360°

The performance figures are equally stunning.

The sleek lines of the new Mondeo cut through the air more efficiently than ever before. The trapezoid grille hides an **Active Grille Shutter** that improves airflow and reduces drag. Streamlined rear quarter panels are designed to reduce turbulence and add stability.

And when powered with the **Ford EcoBoost** engine, fuel efficiency gets even better. Ford's EcoBoost engines deliver the same performance as larger engines, but with superior fuel economy and lower emissions.*

*Please refer to the fuel economy figures shown on the Fuel, performance and emissions pages.

It makes you
wish the journey
was longer.

Sound absorption materials create a hushed interior, a place of harmony and control. Light pours in through the **panorama roof** to enhance the feeling of spaciousness and highlight subtle chrome detailing.

In the Mondeo Titanium with optional Titanium X Pack, getting in and out of the elegant interior is made easier by the optional **powered steering column** that moves away to allow extra space. Linked to the optional **memory seat** function, it always returns to your ideal driving position.

Adaptive Lighting with Ford Dynamic LED headlights adapt to your driving conditions.

The new Mondeo headlights have been designed to be as functional as they are beautiful. This intelligent headlight system detects different road conditions and selects the appropriate beam pattern for enhanced illumination. And when cornering, the headlight's **dynamic cornering** feature throws the beam around the curve to let you see further. The lower edge of the headlight features two LED strips: white daytime running lights and amber indicators that flash sequentially towards the direction of turn.

Adaptive Lighting with Ford Dynamic LED headlights are available as an option or part of the optional Titanium X Pack.

Use your voice like another pair of hands.

Ford SYNC lets you select music, control navigation and interior temperature, make and receive hands-free phone calls and choose contacts from your phone list with remarkably simple voice commands.

It will even read out your incoming text messages.

So, while Ford SYNC keeps you connected and entertained, you can keep your hands on the wheel and eyes on the road.

An important and potentially life-saving part of Ford SYNC is Emergency Assistance. In the unlikely event of an accident, where the airbag is deployed or the fuel-pump is deactivated, the technology can help you make a direct call to the Emergency Services. Crucially, the system is designed to supply vital information, such as your GPS coordinates, in the event you do not know your location or you are not able to provide it yourself*.

Emergency Assistance has been recognised by Europe's leading independent vehicle safety organisation, Euro NCAP, who awarded the technology their highly rated Advanced reward.

*Ford Emergency Assistance operates in over 30 European countries. This feature works when paired with a compatible connected mobile phone that is with you when an airbag is deployed (excludes knee airbags) or a sensor that registers a crash deactivates the fuel pump. Text function and Emergency Assistance not supported by all European languages.

| SYNC

Active Park Assist
helps you find a
space.

And get in.
And get out.

Active Park Assist can steer you into parking spaces just 20% longer or wider than the car. Simply push a button and the sensors of this innovative system locates a suitable space as you drive past. Then it automatically steers you in, while all you do is operate the accelerator, gears and brake (following on-screen instructions and audible signals).

Park-Out Assist helps you get out of a parallel parking space in the same way.

Mondeo Titanium Hybrid Electric Vehicle with 99g/km CO₂

Instant feedback. The more efficiently you drive, the more green leaves appear on the SmartGauge®.

The **Titanium Hybrid Electric Vehicle (HEV) Mondeo** champions fuel efficiency by seamlessly switching between its electric and petrol engine. Powered by a state-of-the-art Hybrid battery (high voltage lithium-ion technology), the traction motor operates in electric mode. When you're accelerating at speed or overtaking, the petrol engine contributes as needed to supply extra power. To maximise your mileage, **Smart Regenerative Charging** captures over 90% of brake energy and uses it to help recharge the battery.

Welcome to
a new generation
of seat belt.

Designed to reduce injuries to rear seat passengers, Ford's award-winning **rear inflatable seat belts** spread crash forces over five times more body area than conventional seat belts. This helps reduce pressure on the passenger's chest, and helps control head and neck motion. In everyday use, the inflatable belts operate like conventional safety belts, are more comfortable to wear due to their soft edges, and are compatible with booster child seats.

Mondeo bodystyles.

4-DOOR SALOON

4-Door saloon bodystyle is only available with Mondeo 2.0 187PS Titanium Hybrid Electric Vehicle (HEV), shown above in White Platinum Special Metallic paint (option) with 16" 10-spoke alloy wheels (standard), Adaptive Lighting with Ford Dynamic LED headlights, Privacy glass and Active Park Assist (all optional).

