Built With Business In Mind.

Chevy Commercial Vans take on the tough jobs.

Every day around town, there are real people doing real work in the real world. And, like you, they need **commercial vans that stand up to hard work.** Chevy Commercial Vans are from the family of Chevy Trucks — the most dependable, longest-lasting trucks on the road* — and come equipped with **proven engines, rugged chassis components, powerful towing capabilities†** and comprehensive safety and security features. With many commercial van models to choose from, there's a vehicle to meet almost any application. Chevy Commercial Vans. Built with a real-world workday in mind.

*Dependability based on longevity: 1981–1999 full-line light-duty truck company registrations. Excludes other GM divisions. †When properly equipped.

American Hotel & Motel Association

From large national hotel chains to local inns, the American Hotel & Motel Association (AH&MA) plays a large part in furthering the interests of those involved in the lodging industry.

Chevy Truck is proud of its association with the hardworking people of the AH&MA.

Call **202-289-3100** for more information on the AH&MA or visit their web site at **ahma.com**.

One-Stop Shopping.

Chevy Commercial Vans help outfit your fleet.

Part of what makes your Chevy dealership a great choice for outfitting your commercial needs is that it offers **one stop for all your fleet shopping.**

Chevrolet Commercial Specialty Vehicle Department. The Chevrolet Commercial Specialty Vehicle (CSV) Department can aid your bottom line by **helping you choose the right van for the job.** Specially trained CSV personnel offer dealers commercially oriented **product knowledge** to help spec out different types of vehicle bodies. See your Chevrolet dealer for complete details, or call the CSV Express Line at **1-800-759-5550.**

More Trucks, Less Bucks. The 2001 Commercial Customer's Choice Program can upfit selected work vans with a variety of **specialty packages** (such as steel storage bin packages, running boards, luggage barriers or cash reimbursement for your specific upfit needs) at no additional cost on some packages — or at an **attractive price** on others. See your Chevy Truck dealer for details.

Goodwrench Fleet Service Card. With the Goodwrench Fleet Service Card, your fuel, service and parts purchases can be consolidated into one **easy-to-read monthly Vehicle Analysis Report.** Also, a cost-per-mile analysis for each vehicle is provided. All of which can help you save on administrative time, manage your drivers more effectively and assess your fleet's performance.

Chevrolet CSV Web Site
The Chevrolet CSV web site at **chevrolet.com/csv** is a great source of commercial information. In addition to viewing various vehicles, you can find a wealth of knowledge on various product features. There's also the current quarterly newsletter, the latest commercial vehicle-related offers and promotions and links to GM resources, such as GM Goodwrench and The GM Card. A Glove Box Manual where you can look up service notes corresponding to your vehicle's mileage is available, as are areas where you can ask commercial questions or join a discussion forum.

¹ Gross Vehicle Weight Rating includes vehicle, passengers, equipment and cargo. Higher GVWRs (where available) require optional equipment. ² Payload includes passengers, equipment and cargo. Higher payloads (where available) require optional equipment. Base payload ratings are based on engineering test weights at time of printing and reflect base engines. ³ See your Chevrolet dealer for details on axle ratio availability. ⁴ With rear seats removed. ⁵ Not available with G2500 Extended Wheelbase model.

Chevy Astro Cargo Van shown with DeWALT Tools available through the Commercial Customer's Choice Program.

Commercial Customer's Choice Program*

As a valued commercial customer, Chevy Trucks offers you the choice of one of the following bonus packages on eligible GM commercial vehicles exclusively through our Commercial Customer's Choice Program.

(Option A) Adrian Upfit Packages†

A choice of eligible Adrian Steel** toolboxes, ladder rack combinations or van upfit packages. Qualified customers may purchase or lease an eligible vehicle and Chevy will help pay for the eligible upfit package.

OR (Option B) Cash Reimbursement

Should you need additional equipment for your van, you may be eligible to receive cash reimbursement from Chevrolet for between \$300 and \$900 on an eligible upfit, depending on the vehicle and upfit selected.

