

1 9 9 5 F O R D W I N D S T A R

THE ALL-NEW FRONT-WHEEL-DRIVE WINDSTAR WILL FOREVER CHANGE THE WAY YOU THINK ABOUT MINIVANS.

The 1995 Ford Windstar is like no minivan you've ever seen before. It has a unique design that's longer and wider for better maneuverability. It has more interior space and a car-like ride that's the smoothest in its class. Windstar has more standard safety features than any other minivan. It has standard dual air bags, standard 4-wheel anti-lock brakes and standard 5-mph bumpers.

Windstar is available in two distinctive models: the well-equipped, value-oriented GL and the upscale LX. Both include an extensive list of standard features to meet the varying transportation needs of today's families. See your dealer for a complete list of standard features, available options, accessories, Preferred Equipment Packages and detailed specifications.

COMFORTABLE, QUIET INTERIOR

Windstar's well-designed interior caters to the needs of its occupants. The flow-through instrument panel puts controls within easy reach. There are even radio controls provided for second-seat passengers.

You'll also find Windstar is quieter than all leading minivans—when traveling at steady speeds. Its quiet interior allows third-seat passengers to converse with front-seat occupants at normal voice levels. Such a quiet environment is simply more comfortable for all.

SPACIOUS VERSATILITY

Windstar has more space inside than all leading minivans—room for seven with lots of extra space for cargo. Its versatility allows a number of seating combinations depending on your people/cargo requirements. The third-row seat has an adjustable track for easy movement. When moved forward, the rearmost seat provides 23.8 cubic feet of cargo space behind it. Windstar's low step-in height lets people get in and out easily. And its low cargo floor liftover makes loading and unloading cargo easier, too.

SMOOTH, CONFIDENT POWER

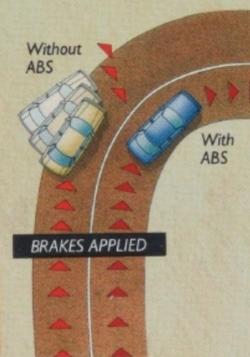

Windstar's standard 3.8-liter V-6 engine delivers 155 horsepower. This impressive powerplant is matched with an advanced electronic four-speed automatic overdrive transaxle. The combination delivers smooth, confident power for any driving situation.

DUAL AIR BAGS

Windstar's standard driver- and front passenger-side air bags offer added protection when used in combination with safety belts. Always wear your safety belt.

FOUR-WHEEL ANTI-LOCK BRAKES

Power front disc/rear drum brakes, equipped with a four-wheel Anti-lock Braking System (ABS), are standard on Windstar. Anti-lock brakes can help you make more controlled stops under most operating conditions.

STANDARD FEATURES

Here are a few of Windstar's many standard features:

- Electronic 4-speed automatic overdrive transaxle
- 7-passenger seating
- Front-wheel drive
- Power rack-and-pinion steering

COMPREHENSIVE WARRANTY AND MORE

Every 1995 Ford Windstar is covered by a comprehensive, 36-month/36,000-mile bumper-to-bumper warranty. Also during the warranty period, every 1995 Windstar is covered by a complimentary 24-hour roadside assistance program. Roadside assistance covers such items as changing a flat tire, jump-starting your vehicle, towing, getting you into a locked vehicle, bringing you gas should you run out, and more. Complete details and a copy of the limited warranty are available at your dealer.

OPTIONS AND SPECIFICATIONS

If you're interested in customizing Windstar to your personal taste and exact driving needs, there is a lengthy list of options and accessories from which to choose. Here are just some of Windstar's available options:
