WINDSTAR

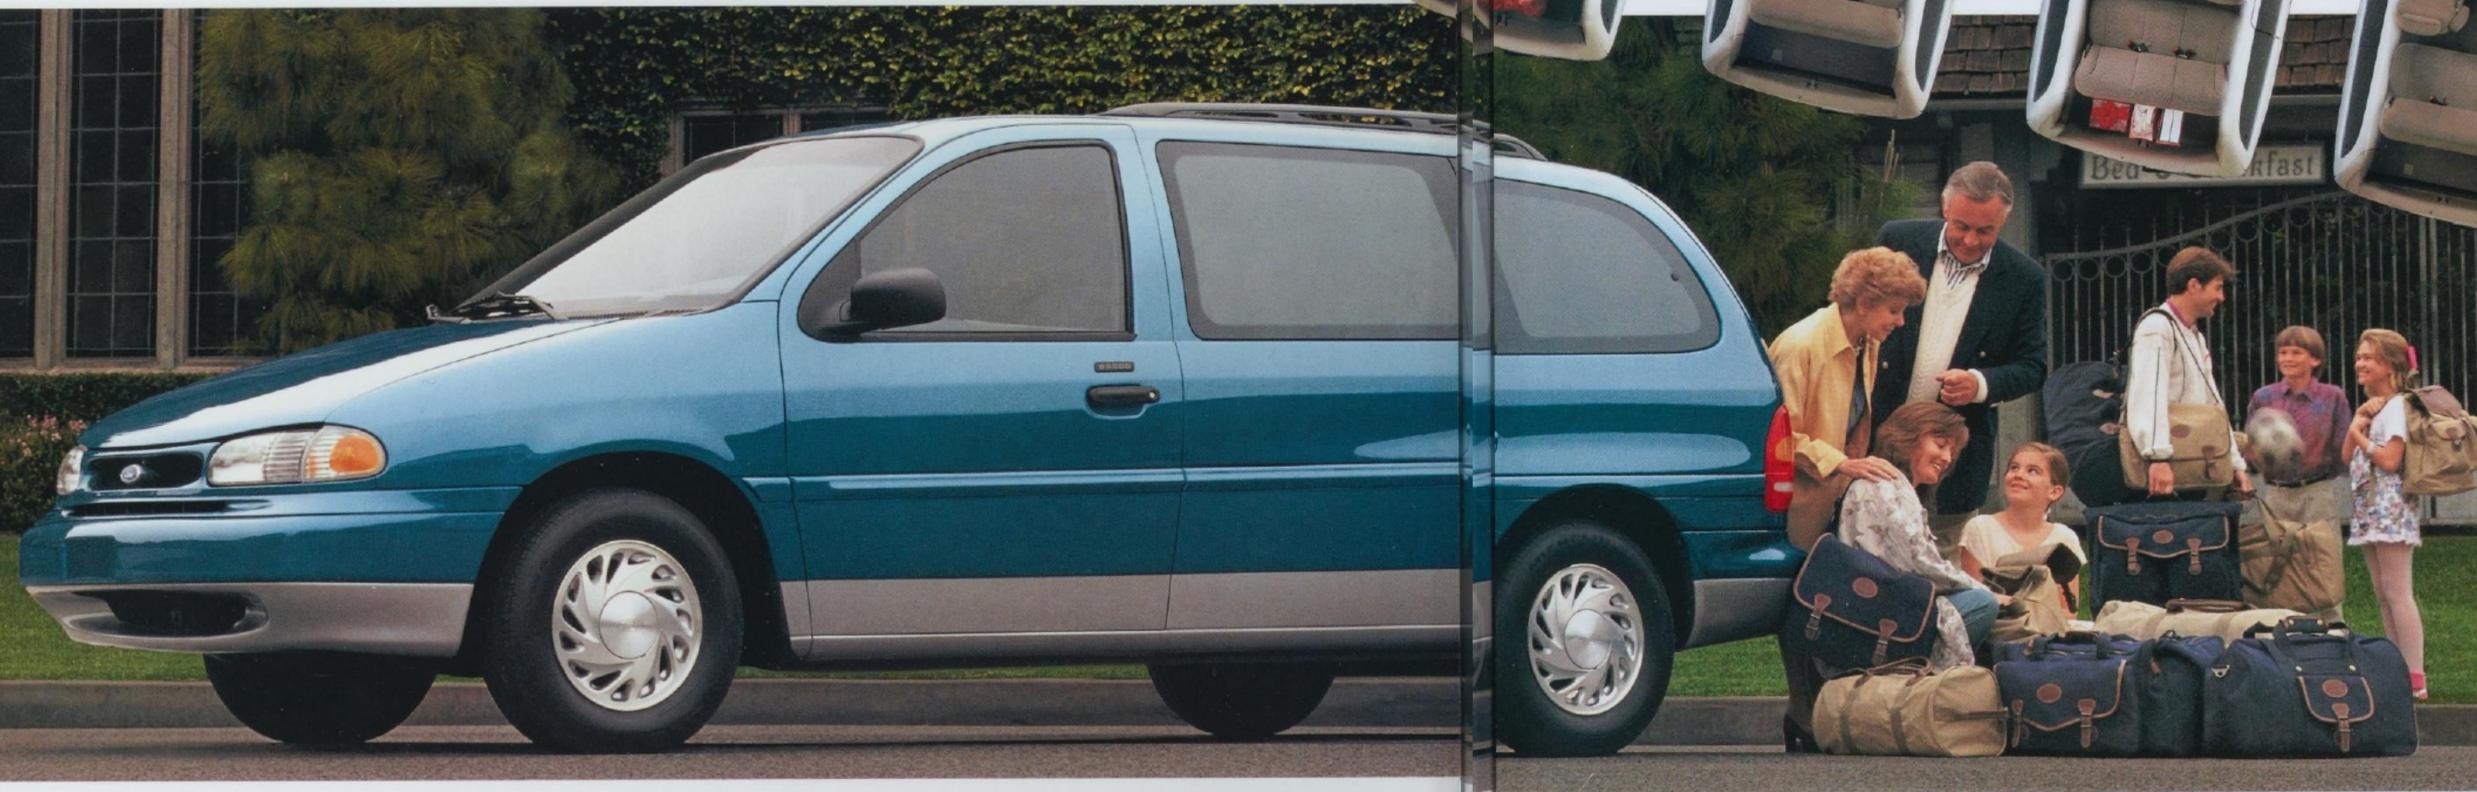

Built for the most important people in the world

Windstar's spacious 7-passenger seating arrangement provides excellent accommodations for just the two of you or the entire starting lineup of the junior hockey team. And because manipulating the seats is so simple, there's scarcely a cargo-carrying job that Windstar can't handle with ease. It's the *perfect* vehicle for families on the go.

Windstar versatility allows a variety of seating combinations. Magnesium stanchions help make the rear seats lighter and easier to handle than conventional seats. Designed with a "quick release" feature, they're easily removed to take full advantage of the spacious 144-cubic-foot cargo area. ▼

◀ *Windstar LX shown in Teal Clearcoat Metallic over Silver Frost Clearcoat Metallic. Windstar combines the space and flexibility of a minivan with a smooth, car-like ride.*

Windstar capability and capacity

Don't be fooled by the sleek silhouette or by the car-like ride. The versatility and capacity are here. Windstar has ample room for seven with lots of extra space for cargo. The 2nd- and 3rd-row benches can be easily removed for a 144-cu.-ft. cargo area. But even without removing the seats, the backs can be folded forward for a flat load floor. With Windstar, you have great flexibility for carrying passengers, cargo, or a combination of the two.

The versatile rear seat/bed is optional with GL Preferred Equipment Package 472A. The 2nd- and 3rd-row benches fold down to form a convenient, temporary bed. ▼

▲ The rear liftgate opens wide and its two latches are on the sides so they don't interfere with the loading of cargo. The maximum usable space behind the 3rd-row bench seat can be attained by using the sliding seat track (standard with LX, optional with GL).