OR (Option C) DeWALT Tools

This option entitles Chevy Commercial Van customers to receive \$1,000 in DeWALT tools and accessories when they purchase or lease an eligible commercial van.††

This is a great opportunity to enhance an already satisfying ownership experience. See your dealer for complete details and a brochure showing all the available upfit packages and tools, or visit the Chevy Commercial Customer's Choice web site at chevrolet.com/csv

*Packages are available only to qualified commercial customers requiring the use of work-type trucks in their daily business operations. You must take delivery during program period. Vehicle must be registered in business name. Ask your dealer for details. †These installations to the vehicle are not covered by the General Motors New Vehicle Limited Warranty. The upfitter is solely responsible for the warranties on the equipment and any installations (or the effect of any installations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any installations. **Adrian Steel offers a limited warranty on all their products against defective workmanship and materials for 36 months or 36,000 miles. See your Adrian Steel distributor for details. ††Allow approximately two weeks to receive order form.

Tools Of The Trade.

Chevy Commercial Vans and DeWALT Tools make for a winning combination.

When Joseph Kundert of Delphos Restaurant Equipment in Delphos, Ohio, purchased his Astro Cargo Van, he knew he was getting a strong work van. After all, they're the only vans he's had for Delphos during the last decade, and he says that over a lot of years and miles, they've served the business well.

But Kundert knew it was an even better buy when he found out he could get \$1,000 worth of DeWALT Tools® through the Commercial Customer's Choice Program.* He already owned some DeWALT Tools and liked their power. So it didn't take long for him to pick out a circular saw, jig saw, reciprocating saw and drill.

"The program made it real easy to get the tools," Kundert explained. "They sent a catalog, I picked them out and faxed in the order. Now we use the tools every day to install cabinets and repair restaurant equipment. The program worked out great for us."

"We already loved driving our Chevy vans. Getting the DeWALT Tools just makes them better."

Adrian Upfit Packages

For added convenience, several **Adrian Upfit Packages** are available for Chevy Express and Astro Commercial Vans.* The package shown at left is available on Chevy Express Cargo Van at no additional cost and offers a **versatile work area** with bins, drawers and shelves. In addition, there are specialized packages for Chevy Express that can really help plumbers, electrical and gas appliance repairmen, and locksmiths, among others. **Bin packages are also available for Chevy Astro Cargo Vans** (found on page 14). See your Chevy Truck dealer for complete details and literature on eligible packages.

*Excludes Chevy Express Commercial Cutaway Vans.

Left: Chevy Express Cargo Van bin package.

Keeping The Heat On.

American Mechanical depends on Chevy Express Cargo Van.

In the heating and cooling business, nothing's as important as having your trucks on the road. According to Mike Dare from American Mechanical in Royal Oak, Mich., Chevy Express has the dependability his company needs.

"Some of our guys drive 35,000 miles a year. If we had vans breaking down, we'd be done. With our current fleet, we've had very little downtime.*"

Dare also said the guys who work with the vans every day rave about Chevy Express' **cargo area** — the largest in its class† — and the 56.9" rear opening — the **widest in the industry**.

"We have 32 guys who need to bend in and out of the vans. All that cargo area makes it easy. The **wide-opening back doors** give us better accessibility, too."

Dare said the drivers are impressed with the four available **Vortec** engines, as well as the standard **four-wheel ABS**.

"The guys really like them," he said. "So we'll definitely keep buying Chevy Trucks."

*Each customer's experience will vary. †Based on comparably equipped vehicles. **NOTE:** Unless otherwise noted, all claims in this brochure are based on 2000 competitive information and, when vehicle class is indicated, the Large Panel Van segment. All claims exclude other GM vehicles.

National Association of Home Builders

The National Association of Home Builders (NAHB) has an important affinity relationship with Chevy Trucks. NAHB strives to enhance the climate for the housing and building industry.

For more information on the NAHB, visit their web site at nahb.org.

Mike Dare,
American
Mechanical

Chevy Express Cargo Van interior shown in Medium Gray Custom Vinyl.

Chevy Express Cargo Van Features:

- Five available engines, including the all-new Big Block Vortec 8100, three other Vortec engines and a 6.5L Turbo-Diesel V8.
- Four-speed overdrive automatic transmission.
- Four-speed heavy-duty overdrive automatic transmission standard on G3500 and G3500 Extended Wheelbase models.
- 600-amp battery.
- Standard four-wheel ABS.
- 56.9" rear-door opening, the widest among full-size vans.
- 31-gallon fuel tank capacity (approx.).
- Driver and front-passenger air bags.*
- At 316.8 cu. ft. of cargo space on Extended Wheelbase models and over 267 cu. ft. on Regular Wheelbase models, Chevy Express has the largest cargo capacities in its class.
- Standard 60/40 swing-out side doors. A sliding side door is also available as standard equipment.
- Driver and front-passenger seat in Custom Vinyl.

