load length and a flat load floor. Standard

## LX Van

With outstanding levels of comfort, convenience and functionality, the Ford Transit Connect LX Van has it all. Great to drive and great to spend time in. It's not only a determined work partner, but with its roomy cab and Bluetooth® wireless connectivity available, it serves as the ideal mobile office too.

### Exterior features additional to L Van

- 'Quickclear' heated front windscreen with heated washer jets
- Electrically-operated front windows with 'one-touch' lowering on driver's side
- Electrically-operated and heated door mirrors

### Interior features additional to L Van

- Model 6000 RDS AM/FM stereo radio/CD with steering column-mounted remote audio controls and 'Keycode' anti-theft coding
- Driver's seat armrest and lumbar support
- Map reading light

#### Under-seat stowage tray

Under-seat stowage tray lets you keep items safely out of sight (included with optional four-way adjustable passenger seat).

#### Full-width overhead shelf

Full-width overhead shelf provides further convenient in-cab stowage space. (Standard on LWB, option on SWB L and LX)

#### Rear window protection grille

Grilles secure to inside of rear windows for enhanced security without obscuring rearward vision. (Accessory – Transit and Transit Connect, not for vehicles with tailgate)

#### ClimAir wind deflector

The wind deflector reduces turbulence, letting you enjoy your drive with the front windows open – even when it's raining. (Accessory)

#### Rubber floor mats, front

Hard-wearing and practical rubber mats help keep the interior free from dirt and moisture. Driver's mat is fixed to prevent slippage and interference with pedals. (Accessory)

#### Lockable underseat stowage

Keeps valuable items safely tucked away out of sight beneath the single front passenger's seat. Transit Van only. (Accessory)

#### Rear view camera

Rear view camera with infrared sensors and LCD screen provides clear visibility during the day and night. Automatically activates when reverse gear is selected. (Accessory – Transit Van only)

When your vehicle is an integral part of your business, it's important to have the freedom to tailor its specification exactly to your needs. So, with our extensive range of accessories, you'll find everything from mudflaps and tow bars to the latest satellite navigation systems. Each item has been specially developed to enhance both the efficiency and image of your business.

#### Ford Transit and Ford Transit Connect

##### Rear window protection grille and rear ladder

Steel grilles offer added security for vans with glazed rear cargo door windows. Rear ladder provides easy access to the roof. Available for all roof heights. (Accessory) Rear ladder for Transit only.

##### Wide bodyside mouldings

Tough bodyside mouldings help to protect the sides of your van from knocks and scrapes. Available for all wheelbase lengths – Transit only. (Accessory)

##### Base roof carrier and load stop

Roof carrier is the base for all roof transportation attachments. (Accessory)

##### Thule load stop and lockable ladder holder

Flexible load securing systems for the safe transportation of ladders, timbers and pipes etc.

##### Mudflaps

Available as sets for front or rear, these practical, hard-wearing mudflaps protect the bodywork from stone chips and reduce road spray. (Option and accessory)

##### Tow bar

For extra transport and stowage capability, the tow bar can haul up to 2800 kg (Transit) / 1200 kg (Connect), depending on engine. (Option and accessory)

## Accessories

#### Garmin Nuvi 360T

One of a range of portable GPS navigation systems with 3.5" TFT touch-screen display, Bluetooth®, MP3, audio book player and JPEG picture viewer. Offers navigation and points of interest throughout Europe, and the slim design means it can be carried easily in your pocket. (Accessory)

#### Becker navigation system 'Indianapolis Pro'

Single DIN-sized navigation system, known for its brilliant sound and superior navigation abilities within most European countries. TMC and speed signal feature provide dependable navigation even in areas with poor GPS signal reception. Also plays MP3. DIN adaptor with optional CD box is available separately as well as an additional 6-CD changer. (Accessory)

#### Waeco rear view camera

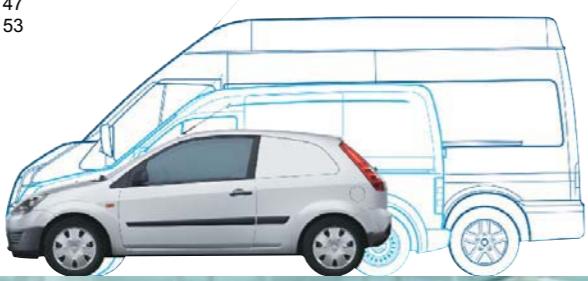

5" LCD colour screen provides clear visibility during the day and night. Automatically activates when reverse gear is selected and can be manually switched off. Ford Transit Connect Van only.