5-DOOR HATCHBACK

Model shown is a Mondeo Titanium 2.0TDCi 180PS 6-speed manual in Ruby Red Special Metallic paint (option), featuring 19" 5-spoke alloy wheels, Panorama roof, Active Park Assist and Adaptive Lighting with Ford Dynamic LED Headlights (all optional).

5-DOOR ESTATE

Model shown is a Mondeo Titanium 2.0 EcoBoost 240PS 6-speed automatic in Magnetic metallic paint (option) with 19" 5-spoke alloy wheels, Active Park Assist, Adaptive Lighting with Ford Dynamic LED Headlights and Privacy glass (all optional).

Standard Zetec interior features

- Ford DAB Audio Radio/CD with 8-speakers audio system
- Ford SYNC 2 with Bluetooth, voice control, 8" colour touch screen and two USB connectivity ports
- Emergency Assistance
- Electrically-operated front and rear windows with global opening/closing
- Air conditioning with Dual-zone Electronic Automatic Temperature Control (DEATC) and air quality sensor
- Cruise control with Speed Limiter
- 'Quickclear' heated front windscreen
- Leather-trimmed steering wheel
- Leather-trimmed gearshift knob (manual transmission only)
- Illumination of driver and passenger sunvisor mirrors
- Map reading lights front and rear
- Front passenger seat manual lumbar and height adjustment
- Rear seat centre armrest with covered stowage and cup holders
- Rear seat 'Ski hatch'

Zetec

Additional to Zetec

- Ford Navigation System, DAB Radio Audio/CD with full European mapping
- Sports style front seats with Vector cloth trim in ebony
- Premium instrument cluster
- Ford Power Starter Button
- Lane Keeping Aid
- Traffic Sign Recognition
- Automatic headlights
- Automatic rain sensing front windscreen wipers
- Premium front and rear floor mats
- Courtesy lights with theatre-style dimming
- Ambient lighting
- Rear reading lights

Image shows the optional Sony Navigation system with DAB Radio Audio/CD and 12 speakers

360°

More of what you want.

Heated steering wheel

Warms up at the touch of a button to add another layer of comfort between you and the cold outside. (Option on Zetec and Titanium as part of the Winter pack.)

Premium Sound System

Features a 8-channel amplifier and a 12 speaker system that includes a facia-mounted tweeter and concealed sub-woofer for superb sound reproduction.
(Available as part of the optional Sony DAB Radio/Audio Navigation System)

Active Braking

Designed to detect a potential collision and automatically apply the brakes.

Automatic transmission with steering wheel mounted paddle shifts

Race-inspired steering wheel-mounted paddles let you easily change gear without taking your hands off the steering wheel.
(Only available with Automatic transmissions)

Mondeo series

Zetec

Standard exterior features

- 16" alloy wheels
- Body colour front and rear lower bumper and side rocker trim
- Front fog lights with dynamic cornering
- Halogen projector headlights
- Chrome finish on side window surrounds and roof rails (Estate only)
- Power-foldable door mirrors with indicator and puddle light

Bodystyles

5-door Hatchback and Estate

Engines

Petrol: 1.5 EcoBoost 160 PS

Diesel: ECOnetic 1.6 Duratorq TDCi 115 PS, ECOnetic 2.0 Duratorq TDCi 150 PS, 2.0 Duratorq TDCi 150 PS

Titanium and Titanium Hybrid Electric Vehicle (HEV)

Standard exterior features (additional to Zetec)

- 17" alloy wheels (16" alloy wheels with ECOnetic engines and HEV)
- High gloss lower grille with chrome detail
- Automatic headlights
- Auto High/Low Beam for night driving
- Rain sensing front windscreen wipers
- Rear bumper Anti-scratch pad (Estate only)

Bodystyles

5-door Hatchback and Estate, Titanium Hybrid Electric Vehicle is only available as a 4-door saloon

We chose Ruby Red.
What will you choose?

The Mondeo owes its beautiful and durable exterior to a special multi-stage painting process. From the wax-injected steel body sections to the protective top coat, new materials and application processes ensure your Mondeo will retain its good looks for many years to come.

*Frozen White, Metallic and Special Metallic body colours are options at extra cost.