***A Note On Child Safety:** Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

G3500 Chevy Express Cargo Van shown in Summit White with bins from an independent supplier. See the inside back cover for information about alterations and warranties.

Chevy Express Passenger Van Features:

- Seating for between eight and 15 passengers.
- Five available engines, including the all-new Big Block Vortec 8100, three other Vortec engines and a 6.5L Turbo-Diesel V8.
- Four-speed overdrive automatic transmission.
- Four-speed heavy-duty overdrive automatic transmission standard on G2500 and G3500 Regular Wheelbase models and G2500 and G3500 Extended Wheelbase models.
- 600-amp battery.
- Standard four-wheel ABS.
- 31-gallon fuel tank capacity (approx.).
- Power steering.
- 56.9" rear-door opening, the widest among full-size vans.
- Driver and front-passenger air bags.*
- Standard 60/40 swing-out side doors. A sliding side door is also available as standard equipment.
- Passenger assist handle.

*Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. See the Owner's Manual for more safety information.

GM Mobility Program

Chevrolet recognizes the importance of mobility to everyone's life and, therefore, incorporates the needs of the disabled into vehicle design and engineering. In addition, financial assistance to upfit vehicles with mobility equipment is offered through the General Motors Mobility Program. For details and free resource information, call **1-800-323-9935** (TTY users: **1-800-833-9935**) or visit their web site at

gm.com/ownership/service/mobility.htm.

Mobility aids are supplied and installed by independent upfitters. See the inside back cover for information about alterations and warranties.

Marrriott

G3500 Chevy Express Passenger Van LS Extended Wheelbase shown in Summit White.

Moving Forward.

Chevy Express Passenger Van helps Valley Limousine get people moving.

Rinny Dyar of Valley Limousine in Scottsdale, Ariz., knows when you're running a shuttle service, it pays to be **flexible**. That's why he relies on Chevy Express Extended

Rinny Dyar, Valley Limousine

Wheelbase Passenger Vans with standard seating for 12 or optional **seating for up to 15**.

"The best thing about Express Passenger Vans is their **versatility**," Dyar said. "When we take people golfing, we remove the rear seat for clubs. At night, we put the seat back in so there's room for more people."

The **reliability** of Chevy Express Passenger Van is another reason Valley

Limousine chooses Chevy Truck models.

"We've had Chevy Trucks for 15 years," Dyar said. "We put 40,000 miles a year on some."

The Chevy Express Passenger Van, with standard **four-wheel ABS**, **driver and front-passenger air bags*** and **side-door beams**, gets the endorsement of the toughest critics — the people who drive them daily.

"The guys say they have a real **smooth ride** and are easy to get people in and out of," Dyar offered. "Their quality has made owning these vans an enjoyable experience."

*See facing page for more information.

Top: Running boards are available at no additional charge through the Commercial Customer's Choice Program. See page 7 for more information.
Bottom: Standard 12-passenger seating on G2500 models allows for room behind the rear seat for luggage or other items.

Chevy Express Commercial Vans.

They're Chevy Trucks from top to bottom.

Chevy Express Commercial Vans are built for years of hard work, so their features and components are designed to be **long-lasting and dependable**. Add a comprehensive list of safety and security features, and you have tough Chevy Trucks that deliver peace of mind season after season.

Daytime Running Lamps. During daytime driving situations, reduced-intensity, low-beam headlamps come on automatically to make Chevy Express more visible to other drivers.

Precision-Aligned Door Hinges. Designed to remain firmly in position through time and rough driving conditions, door hinges are robotically welded to the door frames for a precise fit.

Lasting Good Looks. A five-step basecoat/clearcoat paint process resists fading and provides a high-gloss shine for long-lasting beauty.

PASSlock® Theft-Deterrent System. Standard on Chevy Express. This feature automatically disables the vehicle's fuel system if the proper key is not used in the ignition.

Longest Load Floors. At 127.3 inches for Regular Wheelbase models and 147.3 inches for Extended Wheelbase models, Chevy Express has the longest load floors in its class.

Standard 60/40 Swing-Out Doors Or Available Sliding Side Door. To make passenger and cargo loading more convenient, swing-out side doors are standard. A sliding side door is also available at no additional cost.

Corrosion-Resistant Exterior Panels. Two-sided galvanized-steel exterior body panels (except the roof) and an eight-stage phosphate bath help eliminate cosmetic corrosion on the outside surface (resulting from scratches and chips), as well as rust-through corrosion originating on the inside surfaces.

