

# FORD TRANSIT CONNECT

Feel the difference

**Model:** Transit Connect SWB  
Trend Van

**Options:** metallic paint (no  
charge option on Trend, Limited)

## Professional workmate

Tough design and a no-nonsense attitude. A civilised cabin environment with a host of car-like features. The choice of short or long wheelbase options. And an appetite for hard work. That's the unbeatable Ford Transit Connect Van.

## Short and Long Wheelbase

With short and long wheelbase options, a large functional load box, and up to 4.3 cubic metres of versatile loadspace with the passenger seat folded, the Ford Transit Connect Van will keep your business on the move.

### SWB Van

- 2467 mm maximum load length
- 829 kg gross payload (T220), 634 kg (T200)
- 3.40 cu.m loadspace (passenger seat folded)
- Space for two Europallets\*
- Room to stow a 2.4 m pipe with the passenger seat folded
- Turning circle 11.0 m (kerb to kerb)

### LWB Van

- 2714 mm maximum load length
- 888 kg gross payload (T230)
- 4.3 cu.m loadspace (passenger seat folded)
- Space for 2.4 m x 1.2 m building boards when loaded diagonally
- Room to stow a 3 m pipe diagonally with the passenger seat folded
- Turning circle 11.9 m (kerb to kerb)

### SWB Crew Van

- 718 kg gross payload
- Second row folding seats
- 1.4 cu.m loadspace (second row seats upright)
- 909 mm load length (second row seat to rear)

### LWB Crew Van

- 755kg gross payload
- Second row folding seats
- 2.1 cu.m loadspace (second row seats upright)
- 1172 mm load length (second row seat to rear)

\*Without bulkhead fitted.

LWB Trend crew van.

### Stage V engines

Ford Transit Connect's Stage V emissions-compliant engines produce lower CO<sub>2</sub> emissions and are more fuel-efficient.

## Powerful partner

The Ford Transit Connect Van sets the standards in its class, engineered to provide a level of rugged durability never before seen in the compact commercial vehicle market.

### Built and tested to Medium Commercial Vehicle standards, the Ford Transit Connect Van delivers outstanding strength and durability. The extensive use of thick, high-strength steel, a reinforced body shell with partial double-skin sides and twin side cross-members, plus a tough boron steel front cross-member all contribute to its outstanding low cost of ownership and useful vehicle life.

### Handling

The independent MacPherson strut front suspension combines with multi-leaf rear springs (single leaf springs on SWB 634 kg models) to endow the Ford Transit Connect Van with superior handling and roadholding, even when fully loaded. Accurate and responsive rack and pinion, power-assisted steering is fitted as standard and gives the SWB model a turning circle of just 11.0 metres kerb to kerb.

### Engines

The Ford Transit Connect Van is powered by a range of refined and dependable 1.8-litre Duratorq TDCi common rail diesel engines. Designed and engineered to deliver the optimum blend of efficient power and economy.

Ford Transit Connect's latest Stage V emissions-compliant engines have a Variable Nozzle Turbo (VNT) for a broader spread of torque, with maximum torque available from as low as 1500 rpm. This means we can increase the final-drive ratio to improve fuel consumption and reduce emissions without affecting driveability. For example, the Stage V 90 PS engine can now achieve up to 47 mpg and CO<sub>2</sub> emissions of 159 g/km. We've also reduced soot particles with a new vDPF (vaporiser Diesel Particulate Filter), which, when combined with a new smaller, more efficient catalyst, can reduce soot particles by up to 95 per cent. And, in line with our ease-of-use design philosophy, our Stage V engines do not require any special fuel or additives.

\*\*Euro stage IV production ends September 2011. Euro Stage V 90 PS and 110 PS engines are fitted with a standard vDPF (vaporiser Diesel Particulate Filter).

### Brakes and wheels

All models are fitted with 15-inch, five-stud wheels (with reinforced tyres on selected versions) for greater load-carrying capacity. Large front and rear disc brakes, combined with standard ABS, help to extend service life and deliver outstanding stopping performance. Electronic Stability Program (ESP) with Hill Launch Assist (HLA) is also standard on all vans.