► Windstar LX features a cargo net (available with GL) that helps keep loose items from shifting around.

▲ Windstar LX shown in Laser Red Tinted Clearcoat over Champagne Clearcoat Metallic.

Windstar comfort, convenience and interior quiet

The luxuriously appointed LX interior, shown here with optional quad captain's chairs and leather seating surfaces in Mocha. ▼

Windstar's long, wide design provides its seven passengers with spacious comfort. And Windstar is remarkably quiet when traveling at steady speeds, the result of specific noise-deadening measures coupled with wind noise reducers such as limousine-type doors and flush glass.

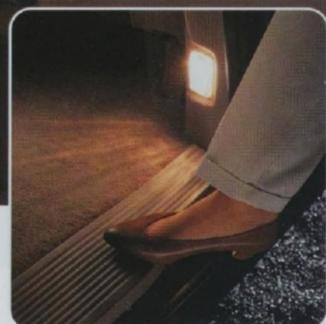

Windstar's graceful flow-through instrument panel puts all controls within easy reach. ▼

Enjoy the remarkable sound reproduction of digital technology with the optional compact disc player. ▶

A convenient sliding door step ▶ lamp lights your way in and out of the vehicle at night.

Standard with LX are a 6-way power driver's seat and driver and front passenger power lumbar supports. ◀

All Windstar models include a handy storage drawer under the front passenger seat. ▶

With Windstar GL, value comes standard

The Windstar GL model is generously equipped to offer solid, quiet comfort and a range of safety and convenience features. And, by choosing Preferred Equipment Packages, you can add desirable items to your GL and take advantage of attractive package discounts at the same time.

▲ *Optional GL quad captain's chairs in Mocha (coming later in the model year). Other equipment shown may be optional.*

▲ *Windstar GL shown in Royal Blue Clearcoat Metallic with Preferred Equipment Package 472A and the optional luggage rack.*

Windstar ride, handling and safety

Windstar's specially tuned suspension and stretched wheelbase produce a remarkably car-like, smooth ride, one that must be experienced to be appreciated.

A wide stance makes for secure maneuvering. The responsive handling imparts confidence, especially when negotiating curves. The power front disc/rear drum brakes include a 4-wheel anti-lock system for straighter stops. And Windstar meets 1998 federal passenger car safety standards.* A reassuring driving experience.

*Excluding models with privacy glass, which meet federal safety standards for trucks. **U.S. Government MY '95 data only useful in comparing vehicles within 500 pounds.

Side door intrusion ▶
beams are part of a structure that helps Windstar meet the 1997 dynamic side impact standard.

Two optional integrated child safety seats are offered for all Windstars equipped with 2-passenger 2nd-row bench seats. ▶

▼ **Standard dual air bags supplement the safety belts for both the front passenger and driver. And the 1995 Windstar held the highest government front crash-test rating.****

Windstar now offers optional all-speed electronic traction control which includes 4-wheel disc brakes. Windstar LX in Medium Willow Green Clearcoat Metallic over Champagne Clearcoat Metallic is shown.

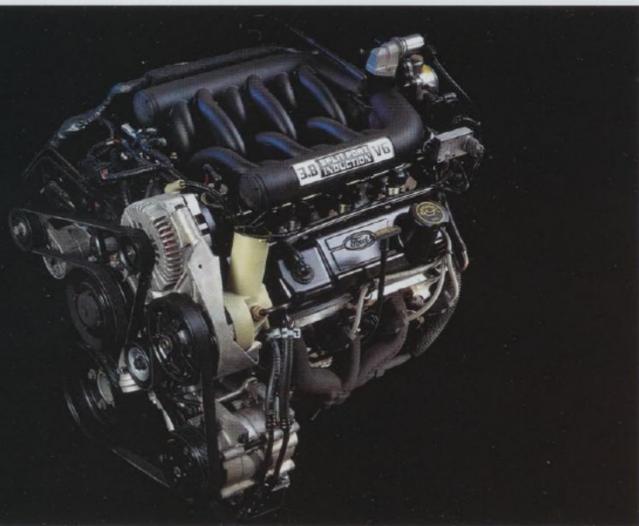

Windstar's standard anti-lock braking system ▶ prevents the wheels from locking up during braking by applying and releasing the brakes up to 10 times per second.

Specifications, features, options and packages

The 3.0L V-6, standard in GL, has confident passing power. The 200 hp 3.8L SPI V-6 gives Windstar more power than any other minivan, thanks to new split-port induction that boosts output significantly. This engine is standard with LX and included in GL packages 471A and 472A. Both powerplants allow a full 100,000 miles of driving between scheduled tune-ups.*

And when Windstar is equipped with the optional trailer towing package, it can haul up to 3,500 pounds.

▲ Windstar benefits from the latest generation of Ford's electronic engine control module, EEC-V. Tested on sophisticated Formula 1 and Indy racing cars, EEC-V enhances Windstar's performance, driveability, fuel economy** and emissions control. It incorporates more than a dozen integrated circuits and uses 80,000 transistors. And with 66% more memory than the system it replaces, EEC-V can perform up to 20% faster for enhanced systems control.

◀ Left: Bright cast aluminum wheel, standard with Windstar LX, optional with GL package 472A. Right: Full sport wheel cover, standard with Windstar GL.

SPECIFICATIONS

Drivetrain:	Front-wheel drive
Engine type:	3.0-liter V-6; 3.8-liter SPI V-6 std. with LX, available with GL
Induction system:	Sequential electronic fuel injection with EEC-V (3.0 liter); Split-port induction with EEC-V (3.8 liter)
Compression ratio:	9.0:1
Horsepower, SAE net:	3.0L: 150 @ 5,000 rpm; 3.8L SPI: 200 @ 5,000 rpm
Torque, SAE net:	3.0L: 170 lbs.-ft. @ 3,250 rpm; 3.8L SPI: 230 lbs.-ft. @ 3,000 rpm
Tune-up interval:	100,000 miles
Battery:	58 AH maintenance-free; 72 AH with LX†
Alternator:	130 amps
Frame:	Fully integrated welded steel
Transaxle:	Electronic 4-speed automatic overdrive
Front suspension:	MacPherson struts with stabilizer bar
Rear suspension:	Twist-beam rear axle with variable-rate coil springs and gas-pressurized shock absorbers
Steering:	Rack-and-pinion, power assisted
Brakes:	Power front discs/rear drums with 4-wheel anti-lock system††
Fuel tank:	20 gallons (25 gallons standard with LX; optional with GL)
Wheels (type/size):	Steel 15" x 5.5" (GL); cast aluminum 15" x 6" (LX, optional with GL Preferred Equipment Package 472A)
Tires:	P205/70R15SL BSW all-season (GL); P215/70R15SL BSW all-season (LX, optional with aluminum wheels with GL RE.P. 472A)

DIMENSIONS

Wheelbase	120.7"

The ownership experience

ROADSIDE ASSISTANCE PROGRAM

Every new Ford includes the assurance of a no-cost, 24-hour emergency Roadside Assistance Program provided during the 3-year/36,000-mile bumper-to-bumper warranty. Ask your dealer for details on this program which includes such services as fuel delivery, tire change, jump start, or even help when you're locked out of your car.

Ford Credit offers a wide variety of financing and leasing programs to qualified buyers which can be arranged right at the dealership. Ask your dealer for the facts on these programs.

Optional Ford Extended Service Plans go beyond the basic 3-year/36,000-mile warranty. Ask your dealer for complete details on the optional plans and for a copy of the limited warranty.

DEALER-INSTALLED ACCESSORIES

Your Ford Dealer offers a variety of quality Ford-brand accessories that meet or exceed our strict specifications.