Largest Cargo Capacities. At 316.8 cu. ft. of cargo space on Extended Wheelbase models and over 267 cu. ft. on Regular Wheelbase models, Chevy Express has the largest cargo capacities in its class.

Protective Composite Halo. A composite cap panel above the rear doors helps protect paint from damage when loading and unloading roof carrier equipment and tools.

Crush Zones. Front and rear structures are designed to help absorb energy by deforming in a controlled manner during a collision.

Independent Front Suspension. A rugged and reliable independent front suspension contributes to the precise control and comfortable ride of every Chevy Express.

Standard Four-Wheel Antilock Brake System. This system helps the driver maintain steering control by reducing wheel lockup while braking hard on most slippery surfaces.

Plenty Of Power. Chevy Express Passenger and Cargo Vans offer four different Vortec engines, including the powerful new Big Block Vortec 8100 V8 and a 6.5 Liter Turbo-Diesel V8, to meet all of your driving, cargo-carrying and towing demands. (Availability depends on series and model selected.)

100,000-Mile Maintenance. Vortec engines can travel up to 100,000 miles before their first scheduled spark plug replacement, thanks to platinum-tip spark plugs. And they can go up to 150,000 miles or five years, whichever comes first, before their first scheduled coolant change. Maintenance needs vary with different uses and driving conditions. See the Owner's Manual for more information.

Low Step-In Height. Chevy Express Commercial Vans offer a low step-in height, which provides easy access for passengers.

Side-Door Beams. Reinforced with structural steel beams, double-wall steel front and side doors are designed to help avoid intrusions into the passenger compartment in shallow-angle side impacts.

Stainless-Steel Exhaust System. The muffler and all pipes from the converter back are made of corrosion-resistant aluminized stainless steel to provide long-lasting durability.

Large-Capacity Fuel Tank. Chevy Express Cargo and Passenger Vans have 31-gallon (approx.) fuel tanks, so you can travel plenty of miles between fill-ups.

Second-Stage Multileaf Rear Springs. Specially designed two-stage multileaf rear springs engage as the load weight increases, providing additional support without reducing ride quality.

Widest Rear Door Opening. At 56.9 inches, Chevy Express has the widest rear door opening of any full-size van. Full-vehicle-width rear doors open an unimpeded 165 degrees.

Chevy Astro Cargo Van Features:

- Vortec 4300 V6 SFI engine.
- Four-speed overdrive automatic transmission.
- Four-wheel ABS.
- 27-gallon fuel tank capacity (approx.).
- Power steering.
- 170.4 cu. ft. of cargo space.
- Up to 5,900 lbs. of towing capacity,* when properly equipped — which means Astro Cargo Van out-tows all front-wheel-drive minivans, some by a ton or more.
- Available All-Wheel-Drive.
- Driver and front-passenger air bags.†
- Sliding side door, without a window. Also available with a fixed window.
- Tow/Haul mode.

*Maximum trailer ratings are calculated assuming a standard equipped base vehicle plus driver. The weight of optional equipment, passengers, cargo and required trailering equipment will reduce the maximum trailer weight. See your Chevy Truck dealer for details. †**A Note On Child Safety:** Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information. **NOTE:** Unless otherwise noted, all claims in this brochure are based on 2000 competitive information and, when vehicle class is indicated, the GM Medium Van segment. All claims exclude other GM vehicles.

Chevy Astro Cargo Van shown in Ivory White.

One of several Adrian Upfit Packages available for Chevy Astro through the Commercial Customer's Choice Program. See page 7 for more information.

Chevy Astro Cargo Van standard interior shown in Pewter Custom Vinyl.

Lee Ross, Mail Boxes Etc. franchisee.

Come Rain Or Shine.

Chevy Astro delivers with full-size ability.

When you're in the business of shipping just about anything anywhere, you need a van with **cargo room and power** you can rely on. Lee Ross, owner of Mail Boxes Etc. franchises in Indianapolis and Avon, Ind., says Astro Cargo Van, with **170.4 cu. ft. of cargo space** and a **190-hp Vortec 4300 V6 engine**, delivers all that and more.

"Our Astro has so much more cargo room than the Caravan we had," Ross said. "My customers are just amazed at how much Astro can hold. The **rear doors** open wide, so it's easy to load and unload things. And the **Vortec V6** has a lot of power on the highway when I'm driving between the two stores."