Your Mondeo is covered by the Ford Perforation Warranty for 12 years from the date of first registration. Subject to terms and conditions.
Note The car images used are to illustrate body colours only and may not reflect current specification or product availability in certain markets. Colours and trims reproduced within this brochure may vary from the actual colours, due to the limitations of printing processes used.

Interior trims

The look and feel of interior materials plays a large part in appreciating the overall driving experience. That's why great care has been taken in designing and crafting the trims for the new Mondeo.

The intensity and angling of Adaptive Lighting with Ford Dynamic LED headlights adjust automatically according to speed and driver input.

Adaptive Lighting with Ford Dynamic LED headlights help you see around bends and identify hidden objects. Their bright white light provides an intense and uniform illumination of the road, and the light comes much closer to natural daylight than that created by conventional halogen or xenon headlights.

A compatible mobile phone is required. Please visit www.ford.co.uk for the latest mobile phone compatibility information.

Active technology

1. Active City Stop (Option)

Designed to sense potential low-speed collisions and apply the brakes if you don't react in time.

2. Active Braking (Option)

Uses sensors to monitor the road ahead. When it detects a possible collision at high speed it is designed to send you a warning message on the instrument panel. If you don't react, the system applies the brakes automatically.

3. Adaptive Cruise Control (Option)

Helps maintain a preset gap between your Ford Mondeo and the vehicle ahead. If the vehicle in front slows down, the system decelerates. When the gap widens, your Ford Mondeo returns to the desired speed.

4. Blind Spot Information System (Option)

This high-tech visual aid is designed to make longer journeys a far more relaxing experience. As another vehicle – a car, van or lorry – enters your blind spot, it alerts you with a discreet warning light built into the driver's and passenger's power-foldable mirrors.

5. Driver Alert (Option, standard on Titanium & HEV)

Uses a road-monitoring camera to assess the driver's alertness levels and displays them in the instrument cluster: a steering-wheel icon represents an alert driver; a coffee cup means a break is recommended. If the driver fails to stop, the warning is repeated at regular intervals, together with a warning chime.

6. Lane Keeping Alert and Lane Keeping Aid (Option, standard on Titanium & HEV)

Designed to recognise when you approach lane markings without using the indicator, Lane Keeping Alert warns you with vibrations through the steering wheel. If the system detects that an unintentional lane change is likely to occur, Lane Keeping Aid is designed to apply a steering torque back towards the lane you were in.

7. Rear-view camera (Option)

Select reverse gear and the rear-view camera comes on automatically in the SYNC 2 touchscreen display, allowing you to see objects behind your car. For safer and easier manoeuvring, Special guidance graphics indicate the width and centre line of the car. Only available with optional front and rear parking sensors or Active Park Assist.

Note: A child seat should never be placed in the front Passenger seat when the Ford vehicle is equipped with an operational front Passenger's airbag.

The safest place for children is properly restrained on the rear seat.

Distributes crash forces over a wider area

Inflatable rear seat belt

In the case of a frontal or side crash, the inflatable rear safety belt's tubular bag breaks through the belt fabric as it fills with gas, expanding sideways across the passenger's body. It is designed to hold the passenger in the appropriate seating position more effectively. Crash forces are distributed over an area five times as wide as a conventional seat belt to help to reduce the risk of injury.

E = Exceeds security requirement for model concerned and group rating has been reduced. Insurance ratings are issued by the Association of British Insurers and are shown above on the 1-50 rating scale.

Control vehicle use using a configurable key

MyKey®

MyKey technology enables owners to program a key that restricts the top speed, reduces the maximum volume of audio system and even disables the audio system altogether if driver and passengers are not using safety belts. It can prevent the driver from deactivating safety technologies and enables the owner to prevent seatbelt reminders from being disabled.

Fuel, performance and emissions

The fuel economy figures quoted in the table below are achieved by following strict EU governed test procedures and are specifically designed to enable customers to compare vehicles from all manufacturers on a like-for-like basis. Fuel consumption is directly affected by the length of the journey; number of passengers and amount of luggage carried; individual driving style; road and traffic conditions; weather conditions; vehicle age, mileage, condition and standard of maintenance; use of vehicle features such as air conditioning; and any modifications to the vehicle such as the addition of a roof rack. Your fuel economy will vary based on these and other factors and, for these reasons, many drivers may not achieve the EU fuel economy figures (below) in day-to-day driving, although the vehicle is technically capable of doing so.

^{*}In 4th gear ^{**}Ford test figures ^{**}The declared fuel consumptions and CO₂ emissions are measured according to the technical requirements and specifications of European Directive 80/1268/EEC or the European Regulation (EC) 715/2007 amended by (EC) 692/2008 as last amended. Fuel consumption and CO₂ emissions are specified for a vehicle type and not for a single car. The applied standard test procedure enables comparisons between different vehicle types and different manufacturers.

In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors are very important in determining a car's fuel consumption and CO₂ emissions. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded from <http://carfueldata.dft.gov.uk/>

M6 = 6-speed manual, A6 = 6-speed automatic, MPS6 = PowerShift automatic

Fuel, performance and emissions (19" wheels)

The fuel economy figures quoted in the table below are achieved by following strict EU governed test procedures and are specifically designed to enable customers to compare vehicles from all manufacturers on a like-for-like basis. Fuel consumption is directly affected by the length of the journey; number of passengers and amount of luggage carried; individual driving style; road and traffic conditions; weather conditions; vehicle age, mileage, condition and standard of maintenance; use of vehicle features such as air conditioning; and any modifications to the vehicle such as the addition of a roof rack. Your fuel economy will vary based on these and other factors and, for these reasons, many drivers may not achieve the EU fuel economy figures (below) in day-to-day driving, although the vehicle is technically capable of doing so.

*Represents the lightest kerbweight assuming driver at 75 kg, full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc., fitted.

Towing limits quoted represent the maximum towing ability of the vehicle at its Gross Vehicle Mass to restart on a 12 per cent gradient at sea level.

The performance and economy of all models will be reduced when used for towing.

Nose weight limit is a maximum of 75 kg on all models. **Gross Train Mass** includes trailer weight.

Choose

Use the form opposite to specify your new car right down to the wheels, audio, options and accessories, then take it to your Ford Dealer.

You can also specify your new car online using the Ford Configurator. It lets you instantly see what your car will look like – inside and out – from multiple angles. And a tally of your choices and their prices helps you keep to your budget. Visit www.ford.co.uk/ConfigureyourCar

Finance

When it comes to financing your car, our size and expertise means we're well placed to provide you with a wide range of finance products.

Ford Credit* provides a range of finance products for your car whether you are a private or business user.

Ford Lease^ specialises in contract hire and leasing and provides an alternative range of finance plans which can be tailored to suit your business. Business users only.

For more information about our finance products visit ford.co.uk

Drive

When you drive away in your new car, we're with you all the way. Ford has the largest authorised service network in the UK to help you keep your car in the best condition.

And should your new Ford ever require accident repair, a Ford Accident Repair Centre is the best place to get your car back to its pre-accident condition and on the road as quickly as possible.

Contact

Ford Credit Customer Services 0845 712 5490
Ford Lease Customer Services 0844 600 1405

To configure your Ford online visit

To look at finance for your Ford visit www.fordcredit.co.uk/BuyingAndProtectingYourFord
Business users visit www.ford.co.uk/FordFleet

Accessories

Thule® roof box*

Different sized boxes protect your luggage from weather and theft. Shown is Thule® roof box Dynamic 800 in conjunction with crossbars for roof rails. (Accessory)

For a range of Ford branded items – from clothing to lifestyle products and model cars – visit www.fordlifestylecollection.com

All-weather floor mats

Designed to perfectly fit the interior and help protect the floor covering from dirt and moisture. (Accessory)
Velour mats are also available as accessories.

Electrically-operated tow bar, retractable

Electrically-released tow bar appears only when needed and can be easily retracted behind the rear bumper when not required. (Accessory – not available with full bodystyling kit or 19" alloy wheels.)

Load retention net, second row

Helps keep your items secure in the luggage compartment while you're on the move. For fitment behind the rear seats. Stores away easily when not in use. (Accessory)

* Finance subject to status. Guarantee/indemnities may be required. Freepost Ford Credit.

Ford Credit is a trading style of FCE Bank plc. which is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority under firm reference number 204469.

^ Ford Lease is provided by ALD Automotive Ltd, trading as Ford Lease, Oakwood Park, Lodge Causeway, Fishponds, Bristol, BS16 3JA. ALD Automotive is registered in England No. 987418. For the purposes of the Data Protection Act 1998 the data controllers in relation to any information you supply are Ford Motor Company Limited, FCE Bank plc and ALD Automotive. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. **†**The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.

Ford and BP – working together to
reduce fuel consumption and
emissions.

When you have finished with
this brochure please recycle it.