### Diesel (FWD)

1.8 Duratorq TDCi available in three power and torque configurations:

- 75 PS/175 Nm - Stage IV
- 90 PS/220 Nm - Stage IV (Stage V option)
- 110 PS/280 Nm - Stage IV (Stage V option)

### Transmission

- 5-speed manual transmission

#### Flexibility

Ford Transit Connect Van has been designed with the real-world in mind – so it can work harder for you (Vehicle shown with accessory roof rack and metallic paint, at extra cost).

#### Built-in fixings

Allow the installation of racking systems without further drilling.

## Functional space

Every day the Ford Transit Connect Van proves it has what it takes to get the job done. With a generous load box and outstanding access, thanks to its wide-opening rear doors and available twin sliding side load doors, the Ford Transit Connect Van will handle almost any task you throw its way.

Whether you are carrying goods, work materials or tools, the Ford Transit Connect Van provides all the loadspace you will need.

Upright body sides help to make the most efficient use of the loadspace, particularly when racking is used.

Minimal rear wheel arch intrusion translates into a huge 1226 mm of clear load-floor width – enough to carry two Europallets in the short wheelbase version, or a stack of 2.4 m x 1.2 m building boards\* in the LWB version.

\*When stored diagonally

#### Standard features include:

- 1226 mm minimum width between rear wheel arches
- Flat side panels, ideal for signwriting
- Pre-threaded reinforced fixing points allow easy installation of universal racking systems or shelving without the need to drill holes into the vehicle
- Six DIN compliant floor tie-down eyes allow loads to be securely fixed
- Fold-flat front passenger seat provides a level cargo area for longer items, and doubles up as a handy work surface or table
- Full height folding mesh bulkhead
- Load floor liner

#### Optional features include:

- Range of bulkhead options
- Purpose-designed roof rack
- Roof rack crossbars
- Ladder holder and rollers
- 250° rear cargo doors for wide-open access
- Rear tailgate (SWB only)
- Attitude/ride height pack (high payload vans, not T200 models)

**Half-height, full-width steel bulkhead**  
(Option)

**Folding DIN compliant mesh bulkhead**  
Allows longer items to be carried and protects the driver against shifting loads. (Standard)

**DIN compliant tie-down eyes**  
(Standard)

**Underseat stowage tray**  
Keeps items out of sight beneath the front passenger's seat. (Option, not available with standard fold flat passenger's seat)

**Sliding side load doors**  
None, one or two side load doors available. Unglazed, glazed or with privacy glass. (Option)

**Tailgate**  
Unglazed or glazed. Privacy glass, heated window and wash/wipe also available. (Option)

#### Protecting your business

Your Ford Transit Connect Van is a vital business asset – and we help to ensure it stays that way with some of the most advanced security features available (Transit Connect LWB Trend Van shown).

#### Door mirrors

Large door mirrors, with blind-spot eliminators, fold flat to avoid accidental damage when parked.

## Safety and security

The Ford Transit Connect Van is engineered to the highest possible levels of strength and durability for your peace of mind.

The Ford Transit Connect Van has been designed to offer outstanding vehicle and occupant safety. Advanced computer modelling led to the development of a body structure that combines energy-absorbing crumple zones with a rigid shell for maximum occupant protection.

High-strength steel beams inside the front doors help to prevent intrusion in a side impact, while behind the front bumper is a boron steel cross-member that is designed to absorb and safely channel crash energy away from the occupants.

Security is paramount in a commercial vehicle. So the Ford Transit Connect Van incorporates a combination of state-of-the-art features to make it highly secure.

#### Standard safety features include:

- Driver's airbag
- Height-adjustable inertia reel seat belts with grabbers and driver's seat belt pre-tensioner
- Anti-submarining ramps in front seat bases
- Anti-lock brakes with electronic brake-force distribution
- Electronic Stability Program (ESP)
- Hazard Warning Lights: the turn indicators flash under heavy braking as a warning to following drivers
- Height-adjustable head restraints

#### Optional safety features:

- Passenger's airbag\* (includes passenger airbag deactivation switch)
- Side airbags\* (not available with fold-flat passenger's seat)

#### Standard security features:

- Ford's Safeguard Passive Anti-Theft System (PATS) engine immobiliser
- High-security shielded locks with strengthened mountings
- Unique lock-in-latch door lock system eliminates cables and rods between the lock and the latch
- Central/double locking
- Remote keyless entry with rolling codes
- Key-operated bonnet release
- Locking fuel cap
- Visible Vehicle Identification Number (VIN)

#### Optional security features:

- Perimeter alarm with volume sensing
- Choice of bulkheads

\*Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag.

The Ford Transit Connect Van now comes with standard Electronic Stability Programme (ESP).

— Vehicle with ESP.

— Vehicle without ESP.

A Vehicle experiences understeer on approach.

B Vehicle experiences oversteer on exit of bend.

#### Lockable bonnet

Lockable bonnet can only be released using the vehicle key. The mechanism is fully shrouded to resist tampering. (Standard)

#### Full-height steel bulkhead

Full-height steel bulkhead provides added security. Also offered with glazed top panel, as shown. (Option)

#### Emergency Brake Warning

The hazard warning lights (front and rear indicators) automatically flash during emergency braking, giving following drivers advance warning of a potentially hazardous situation. (Standard)

# Transit Connect Van

Model shown is finished in Frozen White and features the optional visibility pack

Built on a dedicated commercial vehicle platform, the hard-working and established Ford Transit Connect Van brings you all that is great about the range: robust construction; flexible loadspace; and a comfortable, car-like driving environment.

## Exterior features include:

- 6x15" steel wheels with hub covers
- Torque Grey bumpers
- Tinted glass
- Manually-operated mirrors
- Electrically-operated windows
- Remote central locking
- Passenger-side sliding side load door
- Electronic Stability Programme (ESP)
- Hill Launch Assist (HLA)
- Hinged, unglazed rear cargo doors
- Home Safe headlights

## Interior features include:

- New facia design
- Model 6000 RDS EON AM/FM stereo radio/CD with steering column-mounted remote audio controls, AUX-in and 'Keycode' anti-theft coding
- Steering column adjustable for rake/reach
- Fold-flat passenger seat
- Folding mesh bulkhead
- Front seat-back storage pockets
- Trip computer
- Centre storage
- 12-volt front power socket
- 6 DIN-compliant floor tie-down eyes

### Second-row seats

When you need to transport more than two people, the Double Cab-in-Van – with three extra seats plus a large load space – has room for everyone.

### Home Safe headlights

Remain illuminated for a short while once you're parked to guide you to your door. (Standard)

### Load floor mat

Protects both your van and its load. (Standard)

### Unglazed cargo doors

For added security. (Standard)

### Remote central/double locking

Convenient and secure. (Standard)

### Electrically-operated windows

(Standard)

# Transit Connect Trend Van

Model shown is finished in Avalon metallic paint (option), glazed full height steel bulkhead. (Option)

The Ford Transit Connect Trend Van might be a new driving experience, but as soon as you get in, everything feels familiar. The well-equipped cabin acquires itself impeccably, because the more comfortable you are, the more productive you will be.

## Exterior features additional to Transit Connect Van

- Body colour bumpers
- Front fog lights
- 6x15" steel wheels with full Trend wheel covers
- Premium Visibility Pack, including Quickclear heated windscreen, rain sensing wipers, auto headlights, heated washer jets and electrically-operated and heated door mirrors

## Interior features additional to Transit Connect Van

- Brilliant Blue seat trim and instrument panel available as an option
- Bluetooth® with Voice Control System with second 12-volt power socket
- 6-way driver's seat with armrest and lumbar support
- Silver finish gearshift knob and radio/CD facia
- Aluminium steering wheel spoke shells
- Overhead full width stowage shelf
- Map reading light

**Note** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.  
**Note** It is an offence for drivers to use a hand-held mobile phone or similar device while driving.

### Bluetooth® wireless technology

Wireless mobile phone connection with voice recognition control for audio, phone and climate control. (Standard)

### Trip computer

Displays information including fuel economy, distance travelled, ambient temperature as well as controlling parts of the van's functionality. (Standard)

### Interior design

Trend Van features aluminium trim accents. (Standard)

### 6-way adjustable driver's seat with armrest and lumbar support (Standard)

### Heated door mirrors

Part of Premium Visibility Pack. (Standard)

# Transit Connect Limited Van

Model shown is finished in Avalon metallic paint (option) and glazed full height steel bulkhead (option).