Chevy Astro Cargo Van is solidly built, with a **four-speed overdrive automatic transmission**, independent front suspension and **up to 5,900 lbs.* of towing capacity**, when properly equipped. **Four-wheel ABS**, driver and front-passenger air bags* and **available All-Wheel-Drive** models head up a list of features designed to help keep you safe.

"Our Astro is really **comfortable** and easy to maneuver, and it's been so **dependable**," Ross said. "That's important because I tell people we'll pick up and deliver anytime. Astro has been a great asset to the business."

*See facing page for more information.

Chevy Astro Cargo Van.

Built with Chevy Truck toughness.

With the heritage of Chevy Truck **toughness and dependability** behind it, Astro Cargo Van is designed to be a **durable performer**. It also includes numerous features designed with your **safety** in mind. Take a look at some of the features that will give you confidence when Astro is part of your crew.

Daytime Running Lamps With Automatic Exterior Lamp Control. During daytime driving situations, headlamps engage at reduced intensity to make Chevy Astro more conspicuous to other drivers. Headlamps and other exterior lamps automatically illuminate at night and in low-light conditions.

Basecoat/Clearcoat Paint. The standard basecoat/clearcoat paint process provides a high-gloss shine and resists fading for an attractive, enduring exterior.

Tow/Haul Mode. The Tow/Haul mode enhances towing performance while pulling a trailer or hauling heavy loads. The function lengthens the transmission shift timing and helps reduce throttle pedal activity by the driver.

Available Programmable Door Locks. On Astro models equipped with power door locks, none of the doors automatically lock or unlock. Customers can program the locks in one of three ways: all doors automatically lock when the vehicle reaches 15 mph and unlock when the key is removed; all doors lock at 15 mph, with only the driver door unlocking at key removal; or all doors lock at 15 mph, with none of the doors unlocking when the key is removed.

Standard Sliding Side Door. The sliding side door on Astro Cargo Van allows for convenient loading of cargo and bulky items. The door comes without a window, but is available with a fixed window.

Two-Sided Galvanized-Steel Exterior Body Panels. Two-sided galvanized steel on all exterior panels (except the roof) helps eliminate cosmetic corrosion caused by scratches and chips, as well as rust-through from the inside surface.

Unibody Construction. A partial front ladder-type sub-frame combines with the floor panels to give Astro Cargo Van added rigidity.

All-Wheel-Drive. Astro Cargo Van, unlike most minivans, offers an available All-Wheel-Drive system that allows the vehicle to operate normally in rear-wheel drive until the system senses rear-wheel slippage. It then transfers torque to the front axle for added traction.

Independent Front Suspension. Astro Cargo Van features a rugged and reliable independent front suspension (with coil spring design on rear-wheel-drive models, torsion bars on All-Wheel-Drive models). The Short/Long Arm design helps keep the front wheels virtually straight up and down at all times for a comfortable ride and precise control.

100,000-Mile Maintenance. Vortec engines feature platinum-tip spark plugs that can go up to 100,000 miles before their first scheduled replacement. And you can travel up to 150,000 miles or five years, whichever comes first, before the first scheduled coolant change. Maintenance needs vary with different uses and driving conditions. See the Owner's Manual for more information.

Rubber Cushion Body Mounts. Ride harshness and road noise are reduced by vibration-dampening components that isolate the body from the suspension.

Stainless-Steel Exhaust System. The muffler and exhaust system (from the converter back) are made of corrosion-resistant aluminized stainless steel and are designed to provide long-lasting durability.

Variable-Rate Steel Multileaf Rear Springs. Specially designed springs help provide Astro Cargo Van with a smooth, controlled ride.

Standard Four-Wheel Antilock Brake System. Four-wheel ABS helps the driver maintain steering control by reducing wheel lockup while braking hard on most slippery surfaces.

Towing Power. Thanks to its powerful Vortec 4300 V6 SFI engine and rear-wheel drive, Astro Cargo Van can tow up to 5,900 lbs.* — in fact, Astro Cargo Van out-tows all front-wheel-drive minivans, some by a ton or more.†

Cargo Space. Astro has an impressive 170.4 cu. ft. of cargo space and more than enough cargo floor width to add a bin package available through the Commercial Customer's Choice Program. Or you can choose the Protecto-Van option, which offers an Adrian Steel floor mat.