## Security features include:

- Safeguard Passive Anti-Theft System (PATS) engine immobiliser
- High-security shielded locks with strengthened mountings
- Remote central/double locking
- Visible Vehicle Identification Number (VIN)
- Perimeter alarm (option)

\*Measured using the VDA method and measured in cubic metres.

Note Load length reduced when bulkheads fitted.

Note The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

\*Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag.

**Tie-down eyes**  
(Standard)

**Loadspace access**  
A large tailgate and low loading height provide easy access. Folding mesh bulkhead also available. (Option)

# Ford Fiesta Sport Van

The Ford Fiesta Sport Van is an uncompromising blend of business and pleasure. Business because it offers the same appetite for hard work as Ford Fiesta Van, and pleasure because it also looks great and is engineered to provide a more involving driving experience. With its purposeful, distinctive styling and a beautifully crafted, performance-inspired interior, the Ford Fiesta Sport Van is hard to beat.

## Additional to Fiesta Van

- 16" 12-spoke sports alloy wheels
- 1.6 Duratorq TDCi 90 PS/204 Nm diesel engine
- Sports-style front seats
- Electrically-operated front windows
- Model 6000 RDS stereo radio/CD, 'Keycode' anti-theft coding and integrated portable music connector
- Sports-style front fog lights
- Leather-covered steering wheel with silver-finish spokes
- Leather-covered gear knob
- Body-colour sports 'aero' kit including high-intake front grille, rear bumper and rear spoiler
- Remote central double locking
- Trip computer

### Rear spoiler

Enhances Ford Fiesta Sport Van's strong presence. (Standard)

### Express delivery

Keen drivers will welcome the impressive performance and fuel economy of the 1.6 Duratorq TDCi engine.

## For the next generation

We are all beginning to understand the impact that mobility is having on climate change. While we can't change things overnight, we are working very hard to find solutions.

### Making a difference now

Our latest range of engines complies with Euro Stage IV regulations. Duratorq TDCi diesel engines now develop more torque whilst delivering lower emissions. Our Duratec 2.3L engine can be converted to run on liquefied petroleum gas (LPG) or compressed natural gas (CNG).

In the Ford car range, our optional Flexifuel engine is achieving emission reductions of around 30% to 80%\*\* compared to conventional petrol engines.

### Protecting the future

Using our Product Sustainability Index, a design for sustainability management tool, we are addressing the environmental, social and economic impacts of our vehicles from the earliest stages of their development\*.

We are working on a wide range of vehicle technologies from biofuels to hybrids and clean diesels, and in the long term to hydrogen fuel-cell technology with the potential for near zero CO<sub>2</sub> emissions.

### Improving our manufacturing facilities

We are constantly working to minimise the impact of our facilities on the environment. This includes pioneering on-site generation of electricity from sun and wind, implementing leading-edge manufacturing processes and full certification to the international standard for Environmental Management Systems; ISO 14001. This has led to improved environmental performance through savings in energy, water, material and waste-handling requirements.