With outstanding levels of comfort, convenience and functionality, the Ford Transit Connect Limited Van has it all. Great to drive, great to spend time in, it's not only a determined work partner but, with its roomy air conditioned cab, it serves as the ideal mobile office too.

## Exterior features additional to Trend Van

- 7 spoke 15" alloy wheels
- 1.8 Duratorq TDCi (110 PS) diesel engine
- Silver front grille
- Body colour door handles
- Rear parking sensors

## Interior features additional to Trend Van

- Reading light
- Air conditioning
- Silver gear shift surround
- Leather steering wheel

### Alloy wheels

Fabulous 15" 7-spoke alloy wheels with 195/65 tyres. (Standard)

### Silver front grille

(Standard)

### Air conditioning

With air recirculation feature. (Standard)

### Rear parking sensors

Makes parking easier. Switches on automatically when reverse gear is selected. (Standard)

### Side airbags\*

Enhanced protection in a side impact. (Option: Not available with fold-flat seat)

### Rain-sensing wipers and automatic headlights

Part of the Premium Visibility Pack. (Standard)

#### Loadspace liner

Heavy duty liner with raised sidewalls helps to protect your load floor from accidental damage. (Accessory) Image shows Ford Transit Van. Also available on Ford Transit Connect.

#### Thule Professional roof carrying systems

A complete range of Thule transportation products available to suit your needs. Available from your Ford Dealer. (Accessory)

#### Fixed tow bar

Expand your transport capabilities. (Accessory)

When your vehicle is an integral part of your business, it's important you have the freedom to tailor its specification exactly to your needs. So, every item within our extensive range of options and accessories has been specially developed to help enhance your efficiency and image.

#### Image left shows:

##### Steel cage roof carrier

Sturdy steel cage roof carrier adds a new dimension to transporting materials and equipment (Accessory).

##### Base roof carrier

Roof carrier is the base for all roof transportation attachments (Accessory – not illustrated).

##### 18" alloy wheels

5-spoke design alloy wheels and 225/40 R18 tyres (Accessory).

#### Image below shows:

##### Dometic cooling fridge

Efficient, tailor-made cooling box uses 12-volt onboard system with integrated gel battery or, when parked, 230-volt mains supply. Maintains constant temperature of around 2°C at ambient temperature of 30°C. Total gross volume approximately 900 litres. Certified by ATP for food transport within Europe (Accessory – requires optional Dual Side Load Doors).

Note The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

#### Sport styling accessories

Front and rear bumper styling parts in contrasting Silver. (Accessory)

#### Mobile navigation

Leave your maps behind with a simple and intuitive mobile GPS navigation system. Please contact your Ford Dealer for details. (Accessory)

#### Parrot Bluetooth® hands-free kits

These Bluetooth® hands-free kits connect to the original audio system. Example shown is a MKi9200 with 2.4" colour TFT screen, built-in voice recognition and automatic phonebook synchronisation. It displays your mobile phone information and the caller's photos. (Accessory)

## Accessories

## For the next generation

We are all beginning to understand the impact that mobility is having on climate change. While we can't change things overnight, we are working very hard to find solutions.

### Making a difference now

Our latest range of engines complies with Euro Stage IV regulations. Duratorq TDCi diesel engines now develop more torque whilst delivering lower emissions. On Transit models, our Duratec 2.3L engine can be converted to run on liquefied petroleum gas (LPG) or compressed natural gas (CNG).

In the Ford car range, our optional Flexifuel engine is achieving emission reductions of around 30% to 80%\*\* compared to conventional petrol engines.

### Protecting the future

Using our Product Sustainability Index, a design for sustainability management tool, we are addressing the environmental, social and economic impacts of our vehicles from the earliest stages of their development\*.

We are working on a wide range of vehicle technologies from biofuels to hybrids and clean diesels, and in the long term to hydrogen fuel-cell technology with the potential for near zero CO<sub>2</sub> emissions.

### Improving our manufacturing facilities

We are constantly working to minimise the impact of our facilities on the environment. This includes pioneering on-site generation of electricity from sun and wind, implementing leading-edge manufacturing processes and full certification to the international standard for Environmental Management Systems; ISO 14001. This has led to improved environmental performance through savings in energy, water, material and waste-handling requirements.