*Maximum trailer ratings are calculated assuming a standard equipped base vehicle plus driver. The weight of optional equipment, passengers, cargo and required trailering equipment will reduce the maximum trailer weight. See your Chevy Truck dealer for details. †When properly equipped.

Super Size It.

Chevy Express Cutaway Van has the strength to handle the big jobs.

When you add a commercial cube body to the impressive strength and thoughtful design of a Chevy Express Commercial Cutaway Van chassis, you have a truck that's ready to get to work.

Three wheelbase lengths (139", 159" and 177") are available to make certain your various commercial needs are met.

A **4,300-lb. front axle** is standard, while **Gross Vehicle Weight Ratings (GVWRs) up to 12,000 pounds** are available.

You can choose between **two Vortec V8 engines** (including a powerful new 8100 V8) or a 6.5 liter Turbo-Diesel. All are teamed with a standard electronically controlled, heavy-duty, **four-speed overdrive automatic transmission**.

The **comfortable full-size cab** has the most legroom in its class* and ample space up front to make getting in and out easy.

Whether your job takes you across town or across country, Chevy Commercial Cutaway Van has the load-carrying capacity to take on the big jobs.

***NOTE:** Unless otherwise noted, all claims in this brochure are based on 2000 competitive information and, when vehicle class is indicated, the Large Cutaway Van segment. All claims exclude other GM vehicles.

Chevy Express Commercial Cutaway Van shown in Medium Gray Custom Vinyl.

Chevy Express Commercial Cutaway Van shown in Summit White with Spartan cube body from Supreme Corp. See the back cover for information about alterations and warranties.

Chevy Express Commercial Cutaway Van Features:

Three Available Wheelbase Lengths.

Wheelbase lengths of 139", 159" and 177" are offered to make sure many different cube bodies can be accommodated.

Standard Four-Wheel ABS.

This system helps the driver maintain steering control by reducing wheel lockup while braking hard on most slippery surfaces.

Single Or Dual Rear Wheels.

Chevy Express Commercial Cutaway Vans are offered with either single or dual rear wheels to tailor the vehicle for your weight-carrying needs.

Plenty Of Power.

Chevy Express Commercial Cutaway Vans offer two different Vortec engines (including the new Vortec 8100 V8 SFI engine) and a 6.5L Turbo-Diesel to meet all of your cargo-carrying needs.

Full-Length Steel-Frame Chassis.

This chassis provides excellent structural support for both the body and payload.

Second-Stage Multileaf Rear Springs.

To provide additional support without sacrificing a quality ride, specially designed two-stage multileaf rear springs engage as the load weight increases.

Welded Ladder-Type Frame Construction.

The frame construction helps resist twisting and flexing and also helps contribute to the smooth, quiet ride and stable handling.

Four-Speed Overdrive Automatic Transmission.

Electronically controlled, heavy-duty four-speed automatic transmission helps provide smooth shifting.

Stainless-Steel Exhaust System.

The muffler and all pipes from the converter back are made of corrosion-resistant aluminized stainless steel to provide long-lasting durability.

Standard tires: all-season radial — dual rear	LT225/75R-16D	LT225/75R-16D	LT225/75R-16D

S — Standard. O — Optional. ¹Gross Vehicle Weight Rating includes vehicle, passengers, equipment and cargo. Higher GVWRs (where available) require optional equipment. ²Base payload includes passengers, equipment and cargo. Payload ratings are based on engineering test weights at time of printing and reflect base engines. ³Sequential Fuel Injection. ⁴This diesel engine includes a specific warranty for 5 years or 100,000 miles, whichever comes first. A deductible per repair visit applies after 3 years/36,000 miles. See your Chevy Truck dealer for terms and conditions of this limited warranty. ⁵4,300 lbs. with 12,000 GVWR. **NOTE:** Tire load range: D (8-ply), E (10-ply).

In For The Long Haul.

Power to tow. Power to haul. Power to do the job from dusk until dawn. That's what you expect, and that's exactly what the engines in **Chevy Commercial Vans** deliver. This lineup includes a series of **powerful Vortec engines**, all of which have the dependable strength you need to help get a heavy load moving and keep it moving, even when merging or passing. A Chevy Express Cargo Van powered by an available **Vortec 8100 V8** can trailer up to 10,000 lbs.,* when properly equipped, while **Astro Cargo Van out-tows all front-wheel-drive minivans, some by a ton or more.**[†] You can be sure your trucks are in for the long haul with Chevy Commercial Vans.