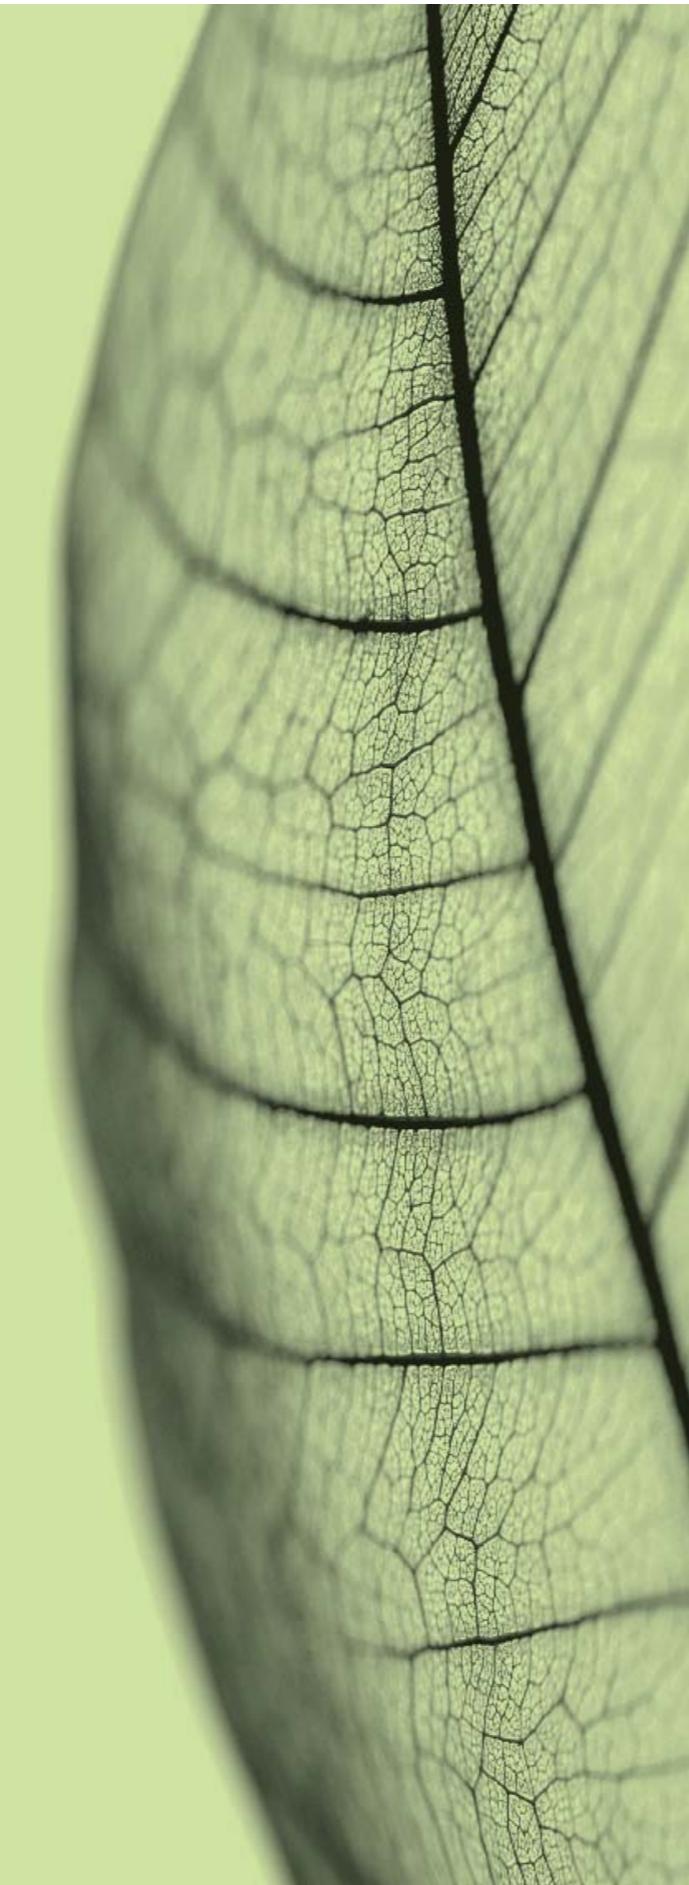

### Recycling for good

In the interests of sustainability, many of our components contain recycled and renewable content. All Ford vehicles are at least 85% recyclable and 95% recoverable in accordance with ISO 22628. We offer free take-back for qualifying vehicles at the end of their lives. All our take-back points are fully licensed and must also meet additional Ford quality standards for the professional receipt, treatment and recovery of end-of-life vehicles.

This brochure has been produced on paper based on fibres from sustainable forestry, using a 100% chlorine-free (TCF) bleaching process.

\*For more about this topic, see <http://www.ford.com/en/company/about/sustainability/2006-07/downloads.htm>

\*\*Dependent on feedstock used and production process. (Source: EUCAR CONCAWE study.) Ford supports the sustainable production of biofuels.

## Making life easy

Our range of finance, insurance, service and assistance options is designed with just one thing in mind – making life easy for you.

### Ford Credit

Your Ford Transit Specialist Dealer can offer simple, plain language advice on the various ways of financing your purchase.