### Recycling for good

In the interests of sustainability, many of our components contain recycled and renewable content. All Ford vehicles are at least 85% recyclable and 95% recoverable in accordance with ISO 22628. We offer free take-back for qualifying vehicles at the end of their lives. All our take-back points are fully licensed and must also meet additional Ford quality standards for the professional receipt, treatment and recovery of end-of-life vehicles.

This brochure has been produced on paper based on fibres from sustainable forestry, using a 100% chlorine-free (TCF) bleaching process.

\*For more about this topic, see <http://www.ford.com/en/company/about/sustainability/2006-07/downloads.htm>

\*\*Dependent on feedstock used and production process. (Source: EUCAR CONCAWE study.) Ford supports the sustainable production of biofuels.

Programme for the Endorsement of Forest Certification schemes

This brochure is printed on PEFC certified paper promoting sustainable forest management.

## Making life easy

Our range of finance, insurance, service and assistance options is designed with just one thing in mind – making life easy for you.

### Ford Credit

When it comes to financing your Ford Vehicle, your Ford Dealer can remove the need for lengthy phone calls, endless online surfing and form-filling. They can help you complete an application and will get a decision, usually within 15 minutes.

So what can your Ford Dealer provide?

**Ford Acquire** is ideal if you're a private or business user who wants a straightforward financing plan to own your vehicle. Simply put down a deposit, pay the remainder, plus interest, over an agreed period and the vehicle becomes yours.

**Ford Lease\*** provides simple, tailored funding solutions for your business, whatever the size. Business users only.

**Ford Insure\*\*** is our comprehensive motor insurance product, designed specifically for Ford drivers.

For more information on our finance products please visit [ford.co.uk](http://ford.co.uk).

Finance subject to status. Guarantees/Indemnities may be required. Freepost Ford Credit.

\*Ford Lease is provided by ALD Automotive Ltd, trading as Ford Lease, Oakwood Park, Lodge Causeway, Fishponds, Bristol, BS16 3JA. ALD Automotive is registered in England No. 987418. For the purposes of the Data Protection Act 1998 the data controllers in relation to any information you supply are Ford Motor Company Limited, FCE Bank Plc and ALD Automotive. Finance subject to status. Guarantees and indemnities may be required. ALD Automotive is authorised and regulated by the Financial Services Authority.

\*\*Ford Insure is underwritten and administered by Royal & Sun Alliance Insurance plc, which is authorised and regulated by the Financial Services Authority. FCE Bank plc is authorised and regulated by the Financial Services Authority and acts as an insurance intermediary in relation to Ford Insure. In relation to this same product, Ford Motor Company Limited is an appointed representative of FCE Bank plc. Ford Motor Company Limited acts as an insurance intermediary. Calls may be recorded and monitored.

### Services

There are 222 Sales and 245 Aftersales Ford Transit Specialist Dealers across the UK, equipped and trained to meet Commercial Vehicle customer requirements. From these, 113 Sales and 95 Aftersales Dealers have achieved the 'Backbone standard' as recognition of their total commitment to delivering dedicated and professional sales and service support.

To find the location of your nearest Ford Transit Specialist Dealer, simply call the Ford Information Service on **0845 7111 888**, or visit the Ford Dealer locator at [www.fordvans.co.uk](http://www.fordvans.co.uk)

**Ford Protect** Every new Ford Fiesta Van is protected by a 3-year/60,000-mile Ford Protect Classic Warranty Plan, and also comes with a 1-year Ford Assistance package.

Ford Ranger is protected by a 3-year/60,000 mile Ford Protect Classic Warranty Plan

Ford Transit and Transit Connects are protected by a 3-year/100,000-mile bumper-to-bumper warranty.

Ford Transit Chassis Cab One-Stop bodywork is covered by a 3-year/100,000-mile warranty and a 3-year Perforation Warranty provided by the bodywork supplier.

**Ford Perforation Warranty** Every new Ford Fiesta Van, Transit and Transit Connect is covered by the Ford Perforation Warranty for 8 years<sup>o</sup> from the date of first registration. Ranger is covered for 6 years from the date of first registration.

**Ford Assistance** Ford Transits, Transit Connects and Rangers are supplied with a minimum of a 1-year Ford Assistance roadside package. Further details are available either on [www.ford.co.uk](http://www.ford.co.uk) or from your local Ford Dealer.