*Maximum trailer ratings are calculated assuming a standard equipped base vehicle plus driver. The weight of optional equipment, passengers, cargo and required trailering equipment will reduce the maximum trailer weights. See your Chevy Truck dealer for details.
[†]When properly equipped.

TRAILERING BASICS
Towing a trailer involves all major vehicle systems of your Chevy Truck, including powertrain, steering, suspension and brake systems. Easy and safe trailering requires a properly equipped vehicle, additional trailering equipment and an appropriate trailer. It also requires loading both the vehicle and trailer properly, using safe driving techniques, meeting regional legal requirements and following break-in and maintenance schedules. You are responsible for being sure you have the appropriate equipment and hitch for your specific trailering situation. If you plan to tow a trailer, consult the Owner's Manual and speak to a trailering expert at your Chevrolet dealership or visit our web site at chevrolet.com

The chart at right will assist in determining how to best equip your Chevy Truck for trailering. To help you understand the charts, consider these trailering factors:

Horsepower: Indicates how much work the engine does at a certain engine speed. At mid- to high-engine rpm, it's what keeps you moving at highway speeds. (See pages 19 and 22-24 for hp/torque numbers.)

Torque: Indicates the strength of the engine. Low-end torque reflects how much force is generated to get your vehicle moving. (See pages 19 and 22-24 for hp/torque numbers.)

Axle Ratio: Along with your vehicle's transmission gears, a higher rear axle ratio contributes to how much available torque and horsepower (mechanical leverage) can be applied to the drive wheels for launch and uphill

performance. Higher rear axle ratios, however, sacrifice fuel economy when not trailering.

Ball Hitch Trailering: There are two types of ball hitches. A weight-carrying hitch consists of a ball and coupler with no means to distribute the hitch weight. It is used primarily for lightweight trailers. Heavier trailers, however, require a weight-distributing hitch which uses spring bars to transfer some of the hitch weight forward onto the tow vehicle's front axle and rearward onto the trailer's axle(s).

RGAWR and GVWR: Addition of trailer hitch weight cannot cause vehicle weights to exceed Rear Gross Axle Weight Rating (RGAWR) or Gross Vehicle Weight Rating (GVWR). These ratings can be found on the certification label located on the driver door or door frame.

GCWR: The Gross Combination Weight Rating (GCWR) is the total allowable weight of the completely loaded vehicle and trailer including any passengers, cargo, equipment and conversion. A properly equipped tow vehicle and trailer at the maximum GCWR should be able to accelerate and merge with traffic, climb typical interstate grades at highway speeds, handle the combination on most road surfaces, and stop adequately within a reasonable distance. The GCWR for your vehicle should not be exceeded.

Maximum Trailer Rating: This rating is determined by subtracting the tow vehicle's weight (curb weight) from the GCWR. When a base vehicle (curb) weight is used, additional passengers, equipment and cargo weight must be added and will reduce the maximum trailer rating.

GROSS COMBINATION WEIGHT RATINGS FOR TRAILERING — AUTOMATIC TRANSMISSION

GCWR (LBS.)	9,500	10,000	10,500	11,000	12,000	13,500	14,500	15,000	17,000	19,000
ENGINE	REAR AXLE RATIO									
Vortec 4300 V6	3.42	3.73	4.10							
Vortec 5000 V8			3.42							
Vortec 5700 V8				3.42	3.73	4.10		4.56 ¹		
6.5L Turbo-Diesel V8							3.73 4.10		4.56 ¹	
Vortec 8100 V8						3.42		3.73	4.10	4.56 ¹

¹ Available on Chevy Express Commercial Cutaway models only.
NOTE: The Gross Combination Weight Rating (GCWR) is the total allowable weight of the completely loaded vehicle and trailer, including any passengers, cargo, equipment and conversion.
NOTE: The vehicle owner is responsible for obtaining the hitch ball, a hitch of the proper size, type and capacity, and other appropriate equipment required to safely tow both the trailer and the load that will be towed. Ask your Chevrolet dealer for advice about towing and the proper towing equipment for your new vehicle.

TRAILERING CAUTIONS

NOTE: Please read this Trailering Caution safety information before trailering with your new vehicle. The safety steps described here are by no means the only precautions to be taken when trailering. See the Owner's Manual for the Chevy Truck of your choice for additional guidelines and trailering tips. If you don't use the correct equipment and drive properly, you can lose control of your vehicle when you pull a trailer. For example, if the trailer is too heavy, your vehicle brakes may be less effective. You and your passengers could be seriously injured. Pull a trailer only after taking the following steps:
TRAILER BRAKES: If your trailer weighs more than 1,000 lbs. loaded, then it must have its own adequate brakes. Be sure to read and follow the instructions for the trailer brake controller so that it is installed, adjusted and maintained properly. Don't tap into your vehicle's brake system if the trailer's brake system will use more than 0.02 cu. in. of fluid from your vehicle's master cylinder. If it does, neither braking system will work well. You could even lose your vehicle's brakes. The trailer brake parts must be able to take 3,000 psi of pressure. If not, the trailer brake system must not be used with your vehicle. If everything checks out thus far, have a qualified individual make the brake fluid tap at the port on the master cylinder that sends fluid to the rear brakes. Don't use copper tubing because it will bend and ultimately break. Use only double-walled steel brake tubing.
HITCHES: It's important to have the correct hitch equipment. Crosswinds, large trucks going by and rough roads are just a few of the reasons why you'll need the right hitch. Here are some rules to follow: Be sure to use a frame-mounted, weight-distributing hitch and sway control of the proper size if you'll be towing a trailer that, when loaded, weighs more than 2,000 lbs. (Astro); 4,000 lbs. (Chevy Express). The equipment is very important for proper vehicle loading and good handling when you're driving. If you have to make any holes in the body of your vehicle to install a trailer hitch, be sure to seal the holes if you ever remove the hitch. If they're not sealed, dirt, water and deadly carbon monoxide from the exhaust can get into your vehicle.

All claims exclude other GM vehicles.

Please Contact Us ...

For additional information on 2001 Chevy Commercial Vans, please call **1-800-950-2438** or visit us on the Internet at **chevrolet.com**

Customer Assistance Center.

The Chevrolet Customer Assistance Center has a special toll-free number: **1-800-222-1020**. It puts you in contact with Chevrolet specialists who can handle any product or service question or concern you may have with your new Chevy Commercial Van.

New Vehicle Limited Warranty.

The GM 3-year/36,000-mile (whichever comes first) New Vehicle Limited Warranty covers repairs for all 2001 Chevrolet commercial vehicles, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle (including tires) will be covered for 3 years or 36,000 miles, whichever comes first. There is also emissions control system coverage, which varies by geographical region. See your Chevrolet dealer for terms of this limited warranty.

An Important Note About Alterations and Warranties.

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials, or workmanship of any alterations by any such supplier.

Updated Service Information.

Chevrolet regularly sends its dealers useful service bulletins about Chevrolet products. Chevrolet monitors product performance in the field. We then prepare bulletins for servicing our products better.

Now you can get these bulletins, too. Ask your dealer or, for ordering information, please call toll free:

1-800-551-4123.

Assembly.

Chevrolets and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet Trucks with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

Engines.

Chevrolet trucks are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

Rust-Through Corrosion Protection.

Chevrolet trucks are designed and built to resist corrosion. All body sheet-metal components are warranted against rust-through corrosion for 6 years/100,000 miles (whichever comes first). Application of additional rust-inhibiting materials is not required and none is recommended. See your Chevrolet dealer for terms of this limited warranty.

Commercial Customer's Choice Program.

Through the 2001 Commercial Customer's Choice Program, you can upfit your work trucks with a variety of toolbox or specialty packages at little or no additional cost. See page 7 or your dealer for complete details.

An Important Note About Suppliers.

The safety and productivity of your completed vehicle require that the addition of a body, equipment and/or any other type of alteration be performed in accordance with all applicable Federal Motor Vehicle Safety Standards and in accordance with prudent engineering principles. Vehicle completion and/or alterations should be performed only by professional, reputable intermediate and

final-stage manufacturers or vehicle alterers. Consumers are urged to inquire as to the facilities, trained personnel and professional group affiliations of the intermediate and/or final-stage manufacturer or vehicle alterer that may install a body or equipment on your Chevrolet chassis or perform any type of alteration to your vehicle. Make sure your supplier uses the proper equipment to the exact specifications required to make your Chevrolet perform as it was intended.

A Word About This Brochure.

We have tried to make this brochure as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

GMAC.

We're certain you'll be pleased with your Chevy Commercial Van. And with GMAC, we're certain you'll be pleased with your financing, too. GMAC provides an array of finance options customized to each company's unique financial needs, including commercial lines of credit, low cash outlay, ComTRAC leases and custom/skip payment plans.