**Ford Rapid Fit** Our 'no appointments necessary, while-you-wait' fast-fit service for exhausts, brakes, batteries and more, at over 240 sites nationally.

**Ford Accident Repair Centres** Approved Ford Accident Repair Centres meet rigorous Ford standards and are the best place to return your vehicle to its pre-accident condition.

### Contacts

**Ford Customer Relationship Centre** In the unlikely event that your Ford Dealer can't help you or if you need to speak to us directly, call 0845 841 1111 at local rates.

**Ford Rental - local service nationwide** Car and van rental from our latest model range. Contact your local Ford Dealer for more information.

**Talkback - the company car drivers' club** This is your club for extended test drives, special events, and advice on tax and buying issues. Join free, even if you don't drive a Ford, on [www.talkbackclub.com](http://www.talkbackclub.com) or call 0845 605 55 66.

**Ford Mobility** Our MAGIC care centre provides free information on all motoring and mobility issues, including special offers for HRDLA and Motability recipients. Call free on 0800 240 241.

<sup>o</sup>Subject to terms and conditions.

Maximum gradeability – 12% at full GTM; 20% at full GVM. <sup>a</sup>Gross payload = Gross vehicle mass, less kerb mass. Represents the lightest kerbweight assuming full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc., fitted. All kerb masses quoted in this brochure are subject to manufacturing tolerances and are for Base models with minimum equipment. Trend, Limited and Sport models will have greater kerb masses and, therefore, lower payloads due to the increased amount of standard equipment. Any additional options specified on the vehicle will reduce the payload accordingly. \*When these engines are also fitted with an optional DPF (Diesel Particulate Filter), they will comply with stage V emission legislation. The optional stage V 90PS variant is fitted with a 3.80 axle ratio.

## Engine data

Engine technical features		Maximum power <sup>a</sup>	Maximum torque <sup>a</sup>	DPF Option
1.8 Duratorq TDCi Diesel 55 kW (75 PS) 1753 cc	4 cylinders in line; SOHC; 8 valves; direct injection with high-pressure, common-rail, multipoint fuel injection system; fixed geometry turbocharger with intercooler; electronic throttle	55 kW (75 PS) at 4000 min <sup>-1</sup> (rpm)	175 Nm at 1800 min <sup>-1</sup> (rpm)	No
1.8 Duratorq TDCi* Diesel 66 kW (90 PS) 1753 cc	4 cylinders in line; SOHC; 8 valves; direct injection with high-pressure, common-rail, multipoint fuel injection system; fixed geometry turbocharger with intercooler; electronic throttle	66 kW (90 PS) at 4000 min <sup>-1</sup> (rpm)	220/240 Nm at 1750 min <sup>-1</sup> (rpm)	Yes*
1.8 Duratorq TDCi* Diesel 81 kW (110 PS) 1753 cc	4 cylinders in line; SOHC; 8 valves; direct injection with high-pressure, common-rail, multipoint fuel injection system; variable nozzle turbocharger with intercooler and transient torque overboost function; electronic throttle	81 kW (110 PS) at 3500 min <sup>-1</sup> (rpm)	250/280* Nm at 1500-3200 min <sup>-1</sup> (rpm)	Yes*

<sup>a</sup>Tested in accordance with ISO 1585. \*With transient overboost. \*Engines will comply with stage V emissions standards when ordered with optional vDPF (vaporizer Diesel Particulate Filter).

## Mechanical features

	SWB	Van	Trend	Limited	LWB	Van	Trend	Limited
<b>Brakes</b>								
Diagonally-split, with dual-line servo-assistance. Front discs, rear discs	●	●	●	●	●	●	●	●

**Illustrations, descriptions and specifications.** This brochure was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Optional Fitment/Pack', etc., you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of carefully selected products from our suppliers, which are featured under their own brands. All supplier branded products are subject to warranty terms defined by the relevant suppliers and do not lie within the responsibility of Ford. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. Other trademarks and trade names are those of their respective owners.

**The Government fuel figures** do not express or imply any guarantee of the fuel consumption of any particular car. The cars themselves have not been tested and there are inevitable differences between individual cars of the same model. In addition, a car may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the car has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.

Ford and BP – working together to reduce fuel consumption and emissions.
